#### Thurston's at Dunsford to Hold Family Reunion Every 24th of May in Future The Cresswell-Manilla Case

From Thursday's Daily. Thurstonia Park, having been surveyed and planned, was formerly opened just a year ago by a family gathering of the friends and relatives of the owner of the park, Mr. Fenry Thurston. So successful and thoroughly enjoyable was the occasion that the suggestion to make Victoria Day an annual event at park received ready response. joyable as was the event of a year triumph. The juniors as yet, at any of voters in the sub-division, ago, this year was far more so.

The park during the year, although through nature's kindly touch, is always an enchanting and attractive place, had been greatly improved. The grounds were graded, the trees trimmed, walks and shaded avenues arranged. A large campus embracing fully two acres, had been prepared so that admirable opportunpopular games requiring much space

of timbers and stone has been pro- gathering of the Thurstons and their and now any craft or vessel friends from shroughout the Dominsailing the Kawartha waters can ion in particular, should be agreed land at the park; any load of pas- to for all time to come, upon Victorsengers or cargo, with safety ease. Cottage, booth and stable accommodation, with swings, seats, and shady nooks, have been arranged with an abundant supply of well water at hand. In fact, few places from any point of view presents more attractions for a summer outing than Thurstonia Park.

It was not, therefore, a matter; much astonishment that the munity of Dunsford turned out mass to enjoy Victoria Day at Thurstonia. The campus was occupied for the first time, and received its baptism by the junior and senior football teams of the village. Although the game is a little out of season at this time of the year, the teams resolved to try conclusions on Victoria Day. The game was called about three o'clock. Coats and other unnecessary garments were set aside, groups of interested spectators gathered here and there about the grounds, and the attractive Canadian young women in holiday and dence, while interested older ones, with the full complement of younger boys and girls also, co-mingled with

the crowds of spectators.

But to glance at the manly chaps flict. The seniors were a fine samyouth-men of fine physique, apparple of active and well developed ently quite conscious of their agility ten, of Dunsford, was declared however, might be discerned a trace of something which plainly enough declared that if the seniors won goal, they, at least would have to proceedings to a close. work for it.

The teams are immediately at work - the seniors are the stronger; the ball is soon dangerously near goal, but just here the juniors seemed to develop such agility and skill that the seniors were baffled in every attempt to put the ball through the goal. This condition of things was maintained through the entire game, Market Lists lasting about two hours, without
