**OMEMEE**  
Beautiful growing weather. The crops on Emily hills never looked better. Fruit prospects are fine, helped by spraying and many other good hints given to farmers in the Watchman Warder.  
We regret to report that J. J. Nicholls is not making a very good recovery after having his leg amputated, being so long confined to the house before.  
There will be a garden party at the beautiful residence of J. E. Adams on the 1st July evening, which will prove a nice wind-up for those who go to Lindsay on that day. Fine program and refreshments.  
The Misses Laidley and Corneil, Mesdames Cunningham, Rea and their husbands and brothers are camping on Scugog, near Valentia, and report good fishing.  
The Rev. Mr. Kannawin will occupy his own pulpit next Sabbath, and will preach to the Emily district Orangemen on Sunday 6th July.  
Rev. Mr. McDonald, formerly of Glenarm, filled the Presbyterian pulpit very acceptably on last Sabbath, being on his way to take charge of the Keene congregation.

The petition is being rapidly filled up favoring the resolution passed by our county councillors not to have our division court removed from here after an existence and convenience of over half a century. The Coronation services in the Anglican church will be largely attended.  
The Woodmen's garden party on the evening of Coronation day will also be an attractive affair. Good program and refreshments. Baseball matches and other sports.  
Horse races, athletic sports, balloon ascension and parachute drop, excellent band music, Caledonian games, etc. Lindsay, July 1st, Dominion Day.

The Australian Premier Talks of A Customs Union.  
IS NOT PRACTICAL POLITICS.  
Interimperial Free Trade Would Deprive the Colonies of Too Much Revenue— Mutual Tariff Concessions Within the Empire Stood on a Mere Practical Basis—What He Hopes For.  
London, June 21.—In an interview yesterday, on the forthcoming colonial conference, Edmund Barton, Premier of Australia, said he considered that an imperial customs union was not within the bounds of practical politics, though it might be possible many years hence. But any empire free trade now would deprive the young communicants of their main source of revenue, namely, the customs, and render it impossible to carry on their internal Government successfully. Mutual tariff concessions within the empire stood on a more practical basis, and he hoped to see the difficulties in the way of such concessions, removed.

**KAISER UPHOLDS CHURCH.**  
Says Empire is Rooted in Simplicity and the Fear of God.  
Aix-la-Chapelle, Prussia, June 21.—A striking speech on religion was delivered by Emperor William here last night, after his arrival at Aix-la-Chapelle, accompanied by the Empress and the Crown Prince Frederick William, on his way from Bonn where Their Majesties attended the celebration of the combined centennial of the raising of the Bonn Hussars and the establishment of the Borussia corps of students, of which His Majesty and the Crown Prince are members.  
The Emperor said: "It must not be forgotten that the empire was rooted in simplicity and fear of God. I look at all priests and laymen, to help me uphold religion among the people in order that its health and strength. This applies equally to the two creeds, Catholic and Protestant."  
It is with pride and joy that I am able to tell you that the Pope said to my special ambassador who went to Rome on the occasion of the Holy Father's jubilee, that he had always kept a high opinion of the piety of the Germans, and especially of that of the German army. The Pope asked my ambassador to tell his sovereign that the country in Europe, where control, order and discipline still prevailed, with respect for authority and regard for the Church, and where the Church could live, was the German empire, and for that the Papal See was indebted to the German Emperor."

**CATTLE FOR SOUTH AFRICA.**  
A Shipment Has Already Been Made From Texas—50,000 in All May Be Sent.  
Fort William, Texas, June 21.—One of the most comprehensive deals in Texas cattle had its initiative in the shipment of 60 head of Texas cattle from Pensacola, Fla. The shipment is intended as the first of many thousands to be used in restocking the depleted herds of South Africa.  
Walter D. S. Maude was at one time a member of the 67th Highlanders, later the owner of Moon Ranch in the Texas handle, later a lieutenant in a British regiment in the Boer war, and at present holding a major's commission in the British army. Richard Carrow, the other member of the firm that made the shipment, is owner of the Windhorst Ranch in Clay County. It is understood that these two gentlemen have a contract to supply the British Government with young breeding cattle in South Africa.

The shipment from Pensacola consisted of bulls and heifers, high grades and pure bloods, none of which were over 3 years old.  
Should this initial shipment turn out well it is the purpose of Messrs. Maude & Carrow to follow it with others, each aggregating 10,000 head, until 50,000 head have been sent to South Africa.  
By virtue of the regulations established by the British Government, the whole of the shipment from Pensacola were inoculated for tuberculosis before embarkation.

Lord Methuen's Wish.  
London, June 21.—General Lord Methuen, who was severely wounded and captured by the Boers at Tweebosch, Transvaal, has written from South Africa to his family at Corsham Court, Wiltshire, England, asking them to induce his friends and neighbors to permit him to return home without any demonstrations of welcome, out of respect to the many comrades he has lost in the war.

Beresford Roasts the Navy in Imperial House of Commons.  
DEPARTMENT LACKS INITIATIVE.  
Whole System is Rotten—Treasury Control is Fatal to the Efficiency of the Fleet—Officers Compelled to Threaten Resignation to Get Anything Done—The Navy Short of Men.

London, June 21.—During the course of the discussion of the navy estimates in the House of Commons yesterday, Rear Admiral Lord Charles Beresford (Conservative) scathingly criticized the deficiencies of the navy. He declared the whole Admiralty system was rotten and led to the great extravagance and the general want of efficiency of the navy, on which depended the existence of the Empire.  
This was the judgment of all the commissions of inquiry and had been proven to be a fact. Every increase in the number of ships and every improvement in them had been the result of outside agitation. As the result of such agitation the British Mediterranean fleet was now a fourth stronger than it was a year ago.  
It was remarkable, Lord Beresford added, that both army and navy officers were compelled to threaten to resign in order to get things righted. Great Britain had only 20,000 naval reserves instead of the requisite 80,000, and the engine-room departments were thousands of men short. As to armament, both the United States and France possessed superior guns.

Blunders would continue until a separate business board was appointed at the Admiralty and was made responsible for the efficiency of the

need. Treasury control was fatal to efficiency. As an instance, the speaker pointed out the case of Sir William Vernon Harcourt (Liberal), who, when he was Chancellor of the Exchequer, put his pen through the ammunition supplies after the guns had been ordered.  
The Secretary of the Admiralty, Mr. Arnold-Forster, in a general reply to the criticisms of the navy, denied that the Admiralty had been influenced by Lord Beresford's threats to resign. The navy, he added, had been steadily improving, but there was still room for the reinforcement and intellectual equipment of the system, which directs or ought to direct the forces of the Empire.

## Gray?

"My hair was falling out and turning gray very fast. But your Hair Vigor stopped the falling and restored the natural color."—Mrs. E. Z. Benomme, Cohoes, N. Y.

It's impossible for you not to look old, with the color of seventy years in your hair! Perhaps you are seventy, and you like your gray hair! If not, use Ayer's Hair Vigor. In less than a month your gray hair will have all the dark, rich color of youth.

Dunnville, June 21.—While off the west swing bridge on Monday evening, Prof. F. Borel, pianist, artist, hooked a 16 1/2 pound longie.
