LOST IN WOODS. Much excitement prevailed here last Wednesday, says the Harburn correspondent to the Minden Echo, when it was discovered that R. H. Holland, Esq., of Port Hope, who was visiting at Mr. A. Curry's, was missing. He left the house after dinner to look for wild flowers but failed to return. Search was made but up to ten o'clock that night no trace of him could be found and early next morning every man in Harburn was out but could not tell which way he had gone. He finally came out on the Haliburton road a few miles south of the settlement and managed to reach Mr. Thos. Roberts' who drove him home very little worse for his twenty-four hours ramble in the woods.

BOY KILLED.

C. E. Kilmer, a former citizen of Bobcaygeon, was killed on Thursday evening under most distressing circumstances. He was an electrical engineer and had been to Sweden to arrange for a quantity of machinery for new works that he had in hand.

He was on his way home from Sweden, to Southampton, and in passing through Walkerton, the old home of his parents, he got off the train to send a message to his father, and in getting on the moving train again he fell under the wheels and had one leg taken off. He was taken to the Walkerton Hospital, but died a few hours later. His mother died a few months ago. He leaves a wife and three children, one being a baby a month old.

Overtaxed Nerves a Distress Signal

THE TROUBLE CAN ONLY BE CURED BY ENRICHING BLOOD SUPPLY.

When your nervous system is exhausted the trouble makes itself evident in many ways. You feel always fatigued and unfit for work. Severe headaches distract you; your back is weak; you sleep badly; your appetite is uncertain; you are nervous and irritable and after any exercise you tremble and perspire excessively. If the trouble is not checked your case goes from bad to worse until you feel that your condition is hopeless and that insanity is threatened.

Your nerves are calling for help. They are starved because they demand from the blood more nourishment than it can supply. New rich blood is the secret of nerve strength and Dr. Williams' Pink Pills for Pale People cure nervous disorders because they feed the weak, exhausted nerves with rich, red blood. The case of Mrs. Emma Hall, of Hamilton, Ont., furnishes proof that Dr. Williams' Pink Pills will cure even the most stubborn cases of nerve exhaustion. Mrs. Hall was left a widow and was forced to work in a mill to maintain herself and her two little children. She bravely faced the battle of life, though she had never had to conform to such conditions before. Notwithstanding the splendid spirit she displayed the work played havoc with delicate constitution, and some years ago Mrs. Hall noticed signs in herself of a nervous collapse. She consulted a doctor who gave her some medicine and told her she "would be all right in a few days." But relief did not come and it was finally a daily occurrence for her to faint at her work. These fainting spells quickly developed into pronounced hysteria and chronic irritability, and Mrs. Hall says that death would have been a relief. She consulted several doctors but got no help, and she felt that she was almost bordering on insanity. In this condition she was advised to try Dr. Williams' Pink Pills. Grasping at even the possibility of help she decided to do so. After taking three boxes she actually found some improvement and from that time on this improvement was steady and increasing daily until after a few months she felt the cure was complete. She says: "Dr. Williams' Pink Pills have done what doctors failed to do and what I myself thought was impossible. They have freed me from the terrible trouble I suffered and my old joy in life has been renewed." When Mrs. Hall began taking Dr. Williams' Pink Pills she weighed only one hundred pounds while under her renewed health her weight has increased to one hundred and thirty pounds.

Dr. Williams' Pink Pills can be had from any dealer in medicines or will be sent by mail at 50 cents a box or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

\$10 Will Do It

Can I spend \$10 and yet get a satisfactory suit?

More than once recently we have been asked just that question.

We say "yes" with large emphasis. \$10 will buy a fine black tweed suit, will buy a black or blue serge suit in the very newest style.

There is no room for fault about the style, the fabric, the sewing—the suit is well tailored as it should be, which means thorough workmanship. Every button, every stay, every seam is right. Pay twice as much in many places and you will get no better value than our \$10 suits. We know we are winning new friends by combining reasonableness of price with reliable tailoring.

Our line of \$10 suits is exceptional value—if you are looking for something out of the ordinary come here.
