A GRATEFUL MOTHER'S MESSAGE

ZAM-BUK CURED HER CHILD OF ECZEMA WHEN ALL ELSE FAILED.

In gratitude for the great benefit her child received from the use of Zam-Buk, the great herbal balm, Mrs. R. Gentleman, of 1090 St. James street, Montreal, gave the following details for publication. She says: "My little daughter, Lydia, (2 years) was troubled with eczema on her hands and face for six months. During that time we tried several advertised remedies, but the disease had too well hold of the child for these to overcome, and finally we were obliged to consult a doctor. He treated the little one for some time, and gave us prescriptions for various salves and medicines. We tried them, and tried them well; but the child got no better. When she got warm the itching was terrible, and then the pain made her cry and be very restless. One day someone strongly advised me to try Zam-Buk. We obtained a supply, and it was really wonderful how the Zam-Buk cooled the pores and gave almost instant relief. It stopped the itching, healed the sores, and in six weeks from first commencing it, the child's skin was as smooth as when born.

Zam-Buk is compounded from rich, healing, herbal essences, and is an ideal natural combination of power and purity, suitable for the delicate skin of infants.

For summer skin troubles, sore feet, insect stings, chafing sores, bruises, ulcers, abscesses, skin eruptions, scalp sores, Zam-Buk is unequalled. It also cures piles. All druggists and stores at 50c a box, or from Zam-Buk Co., Toronto, for price, 4 boxes for $2.50.

Mrs. James Whytock, sr., brought in the other day the largest hen egg we have ever seen. It was laid by a light Brahma hen, and measured 7x9 inches, weighing 5 ounces. This puts in the shade the number of large eggs so far received.—Madoc Review.

Cavan district meeting of Orange lodges met here on Saturday last, and besides other business laid plans for a great celebration of the 12th in Millbrook. Committees were drawn up and the work started for a successful 12th.—Millbrook Reporter.

The Northern Hotel, Kinmount, has been purchased by Mr. James Simpson, of Peterboro, who expects to take possession in a few weeks.

The death occurred in Smith, at the home of Mr. John Galvin, last week, of Miss Bridget Cecilia Sullivan, after a lingering illness. She was born in Ennismore 27 years ago and was the daughter of John Sullivan, of Wisconsin.

Rev. J. E. Trotter, formerly pastor of Peterboro Baptist church, and a widely-known clergyman, died at Port Hope, on Friday evening. He had been ill only ten days, and death was due to typhoid fever.

A smelter plant for high-grade ores may be established at Trenton. The Company who purpose to establish the plant agree to make an expenditure of $20,000, and guarantee to run the plant for at least ten years, and employ an average of at least ten men. A by-law to grant exemption, etc., for the concern, will be submitted to Trenton ratepayers on June 28th.

The three-year-old child of Mr. Fred Staples, north of Cavan, met death in a peculiar manner on Tuesday of last week. The little fellow crawled through a hole in the barn in search of eggs, and when endeavoring to get back, was caught, and before aid reached him, he strangled.

Fisherman's Luck.

Speaking of fishing, "fishermen's luck," "lucky fishermen," etc., what does it all mean anyhow? To say a man is a lucky fisherman is merely to admit his superiority as a fisherman over other fishermen. The fish are in the water. We all have the same chance to get them, yet some "lucky fishermen" always come home with their fish boxes full and the other fellow gets nothing. In the parlance of the fisherman, the word "luck" really means "knowledge." The "lucky fisherman," you will find, knows the rock holes where the grouper lurks; he knows the channels in and about the patches and passes where the amberjacks and barracuda live; he knows where and how to find and capture the silver mullet for bait; he knows how to bait his hooks for different fish as occasion may require; he knows the style of hook to use for every kind of fish; he is a judge of what style of fishing to do under certain conditions of wind and weather, and, above all, he is untiring in his efforts to use all of his knowledge when he is out for fish.

One and a Million.

"That's the first time I ever sold a single envelope," said the young woman at a big stationer's store in the city's center. "I've always sold them in packages, but that gentleman came in with a letter in his hand and asked for an envelope, and I sold him one for a cent. I imagine that's the smallest sale that has been made in this establishment since it opened. The biggest I ever made happened to be in the envelope line too. A rather roughly dressed man came in, asked to see our envelopes and wanted to know the price by the thousand. I told him. Then he asked the price by the million. I got the figures from our manager, who smiled as he gave them to me. Yet the man ordered a million envelopes, and when we asked for reference he said he would as lief pay the bill on the spot, which he did from a roll of yellow back bank notes about the size of a loaf of bread. We delivered the envelopes, but haven't seen the purchaser since."

Progressive.

"Please, mum," said a tramp, "would you be so kind as to let me have a needle and thread?"

"Well, y-e-s," said the housewife at the door; "I can let you have that."

"Thankee, mum. Now, you'd oblige me very much if you'd let me have a bit of cloth for a patch."

"Yes, here is some."

"Thankee very much, mum. It's a little different color from my suit, I see. Perhaps, mum, you could spare me some of your husband's old clothes that this patch will match."

"Well, I declare! You're clever, my man, and I'll give you an old suit. Here is one."

"Thankee greatly, mum. I see it's a little large, mum, but if you'll kindly furnish me with a square meal mebby I can fill it out."

A Quick Wit.

Husband—Did you notice how ill tempered my colleague was this evening? He was annoyed because I have brought you a new set of jewelry. Now he will have to get a new set for his wife too. Wife—A disagreeable fellow that man is! If I were you, I would annoy him often.

Real Distinction.

"Is Mr. Scadds a man of scientific distinction?"

"Yes, indeed," answered Miss Cayenne. "He has so many college degrees that when he sends in his card you can't be sure whether it is his name or a problem in algebra."—London Tit-Bits.

In Chimney of School.

A striking sight was witnessed by passers-by on Laurier Avenue, near Kent street, Ottawa, recently. The sight consisted in the antics of a large flock of swallows, which have made their home in one of the big chimneys of Kent street school. Thousands of swallows circled ceaselessly in the air over the school, hundreds every now and then darting down like an arrow in the chimney's mouth, while as many at the same time flew out. The shrill clattering of the swallows, and their numbers, attracted general attention.

Principal McJanet says the birds came to the chimney several weeks ago, but their evolutions of yesterday were unusual. The chimney which the birds have appropriated is one used as a foul air flue only, consequently the swallows are not disturbed by smoke. The janitor is, however, disturbed by the birds, as nearly every day a number of them get to the bottom of the flue and work through the gratings into the school rooms, and it is often hard to get them out.

The mystery to the teachers and the pupils, however, is how the thousands of bird all manage to get into the one chimney, and how they hold on to the sheer sides once they are there.
