Give your servants GOLD DUST to clean with, treat them rightly and you will have few occasions to insert a "help wanted" ad

They say a good workman is known by his tools. You cannot expect your maid to keep everything ship-shape unless you give her every modern help.

To keep house without GOLD DUST is to do work by hard, old-fashioned methods. For cleaning everything and anything about the house—from cellar to attic—GOLD DUST is worth its weight in gold.

In our country the law is made for the benefit of the people—to protect the poor, to enable the workman to collect his wages and to maintain him in the enjoyment of his rights under the constitution.
