Town Council to Investigate Power Sources In the Township of Minden

A special meeting of the town council was held last night for the purpose of discussing power matters and on motion the power by-law was withdrawn in accordance with a resolution passed at a meeting of the board of trade and representative citizens and it was further decided to request the Hydro-Electric Commission to send engineers to Lindsay for the purpose of going further into the power matter; also to ascertain the amount of power available back in Minden township. A committee comprising Mayor Beal, Aldermen McCrae and Horn, and Reeve Vrooman was also appointed to accompany the engineers on a trip of investigation back north, when the various sources of power will be carefully examined. The councillors feel that all the information possible should be secured in order that everything could be clearly explained to the ratepayers. It was further decided to submit the power by-law to the people in September, the 19th day preferable.

Mayor Beal stated that the Light, Heat & Power Company had made an offer to the town to take stock in the company providing they decided not to buy the plant and the company was also willing to negotiate the lowering of prices. Mayor Beal also stated that one member of the company offered to buy the company himself and pay the town for a lease or franchise providing the town did not buy. The company also agreed to extend the capacity of the plant at Fenelon Falls if the town would guarantee to take stock in the company.

Ald. McCrae stated that there was ten times more power in Minden township than at Fenelon Falls and he favored inviting the Hydro-Commission to send an engineer out to investigate the water powers back north.

Ald. McCrae—"Fenelon Falls is entitled to use 595 horse power, but I venture to say that only about 400 horse power is being used."

Second-Deputy Reeve Dobson—"Is there any truth in the statement that Lindsay is getting all the power now that the town can possibly get?"

Ald. Horn—"Yes, but every year the water is wasted in large quantities."

Mayor Beal—"I understand that the Government propose to raise the dam at Fenelon Falls some eight inches."

Ald. McCrae—"The people do not know what they are voting on. We must educate them. I claim that we will cut the rate in two and still make \$5,000 revenue a year for the town."

Second-Deputy Reeve Dobson—"What information have we to educate the people on?"

Reeve Vrooman—"Mr. Acres said there was 1700 horse power at Fenelon Falls. Does that include the 400 horse power that Fenelon Falls gets? If so what horse power do we get?"

Second Deputy-Reeve Dobson—"It includes horse power that Fenelon Falls gets."

Mayor Beal—"I am advocating what is best for the town, and I don't care for politics or anything else."

Second Deputy-Reeve Dobson—"I want to know how much power Lindsay is going to get for the money. Further, if there is a shortage of power at Fenelon Falls, if we are getting the limit of power now?"

Reeve Vrooman—"I feel like Mr. Dobson. He's after light. There have been statements made that I do not want to answer for. Before we begin to educate the people we should educate ourselves. Dr. Sims, of Fenelon Falls, said that in dry weather the water was low, so I would postpone the by-law as long as possible. We want to pass this by-law but we want to know what we are going to get for our money, and we cannot afford to take any chances, so we must have thorough investigation."

Mayor Beal—"The estimates as to amount of water in canals or other waters are made by conserving the water. The estimates are not made on dry weather figures."

Second Deputy-Reeve Dobson—"There is a statement going around town now that the poles are in bad condition; also a statement to the effect that as soon as the town owned the plant an inspector would come down and inspect and make the order, put everything in apple-pie order. That would mean a large outlay."

Mayor Beal—"It's wonderful that the plant which has been doing so well for years and making good money, should become a scrap heap just as soon as the town purchases the plant."

Ald. Clark—"I lived in Fenelon Falls 17 years and was in the council when the question came up of

supplying power to Lindsay and it was then estimated that there was 1600 or 1700 horse power at the Falls and Fenelon Falls used 400 horse power, but since then improvements have been made and the power conserved."

Ald. Horn—"There is abundance of power beyond Fenelon Falls, but we must remember there is an element working against us and no matter when we have the very best reports that element will fight against us tooth and nail—that's their business. I have no doubt that the government will put dams in the north lakes and further conserve the water there."

Mayor Beal—"The more you use the water, and conserve it beyond Fenelon Falls, the better it will be for the power at Fenelon Falls. It must pass through Fenelon Falls some time."

Reeve Vrooman suggested that Ald. McCrae, Ald. Horn and Mayor Beal accompany the engineer back north to investigate the Minden power.

Mayor Beal—"The Hydro-Electric will do anything you ask them to."

Ald. Horn—"I believe that I will vote for that Government the next time."

Ald. McCrae—"I think I will too."

Reeve Vrooman—"I hope you do, you will feel like new men."

The committee will act in conjunction with a committee from the board of trade.

Bradley Had Good Time at Orillia, Then Flew His Kite—Still Absent

What has become of Borden C. Bradley, of New York? Thereby hangs a tale.

A couple of weeks ago Bradley wrote from New York to the secretary of the Board of Trade, says the Orillia News-Telegraph, enquiring if there were any summer cottages to rent here. The secretary replied in the affirmative and a couple of days later he received a line from Bradley at Buffalo that he was to take a cottage. He appeared in due course, wasn't just satisfied with what he saw, said he would go up to Bala and see what was there and if he couldn't get anything more suitable would come back. Back he came, leased the cottage, gave a cheque for the season's rent in advance, and casually asked to be directed to a good grocer. The secretary took him over to Mr. Alex. McKerrill.

Before any groceries were purchased a housekeeper was engaged and installed, the cottage fixed up, refrigerator filled, and everything made ready for occupation. Then one morning Borden C. Bradley called on Mr. McKerrill, chatted pleasantly and bought groceries to the amount of \$12. He tendered a marked cheque for \$50 in payment of same and received \$38 cash in change. The cheque was stamped "good" by the Los Angeles Fidelity Bank. The groceries were sent over to the cottage, and in the afternoon Bradley, evidently enjoying affairs, dropped into Mr. McKerrill's and had a friendly chat. The same afternoon he disappeared and the town knew him no more.

What had become of him? Well, Mr. McKerrill deposited the cheque in the Dominion Bank as usual and it was sent to the Chicago clearing house for collection. Three days later it was returned with the information that it was of no value, the bank's stamp a forgery, and Borden C. Bradley an unheard of person. He is still unheard of.

Bradley Had Good Time at Orillia, Then Flew His Kite—Still Absent

Two Toronto people killed and five injured was the net result of an automobile accident at Hawkestone, near Orillia, Saturday evening about 6.30 o'clock.

The party were taking one of their accustomed week-end motor outings. Bowden had secured a car from a friend and Braidwood was driving it. It was not the car they customarily used, but they rented a larger one. Their destination was Atherley, where they intended to remain over night and come back on Sunday.

HALF TURNED OVER.

The accident occurred on a steep hill near Hawkestone. Braidwood was driving and Miss Crawford was sitting with him in the front seat. The other three ladies were sitting in the back and other two men were occupying improvised seats in the tonneau. The car was coming quite slowly down the hill, according to the occupants, when it was discovered that what they had taken for a slight bend in the road was in reality a sharp turn to the right. The road was heavy with sand at the place and the car almost came to a stop. Braidwood put on extra speed and the clutch, which was working stiffly, jerked the car forward with such momentum that it skidded around and broke off the left front wheel. The car turned a half somersault into the ditch, pinning the two occupants of the front seat underneath the engine and throwing the three Thompson ladies some distance. Bowden and Martin were also thrown out.

Braidwood's neck was broken and his head badly crushed by the heavy front part of the motor. Miss Crawford's life was also crushed out underneath the same terrific weight. Miss Marna Thompson and Mr. Henry Martin, who were sitting on the right side of the tonneau, were thrown some distance and were not badly hurt. Mrs. Thompson and Miss Bessie Thompson, who were in the middle and the left parts of the seat respectively, were not thrown so far, and were injured more severely, although both were clear of the car. Miss Bessie was badly scratched and bruised about her face and head, and Mrs. Thompson received similar injuries to a lesser degree. All three ladies were prostrated by the shock. Mr. Bowden was all right until this morning. He went out with Mr. Martin, but had gone only as far as Thompson's when he suffered a nervous collapse. He also complained of internal pains, the cause of which has not been determined.

Littl Girl Had A Narrow Escape

Kinnoult, June 28.—There was a surprise party at Mr. Robert Boldt's one night last week.

Miss Dean is visiting Mrs. J. Swinson.

Mr. and Mrs. Wm. Chynoweth entertained a few of their friends at an ice cream party on Tuesday night of last week.

Miss Baver of Lindsay, has been visiting Miss Lottie Swinson.

Mr. M. Stacey's little girl had a narrow escape from death last week. She drank some juice that remained in a tomato can and poisoning followed. Mrs. Stacey administered an emetic and the doctor was called and the little one is quite recovered again.

FREE TO YOU—MY SISTER

FREE TO YOU AND EVERY SISTER SUFFERING FROM WOMEN'S AILMENTS.

I am a woman. I know woman's sufferings. I have found the cure. I will mail, free of any charge, my best, complete with full instructions to any sufferer from women's ailments. I want to tell all women about this cure—yes, my reader, for yourself, your daughter, your mother, or your sister. I want to tell you how to cure yourself at home without the help of a doctor. Men cannot understand women's sufferings. What we women know best is experience, we know better than any doctor. I know that my home treatment is a safe and sure cure for Leucorrhoea, Whiteish discharges, Menstrual Displacement or Falling of the Womb, Profuse, Scanty or Painful Periods, Ulcers or Ovarian Tumors or Growths, also piles in the head, back and bowels, bearing down feelings, nervousness, creeping tingling up the spine, melancholy, desire to cry, hot flashes, weariness, kidney and bladder troubles where caused by weakness peculiar to our sex. I want to send you a complete 10 days treatment entirely free to women to you that you can cure yourself. Remember, that it will cost you nothing to give the treatment a complete trial; and if you should wish to continue, it will cost you only about 10 cents a week, or less than 16 cents a day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer, if you wish, and I will send you the treatment for your case, entirely free, in plain wrapper, by return mail. I will also send you free of cost my book—"WOMAN'S OWN MEDICAL ADVICE" with explanatory illustrations showing why women suffer, and how they can easily cure themselves at home. Every woman should have it and learn to think for herself. Thousands of women have cured themselves with my home treatment, you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all, old or young. 10 Mothers of Daughters, 10 Mothers of Sons, 10 Mothers of Regular Menstruation in Young Ladies. Finest and health always result from its use. Whenever you live, I can refer you to ladies of your own locality who know and will gladly tell you all about this Home Treatment really cures all women's diseases and makes women well, strong, plump and robust. Just send me your address and the name of your treatment to you, also the book. Write to-day, so you may not see this offer again. Address: MRS. M. SUMMERS, Box H 263 WINDSOR, ONT.

SUFFERED THREE YEARS

THE Dr. Moore's Indian Root Pills cured his Kidney Trouble

There are few diseases that cause more acute suffering than Kidney Trouble, and Mr. F. A. Thomas of Sudbury, Ont., is one of those who know it. He writes: "For over three years I suffered from kidney disease. First I thought I had sprained my back, for suddenly the pain would catch the small of my back and it would be impossible for me to stand and I would crawl up for several minutes. I was advised to try Dr. Moore's Indian Root Pills, as they had cured my wife years before. A few boxes effected a complete cure. I now enjoy the best of a stage of good health, which is due to the remedy."

Don't neglect kidney trouble—it's a dangerous as well as too painful. The old, reliable family remedy, Dr. Moore's Indian Root Pills, has cured thousands and will cure you. It is equally effective in curing constipation and its attendant evils, biliousness, indigestion and all the ailments arising from impure blood. Get a box at your druggist's.

NEW TEACHERS

A special meeting of the board of education was held last night to consider the appointments to the staff of the public school and the resignation of Mr. Mackenzie, principal, of the east ward school. Those present: Thos. Stewart, chairman; and Messrs. Jackson, McDonald, Staples, Adams, Carey, Campbell, John Anderson, J. W. Anderson and Mrs. White and Wood.

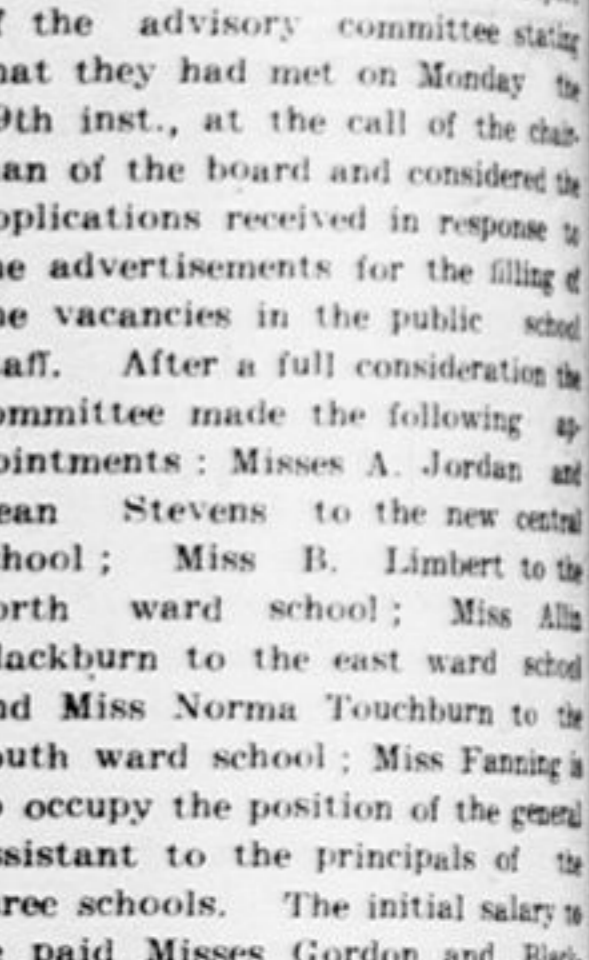

It was moved by Mr. Wood and seconded by J. W. Anderson that the resignation of Mr. Mackenzie be accepted, and that another teacher be advertised for to fill the position. Carried.

Mr. Jackson presented the report of the advisory committee stating that they had met on Monday the 19th inst., at the call of the chairman of the board and considered the applications received in response to the advertisements for the filling of the vacancies in the public school staff. After a full consideration the committee made the following appointments: Misses A. Jordan and Jean Stevens to the new central school; Miss B. Lambert to the north ward school; Miss Alice Blackburn to the east ward school and Miss Norma Touchburn to the south ward school; Miss Fanning to occupy the position of the general assistant to the principals of the three schools. The initial salary to be paid Misses Gordon and Blackburn is \$500 and the initial salary to be paid the others is \$450. The report was carried and accepted.
