Kingston, June 6.—The Montreal
ethodist Conference yesterday com-
ended the Ontario Legislature for
islation passed in the interests of
mparance. Continued opposition
as given the "three-fifths" clause.
Larger work along social purity
and larger cities was urged, and
navier penalties upon those guilty
of keeping places of vice asked for.
The Legislature was asked to have
inspectors see that all hotels which
cal option districts give proper
accommodation to travellers. This
view of many complaints.
The Quebec Government was com-
ended on its stand on temperance.

BANK OF MONTREAL
Incorporated by Act of Parliament
Lindsay Branch established A.D. 1858

BUSINESS CHANGE

The undersigned desire to intimate that they have purchased the

Insurance and Real Estate Business of

Mr. F. H. KIDD and will in the same office do business for the Companies that have been represented by him.

Mr. A. MARSHALL will continue to give special attention to Real Estate transactions.

Agnew & Co.

Mr. Kidd bespeaks for his successors the same generous patronage that has been accorded himself.

F. H. KIDD

Send in Entries for Comic Turnout

On July 1st, the day Lindsay celebrates, there will be a monster trade's procession in the morning, and it is understood that a number of firms have already signified their intention of entering floats in the parade. Prizes will be donated for the best comic turnouts, the best tradesman's turnout, etc., and it is expected that these will be keen competitors.

Messrs. W. F. McCarty and W. J. Carlisle have in charge the placing and giving of prizes to the best comic turnout, and all entries for this event should be left at McCarty's jewelry store.

Congratulations!

The Warder takes considerable pleasure in publishing a list of E.L.C.I. students who have been successful in passing recent examinations at Queen's University, Kingston, Toronto University and also Faculty of Education results.

In the lists published Wednesday is noticed the name of Mr. Albert E. O'Neill, a student at Queen's, who has secured his interim high school specialists certificate, being a specialist in English and history.

Mr. Arthur C. Hooper has been successful in securing his interim high school specialists' certificate, being a specialist in classics.

The Faculty of Education also granted first class certificates to Luther Hart and Miss Julia Richardson.

Toronto University results of interest locally include the following: Hugh McLaughlin, honors in history, third year; Mabel Cinnamon, honors in Moderns, second year; Dorothy Fyench, of Fenelon Falls, honors in classics, second year.

REABORO.

Reaboro, June 3.—Mrs. Watson visited friends in this berg on Sunday. Mr. A. Haddock spent the week end in Peterboro.

Mrs. D. H. Cornell spent the holiday visiting her daughter, Mrs. Melville Cornell.

Miss Lottie Burke spent the past week visiting under the parental roof.

Mrs. Baldwin is visiting her daughter, Mrs. R. Wellington.

HAWK BICYCLES

An up-to-date High Grade Bicycle fitted with Roller Chain, New Dynamometer, Chain Brake and Hubs, Detachable Tires, high grade equipment, including Mudguard, \$22.50. Send FREE 1912 Catalogue for 100 pages of Bicycles, Sundries and Repair Material. You can buy your supplies from us at Wholesale Prices.

218-220 Front St. West, Montreal.

Farm Values

ARTICLE BY HENRY GLENDINING, OF MANILLA.

Farm and Dairy: For years the values of farms in many sections of Ontario have been stationary or declining in value, while throughout the province as a whole, except in the immediate vicinity of our large cities, there has been practically no increase in our farm values for a number of years. I am an executor for a splendid farm in one of our best farming districts, which we have been unable to sell for anything like what it is worth. The improvements on it alone cost \$13,000, but they are unable to obtain \$12,000 for the whole farm.

Sometimes we read about the high prices paid for land in our cities, and we joke about it and say that we would like to have such land as that. If we knew a little more about it we would realize that it is no joking matter. The cost of that high-priced land comes mainly out of us. When a manufacturer pays possibly \$100,000 for an acre or so of city land he charges it up to investment account, and in order that he may not lose he charges a little more for each article that he manufactures before he sells it to the retailer. The retailer, who is also doing business on high-priced land, adds still another sum to the cost of the article. Thus when we buy articles manufactured in the city, although we do not realize it, we are really paying the manufacturer's and the retailer's rent or their investment in their land in the high prices we pay for the goods we buy from them. The high prices paid for city land come out of somebody, and they mostly come out of us. It doesn't cost any more to put up a building in the city than it does in the country, but it does cost vastly more to buy land there. Don't let us fool ourselves by thinking that somebody else pays for that high-priced land.

OUR CANADA.

"The aim and purpose of the Canadian nation must truly accord with its opportunities and responsibilities. Among them I would include these—to realize the true ideas of democracy, to preserve harmony and equality among its people; to guard the purity of its institutions; to develop its boundless resources with prudence and foresight; to be a strength within the Empire in moral power, in political steadiness, and in the determination to preserve its unity and security; to be an influence among the nations for good neighborhood and peace."—Mr. R. L. Borden, in the Empire Number of the London Times.

Cattle Break Away From Inundated Island—Big Loss

Belleville, June 4.—Several cattle are known to be drowned and the remainder of a herd of eighty-five are scattered over various parts of the township of Thurlow, as a result of the stampede for better pasture, which occurred on Sunday night on Hamby Island, two miles northeast of Foxboro Village. The island contains about two hundred acres of low land and is surrounded by two forks of the Moira River. It is under the control of Wm. Howe of Plainfield, who rents it out for cattle pasturage during the summer. About eighty-five head had been placed there this spring as soon as the freshet had subsided and there was sufficient growth of grass for their sustenance.

Attracted by better pasture, they made a break for the shore, but just how many reached terra firma it is impossible at present to determine. It is known that a considerable number were drowned, but the bulk of the herd made their way through in safety and scattered in small groups in various directions over the highways.

ST. POINT COUNCIL WELCOME ALL VISITORS

Sturgeon Point, the prettiest summer resort on the Kawartha waters, will no doubt be the mecca of hundreds of tourists this summer, and already a large number of people are locating there for the summer. The members of the Point council met in session Wednesday with Reeve Jos. Brown in the chair and discussed many important questions having to do with the comfort and welfare of the summer cottagers and visitors at Sturgeon Point.

It was decided to fix up the streets and put them in such a condition that rigs and automobiles can traverse in comfort. It was also decided to fix up the park and put in a cement basin at the spring, wooden seats will also be placed on the park for the comfort of pedestrians.

For some time past the waters of Sturgeon Lake have been washing away the bank of the Point in certain spots, and it was decided to do considerable crib work and thus protect the bank.

A platform will be erected at the rain-shelter and First-st. will be gravelled. The scavenger work will be well looked after and the Point will be kept in first-class sanitary condition.

In conversation with The Warder Reeve Brown stated that visitors were cordially welcomed to the Point, and thanked the use of the parks and walks. "Let them make themselves perfectly at home," said Reeve Brown, "and we will be pleased."

MORE TALK ABOUT MUD LAKE BRIDGE

Thursday afternoon's session of the county fathers, Coun. Mulligan took the chair on committee of education. It was decided that a collection should be made to school No. 20, Mariposa.

Coun. Varcoe explained that on account of train service being good with Port Perry many pupils took advantage of such railroad facilities and were enabled to return to their homes each evening after school hours.

The roads and bridges committee held a meeting with Coun. Michael in the chair.

Engineer Smith, of Lindsay, presented plans and specifications of Mud Lake Narrows bridge. The plan was carefully scrutinized by the members and the engineer gave a clear and concise explanation of the effects of frosts and possible sinking of the bridge. The proposed structure will be built on cement piers, which in parts will be constructed on a filling of ordinary field stone thrown indiscriminately in a heap and permitted to find its own foundation. The consideration of an extra 20 foot span brought about an unending discussion on the part of the members. Then the Ontario county council must be consulted before any definite move could be made or a motion placed on the minute book and Warden Steele remarked, "Don't adopt anything yet."

Coun. Babcock asked what the council were going to do about the building of the bridge. Considerable time had been taken up without any definite conclusion being arrived at and he was disposed to think it might be well for the members to go in a body to the Narrows and see for themselves.

Coun. Dobson—"Several of the members have already inspected the bridge and it is needless to undergo such expense."

Coun. Mulligan said if the council would build the Onmece bridge the township would bear 25 per cent. of the cost and they could go on any day.

Coun. Graham—"If you are all satisfied to fill bridges with stone our township is satisfied, but don't fill Mud Lake Narrows in this way. It will take six months at least for the stone to settle."

The extra space was considered and Coun. Hill was in favor. Warden Steele thought a 120 foot span was a necessity.

Coun. Graham—"I am modest on the question but you can never close the bottom of that stream without getting into a tremendous lot of trouble. My advice is, do not build that stone bridge, but go back 120 feet where a rock foundation can be got, and this, in my opinion, is the only proper course to pursue."

Coun. Hill did not permit his views to coincide with Coun. Graham's and said, "It is all on account of the outlet and not from such conditions as might arise by the spans in the bridge. When the water rises up in the spring it will find an outlet and means of going away without any apparent injury."

Coun. Richman—"Can't the natural obstruction be removed later on and thus remedy the defect?"

Coun. Varcoe—"There can be no serious damage done there."

Coun. Graham—"We have now 243 feet of waterways and if you do not leave over 100 feet you will get into trouble."

Coun. Michael—"It is only filling a hole not a channel."

Coun. McKee—"Why do you not go by the engineer's orders. If the engineer is not capable of bringing about the proper construction of the bridge there is no sense in engaging him. If you do not purpose to adopt his plans what are you going to do?"

Coun. Sims—"I feel like Coun. McKee. Let us go on with the work as outlined here and put in another span if that will satisfy the Ontario County, and I would move that another span be added."

Coun. Southern recommended the addition of another span as he had been speaking to many of the residents, "and they feel the effect will be ruinous unless another span is added. It should be built with a forethought for navigation and the permitting of boats to pass back and forth and give the extra span if possible."

Coun. Dobson—"The water in the Narrows is kept back by the hindrance below. I do not think this council should knuckle down to the County of Ontario in anyway."

Coun. Mulligan moved that this matter be left over until the November session.

Dr. Sims would move that the committee have the power to place another span.

Coun. Graham—"Let us build a bridge that will meet the approval of both counties."

Coun. Bottom grew tired listening to the unusual lot of useless talk and said to put in a proper provision re the taking away of the water and that he would second a motion made previously by Coun. Mulligan. "We have lost a considerable amount of time in discussion now."

Warden Steele approved of giving the committee power to amend the plans or add another span.

Clerk McNeill thought it might

Sore Feet. CHAFED PLACES. BLISTERS, &c.

Are your feet hot, sore and blistered? If so, try Zam-Buk. As soon as Zam-Buk is applied it cools and soothes injured smarting skin and tissue. Its rich, refined herbal essences penetrate the skin; its antiseptic properties prevent all danger of festering or inflammation from cuts or sores; and its healing essences build up new healthy tissue. For stings, sunburn, cuts, burns, bruises, etc.—just as effective. Mothers find it invaluable for baby's sores!

All Druggists and Stores—50c. box.

Zam-Buk

TRAVELING WITH CIRCUS.

The home boy living with Mr. I. J. Gould, jr., on Quaker Hill was allowed to come to town on Friday and see the circus, and so well pleased with it was the boy that he is supposed to have decamped with the show in the evening. He took \$7.50 which he knew Mr. Gould had placed in the hoop during the morning and 50c which he was given in order to see the circus. He was fourteen years of age and had a good home. Mr. Gould has notified the Industrial School at Mimico and he may be rescued from circus life yet.—Uxbridge Times.

IMPORTANT WARNING!

THE ONLY GENUINE AND ORIGINAL EXTRACT OF WILD STRAWBERRY IS

"Dr. Fowler's"

This grand remedy has been on the market for sixty-five years, and is, without a doubt, the best medicine known for the cure of

DIARRHOEA, DYSENTERY, COLIC, CRAMPS, PAIN IN THE STOMACH, CHOLERA MORBUS, CHOLERA INFANTUM, and ALL SUMMER COMPLAINTS.

If an unscrupulous druggist tries to talk you into taking any other preparation when you ask for "Dr. Fowler's" refuse to take it, and insist on getting what you ask for. Price 35 cents per bottle. See that the name, The T. T. Millburn Co., Limited, is on the wrapper, as we are the manufacturers and sole proprietors.

CONSTITIATION

Might be termed a modern complaint and of late years on the increase, due largely to lack of exercise and careless diet. It is a disease producing malady and if not cured may result in serious complications. In good health the bowels should move freely at least once every day, carrying away the waste products from the blood and liver; if this function fails or is irregular the work of removing the poisons falls on the skin and kidneys with the result of the latter organs becoming congested and clogged, the blood becomes poisoned. Indigestion sets in, the kidneys become deranged and a severe if not fatal illness is brought on. The ordinary purgatives and cathartics may afford a temporary relief but their action is not curative and after a few days the bowels are again in the condition described. Henderson's Herb Treatment not only relieves the trouble but effects a cure by its action on the liver, causing a healthy flow of bile and exerting a soothing and toning influence on the whole intestinal tract.

Dr. Henderson's Herb Treatment and the Hou-Tan Ointment are for sale at Dumoon's Drug Store at 50c and \$1.00 per box or the Henderson Herb Co., 173 Spadina-ave., Toronto.

Assessment of Lindsay was Not Increased

County council met Friday morning at 10.00 o'clock.

Mr. C. D. Barr addressed the council in reference to a telephone service for the registry office and on motion of Bottom and Richman the petition was left to the finance committee for consideration.

Considerable discussion arose on the reading of the equalization committee report, Dr. Sims in the chair, as to the income tax.

Coun. Dobson—"It's not fair to raise Lindsay \$60,000 and all others go'ng down."

Coun. Lewis—"Our town assessor did his work well."

Coun. Babcock—"Lindsay must pay if they are forced."

Coun. Mulligan—"You have money to buy whiskey, so you are not hard up."

Coun. Michael—"I would favor a rebate but all towns in the county would look for the same."

Coun. Mulligan—"Lindsay has got the assessment lowered in previous years through having good talkers in the county council, but we are getting too wise for them."

Coun. Devitt—"Why did not the Lindsay council put in an appeal. I'm not wishing to be unfair but they are getting as much justice as any other municipality."

Coun. Graham—"Much credit is due Lindsay for making a respectable showing in their effort to collect the income tax. In many parts of the municipalities there is no income tax noticeable and I have no doubt there are many who should come under the provision of the law, and are shirking the payment."

Coun. Bottom—"The town of Lindsay is not assessed more than any other place in the county and the wealth of many of our villages is coming to the county town."

Coun. McKee—"In justice to the

both counties to meet and negotiate.

Coun. Graham—"The County of Ontario is against the proposed bridge and its construction."

The motion was tested to give the building committee power to add another span.

Coun. Dobson—"Can we vote on a motion contrary to the by-law?"

This threw a bomb in the camp and the by-law must be amended to permit of the addition of another 20 foot span.

After this long and tiresome discussion which took up the greater portion of the afternoon session it was agreed to let Mud Lake Narrows bridge stand.

A communication from John Black asking for recompense for time lost owing to a bridge being out of repair in the Township of Dalton was not deemed worthy of consideration. The above mentioned party has been in the habit of making such demands it would appear and on motion of Coun. Mulligan and Bottom, his petition was filed.—Carried.

town assessor, the assessment should not be lowered and if the assessor did his duty and others did not think it would be a serious matter to interfere with the officials work."

Coun. Southern and Devitt moved an amendment that the assessment of Lindsay remain as it is, which was carried by a standing vote of eleven members.

THE STANDARD BANK OF CANADA

HEAD OFFICE TORONTO

LINDSAY BRANCH

F. F. LOOSEMORE, Manager

KEEPING a bank account for "household expenses" and paying all bills by cheque has many advantages. It shows the balance on hand, the amount expended, provides receipts for every payment and does not require a large deposit to begin with.

SEIZED THE KEY

LAW SUIT MAY FOLLOW HALL-BURTON CASE.

Division court constable Mr. W. J. Austin, of Halliburton, has been busy lately. Last Saturday he seized at the express office a key of lacer consigned to a local option man, on Tuesday the constable tried to tap the key, but was prevented from doing so by the express agent. He then tried to carry it on bodily, but was again prevented by the express agent. After the key had lain in the express office for a week the constable found out that he had no legal authority to seize it at all, and handed it over to the rightful owner who refused to take it out of the express office. A law-suit is likely to follow.

THE MONTH OF BRIDES.

The bard his soul discloses and on his winged steed rides, and sings of blooming roses, and also blooming brides; the latter, from their bowers in fine and brave array, outblush the blushing flowers upon their wedding day. With blue skies bending o'er them, no omens to annoy, they've all the world before them, a world of light and joy. The old dame smiles and blesses the brides through furtive tears, and thinks of bridal dresses she wore in long gone years. The old men sadly ponder on brides they used to know in brave days 'way back yonder—the days of long ago. They have bright skies above them, the brides who blush and bloom, and all the world to love them, and not a threat of gloom. I wish that every token of joy might be fulfilled, and not a hope be broken on that gentle bosom thrilled; the harp of life should never send forth a doleful tune, and peace should walk forever with blushing brides of June. I wish I knew to-morrow would duplicate to-day, that ne'er a shade of sorrow would come the young wives' way; that happiness would linger beneath the sun and moon and guide them by the finger, the blushing brides of June.—Salt Mason.

Acute Indigestion

There are forms of indigestion and dyspepsia which can never be reached by ordinary stomach medicines and aids to digestion. The kidneys and liver are involved, and, though the stomach may be all right, it is the part of digestion which takes place in the intestines that is imperfect.

The food ferments instead of digesting, and the gas rising therefrom presses on the heart, causing smothering feelings, heart irregularities and often unconsciousness. Acute indigestion often brings sudden death or leads to appendicitis or peritonitis. It is a most serious condition, and calls for treatment that will quickly awaken the action of liver, kidneys and bowels.

No treatment can help you more promptly than Dr. Chase's Kidney-Liver Pills. If you have made the mistake of dosing the stomach, try this medicine, and, by getting at the source of trouble, cure yourself. Get the poisons out of the system and by keeping these filtering organs active ensure pure blood, good digestion and improved health.
