

A Man is Known by the Clothes He Wears

A man is often away from his companions, but in business life he is never without his clothes.

And he usually appears like his clothes.

Clothes make first and last impressions, both in business and social circles.

He is as stylish as his clothes.

Just as he measures others by their personal appearance so is he taken by the way he dresses.

Better let us build that summer suit for you and have it done right.
