seems to have undiminished faith in large majority for the Ministerial ed out. candidate. It does not look as if the reaction had set in, although the Toronto organ of the Opposition declares from time to time that such is the case.

THE BIG HATS

It is interesting to note that the Federal railroads in Switzerland have decided to charge extra for big hats, not when sent in baggage, but those on women's heads. Stimulated by the complaints of men who have had their eyes put out, their hair disarranged and their ears cut by the enormous hats of women passengers, these railroads are going to measure every woman's hat, and any hat that is more than eight centimetres in diameter (about 31 inches) will be classed along with bicycles and carts and other things that have wicels, and cannot go in on the wearers' tickets.

Rigid cross-examination fails to break down his testimony upon this point, and it is equally certain that after the accident he had only one. The lost optic was represented not even by debris and wreckage. The young woman carried it away bodily upon her hatpin while she herself disappeared as absolutely as though the earth had swallowed her.

A YEAR TO CONSIDER

There is no gainsaying in the fact that the Grand Orange Lodge varieties at the drug their meeting in Peterboro, touched on a very important question, in fact, which was so important that it was decided to leave it over until the meeting next year.

When the delegates from British ty, all of Omemee. Columbia asked that the Lodge establish a political platorm, they trumped up a matter that has been considered time Umemee time again by the older members of the Orange Lodge, and the standing Day, were about \$100, quite a gratover of the question for a year long- lifying response, er was a wise step. The question Dr. Snelgrove has changed his of establishing a party platform and place of residence from King-st. to getting a candidate to support that the Presbyterian manse on Sturgeonplatform, is one that will require a st. great deal of thought. The members of this important body will have ample time to discuss the pros and cons of the question within the next King-st. twelve months. Although there are many old and young members of the The Watchman-Warder Printing Co., Order in favor of the step, there are also many old and young members Mitchell. of the order adverse to the step.

THE ADDRESS ..

Dear Superintendent,-For a great many years you have labored with us in this Sabbath school. The good that has been done by you in the noble work, no human mind can measure, for it is a work that aifects character, conduct and destiny. Children have come into this school in tender years and have grown up to manhood and womanhood under its influence, and have gone out to fill places of responsibility and trust. We thoroughly believe that they are the better for having come under the influence of the teaching and life of this Sabbath school in which you have filled for so many years, the responsible position of superintendent, and we believe your life and teaching and work will tell upon many other lives for their lasting good. We desire to say that we appreciate very much what you have been to us, and what you have done for us, more than words can express. Sorrow is ours in knowing that you are soon to leave us. We therefore, ask you to accept this gift (a clock) from us as a suggestion in a small degree of our appreciation of your work and worth. While you have labored with us in the Gospel, may the Head of the Church spare your life many years that you may continue to spend your many talents for the building up of the Church of the ever-loving Christ.

Signed on behalf of the school: J. B. Weldon, Assist.-Superintendent; J. M. Pascoe, teacher; L. Harcus, teacher and treasurer; H. Lane, teacher; Mrs. J. M. Pascoe, teacher ; Leslie Mark, secretary ; Mrs. J. S. Tinney, Jos. Tinney, K. Harcus, E. B. King, J. F. Brass, Mrs. M. James, teachers.

MakeThingsGrow

Spring is here and right now is the time to make things grow. The trees and bushes need pruning, the dead limbs should be taken off, and the garden and lawn will amply repay you later on for a little attention now. Good workmen use good tools, and those are the only kinds we carry. Let us suggest garden barrows, garden and lawn rakes, spades, spading forks, shovels, garden trowels, pruning shears and saws, spray pumps. Briefly, everything to make the lawn, garden and shrubbery beautiful for the coming year.
