DEATHS

BARBER.—At Beaverton, Tuesday, May 25, Leonard Barber, aged 67 years.
GERROW.—In Uxbridge township, on Monday, May 17, Elijah Gerrow, aged 79 years.
GRAHAM.—In Lindsay, on June 2, Lillian Bernetta Graham, aged 9 months.
HIS FLESH HORRIBLY BURNT.—His druggist sold him a cheap acid corn cure; what he should have bought was Putnam's Corn Extractor; it's purely vegetable and acts in 24 hours. Insist on only "Putnam's."
Two hundred men struck at the Detroit River tunnel for an increase of pay.

Canada and the Naval Supremacy of Britain

BY C. D. B. LINDSAY

In connection with the question of the probability of an alliance between Great Britain and the United States, raised by the London Spectator and the Springfield Republican and discussed in The Star of the past three or four days, one should keep in mind an incident of the early stages of the Spanish-American war, an incident never to be forgotten by our neighbors to the south. That was the proposal, believed to have emanated from Germany, and backed by Austria and Russia, that the war should be localized, or confined to the West Indian waters. If the Powers named, with France, had made a formal suggestion or demand in no unequivocal terms, and backed it up with a strong naval demonstration, the United States would have been compelled to submit to an unusual, underserved, and mortifying humiliation, that would have rankled for years, for the U. S. navy was not then of sufficient strength and weight to cope with such a situation. But the United States did not have to undergo this humiliating ordeal. When the proposal was placed before Lord Salisbury he did not hesitate a moment in stating in very plain terms on which side Britain's great naval supremacy would be cast, and what would very promptly be done. He might have shrugged his shoulders and said it was no concern of his or Britain's; that they could do as they pleased, and localize the war as they wished, and that he would keep out of the "mess." But the proposal of the Continental diplomats was never made; and when the German Admiral Diedericks, at Manila, some time later asked the British Admiral Chichester what he would do if the German warships interfered with Dewey's plans, the reported reply, "I'll do soon show you what I'll do," prevented a meddling course that undoubtedly would have brought on another war.

The incident created a most profound impression upon the naval and military men across the line, upon educated men and politicians of all classes, and accounts very largely for the strong and general feeling of friendship for Britain that has developed during the past decade all over the United States.

But because of this strong and genuine feeling, and because of the determination of the United States to maintain the Monroe doctrine, it is consistent with the national self-respect of a people as prosperous and powerful as the people of Canada to do little or nothing towards maintaining the naval supremacy of Brit-

ain, on the ground that we are on one side protected by the Monroe doctrine, and on the other side, that naval supremacy must be maintained by Britain herself, or if she does not she will have to go out of business? Not many avow this; but many practically give this policy effect in one way or another. Still, at any rate, we can, all keep on singing with greater gusto "God Save the King," and "Britannia Rules the Waves," though with mighty little help from Canada.

Three or four years ago, and on sundry occasions since, before the Sundry cable "thrillers" made the naval question the most prominent one of the day, the writer urged that Canada should, as a matter of plain, simple, everyday duty, have built in one of the great British shipyards, a battleship of the Dreadnought class, or a cruiser-battleship of the Invincible type, equip it, maintain it, man it, officer it as far as possible with Canadians, and in time wholly with Canadians, and place it at the disposal of the Admiralty, to join the North Sea fleet, or the Channel or North Atlantic fleets, as might be deemed advisable. This would be the simplest, the most effective, and the most easily to be worked out contribution that Canada could make for the maintenance of the naval supremacy of Britain, and it is the only form of contribution that would be effective or valuable and in accordance with the demands of high naval strategy under existing circumstances. That high naval strategy is based upon a few simple elementary principles that are not difficult to understand. These views expressed before the days of Sunday cable thrillers on naval questions fell upon idle ears. Now every daily newspaper in the Dominion has to write up to a "four Dreadnought" standard. It is a slow paper that does not have a naval "leader" every other day; and though the politicians are not saying much or doing much, in a few years Canada will be able to make up its mind on the question, and decide whether it will contribute to the maintenance of the mightiest sea power the world has ever seen ("of which we are so proud to form a loyal and devoted part") a few popguns and peanut affairs, or something that would be effective, something the career of which could be watched by the people of Canada with profound and absorbing interest, and which, if called upon to "display the flag" could do so in a way that Canada would be proud of. Lindsay, 28th May, 1909.

BASEBALL SATURDAY

REABORO SCHOOL TEAM TO PLAY AT FRANKLIN.

Reaboro, June 1.—Our baseball team will match their skill with the Franklin team at that place next Saturday. A considerable following from this place will journey to Franklin on that afternoon to cheer for the boys that are bound to win.

Mrs. Powell, of Toronto, was visiting her large circle of friends near here last week.

Mr. H. E. Tripp, of Franklin, passed through this village with his new auto car last Saturday!

Mr. Jas. Groer is suffering from a bad knee, which the doctors fear may prove dangerous.

Mr. David Rea is confined to his bed at present. His many friends hope to see him well again in a few days.

Mr. Robert Reeds, who has been ill for some time, is slowly recovering.

"Salada" Tea remains in favor year after year with enormously increasing sales, simply because it is always true to its high standard of quality.

45th REGT. MATTERS.

No official word has been received from Ottawa regarding the 45th regiment camp. It is expected that official notice will be received by Col. Sylvester on Saturday.

NEW SUPERINTENDANT

MR. BRASS SUCCEEDS MR. A. O. HOGG.

Oakwood, June 1.—Mr. and Mrs. M. J. Lewis, Lindsay, spent Sunday with friends here.

Mrs. Milton Somers, of Tilsonburg, is visiting friends here.

Mr. Geo. Pascoe spent Sunday with friends in Lindsay.

Mrs. Gordon, of Nestleton, visited friends here lately.

Mr. and Mrs. Walter Mitchell and Mr. and Mrs. Cornell, of Lindsay, spent Sunday with their parents, Mr. and Mrs. James Mitchell.

Mrs. T. H. Webster is spending a while with her daughter, Mrs. Rich. Horning's Mills.

Mr. J. F. Brass has been appointed superintendent of the Sabbath school.

CATARRH CURED OR MONEY BACK.

The cause of Catarrh is a germ. It multiplies in the lining of the nose and throat, spreads to the bronchial tubes and finally reaches the lungs. Cough syrup can't follow to the lungs—it goes to the stomach and fails to cure—Catarrhazone is inhaled. It goes everywhere—gets right after the germs—kills them—heals the soreness—stops discharge and hacking—cures every trace of catarrh. You're absolutely certain of cure for catarrh, throat irritation, colds or bronchitis, if you use Catarrhazone. 25c. and \$1 sizes sold everywhere.

A Central Telephone System in Mariposa

The numerous small telephone companies in Mariposa township are now connected with a "central" at Oakwood and the combination is known as the Mariposa Telephone Union. Mr. J. F. Dix, of Little Britain, is the president.

These telephones are owned by the people, and the union is co-operative. It is not being operated for profit but for the convenience of the farmers' who recognize the importance and value of the telephone on the farm.

There are few up-to-date farmers in Mariposa township who have not 'phones in their homes. With the advantages of a central station the telephone should become even more popular in the country.

Without the telephone "central," and when the various lines run from one house to another and the various subscribers are known by different "rings" there is always a chance that some will take advantage of the opportunities offered to hear the conversation of others. This

is eliminated when a central office is installed.

To give an idea of the number of subscribers in Mariposa and adjacent townships who are connected with the Mariposa Union the following list of lines which are now incorporated in the Union are given, together with number of subscribers.

Oakwood village, 12 subscribers; Sunshine Telephone Co., 14 subscribers; Maple Leaf Co., 17 subscribers; Beaver line, 12 subscribers; White Star line, 17 subscribers; Manilla Northern, 11 subscribers; Mariposa Central, 21 subscribers; Salem line, 16 subscribers; East Oakwood line, 20 subscribers; Little Britain line, 7 subscribers; Blackwater line, 7 subscribers. There are also special lines to Dr. Dale's residence, the Bank of Montreal and Pascoe's store at Oakwood.

These lines are all connected at Oakwood, as stated previously, and also with the Bell telephone system.

NEW LEAGUE OFFICERS

GOOD SEEDING WEATHER AT POWLES' CORNERS.

Powles' Corners, June 1, 1909.—For about two weeks past the weather has been especially favorable for seeding purposes, and, as a result, most, but not all, of the grain has been sowed. Fall crops of wheat and clover suffered considerably from late frosts. Grass and meadows of timothy are in a flourishing condition, but need a gentle rain. On the whole local farmers hope for profitable results, although the season is late.

Dr. Merchant and Mr. W. H. Stevens inspected the local school on Wednesday last.

Many of our citizens attended the concert and social of the Ladies' Aid in Fenelon Falls on Friday last. All were disappointed when the debate Rachelors vs. Benedicts, did not come off.

Mr. N. C. Hart spent May 23rd with his friends in Mt. Horeb.

On Wednesday evening last the annual election of Epworth League of officers took place. The following were elected:

President—Miss Flossie Moore.
First Vice-President—Miss Clara McGee.
Second Vice-President—Miss Daisy Cooper.
Third Vice President—Mr. Sam. Moore.
Fourth Vice-President—Miss Clara Powles.
Secretary—Miss Ruby Powles.
Organist—Miss Leta Cooper.

It is hoped that under the supervision of the above officers, the league will have a very prosperous and profitable year.

Mrs. M. Littleton, of Fenelon Falls, visited with her parents, Mr. and Mrs. Jas. Powles, last week.

A baseball team from this locality visited Cameron on May 24th, and suffered defeat at the hands of the latter aggregation of ball tossers. The score was 14-9. The return match will be played this week, when the locals hope to reverse the score.

A local wag gives voice to the following: "I wonder if the inability of the benedicts to uphold their side of the debate in Fenelon Falls may be taken as a proof that marriage is a failure?"

A NEW CHURCH.

At last Sunday morning's service Rev. Father Moyna, of Orillia, announced to his congregation the progress that had been made with the collections towards building the new church. The total to the end of May this year was \$16,425, of which amount \$4,971 had been paid in the last year. The ladies of the church had for the year contributed \$2,413, while the men made up \$2,568. Up to date the ladies have paid in a total of about \$4,000. It is understood that Rev. Father Moyna will begin the erection of the new edifice when he has \$20,000 cash on hand.

PRaise FOR LOWES

SCRIBE CONGRATULATES WINNER OF HUGHES' CUP.

Bethel, May 31.—A number of Bethel young people spent a pleasant day last Monday May 24, in Peterboro. A few also from here visited Omeme and we believe they also had an enjoyable time.

We were much pleased to learn that Willie Lowes, of Bethel, has captured the Sam. Hughes cup for at least one year, by his splendid race in Omeme on Monday last. We are quite confident that Willie will make good for next two years and will then become the permanent owner of the beautiful cup.

Everyone should be on hand on Friday evening next at L.O.L. 294, Bethel, as there will be only one meeting more before the glorious 12th of July. The band also intend having a practice on next Friday night, so if you are a band boy be on hand and get in line.

Our layman, Mr. Moses Ruth, preached here last evening, the minister that should have been here being absent for some unforseen reason. Mr. Ruth took his text from Jonah 1st chapter, and the 1st clause of the second verse, "Arise, go to Nineveh."

Mr. Andrew McCarrell's newly made-over barn is now nearly completed. It is a great improvement on the old one. Mr. John Wright intends raising a barn for Mr. Geo. Franks on Thursday next. That's right men keep Mr. Wright going and he'll put your buildings in shape for you.

IS NOT DEAD.

William E. Reid, the C.P.R. fireman who was knocked off the engine steps by being hit by a water column at Myrtle on Monday evening, is not dead as was reported. He is in the Nicholls' Hospital, Peterboro, and every hope is held out for his recovery, by the physicians.

NEW AGRICULTURAL CLASSES.

Agricultural classes similar to the one established at Lindsay, will be established by the Provincial Government at Carp, Carleton county, Simcoe, in Norfolk county, and Norwood, in Peterboro county. The step is an extension of the policy inaugurated by the Government about a year ago, when similar classes were opened in a number of Ontario towns. They are in charge of students or graduates of the Ontario Agricultural College, and besides providing instruction for farmers' sons in connection with their High school courses, they supply information as to seeds, crops suitable to various districts, and other subjects to the farmers themselves. The offices in connection with the classes also are centres from which the various bulletins and publications of the agricultural department are distributed.

The Government will contribute \$1,200 per year for the support of the class at Norwood. It will open in September.

DOMINION

will be right Lindsay they since the successful demo rs ago. Her evening angements a mmittee in are Messrs. hmore, W. I

For eral Min

10.—The port of the and social sented at la as continued ssembly this Dr. Pringle, but now of it some hot s inet ministers n, the Minist for some a there was proval, Dr. e.
