E. E. W. McGAFFEY

Mr. W. R. Widdess Enjoys Delightful Trip to West Via Steamer and Rail

Delightful weather, beautiful scenery on land and water, most efficient and expeditious boat service, a delightful ride over a perfectly smooth and solid road, and excellent accommodation on board the G.T.P., combined to make the inaugural trip of the Grand Trunk lake and rail route service between Eastern and Western Canada one of the best trips that any traveler could wish for.

The trip was made on the steamer "Sarnia" which left Toronto on Wednesday last.

JUNE WEDDINGS

MILLIGAN-McFEETERS
 KELLY-QUIGLEY.

A double wedding was solemnized at the Methodist parsonage, Bobcaygeon, Tuesday afternoon, June 17. Two young couples, Miss Amelia McFeeters, daughter of John McFeeters, and Alexander Millage, son of the late Charles Millage, both of Emily and Miss May, Quigley, daughter of Samuel Quigley, and William Kelly, son of Mr. Charles Kelly, both of Verulam, called on Rev. Mr. Honey, who tied the nuptial knot. The young people all left by afternoon train on their honeymoon trip.

MURDOCK-McKAY.

On Thursday, June 12, 1913, at the residence of the bride's parents, Somerville, by the Rev. E. F. Hockley, of St. James' church, Kilmont, Mabel Lillian McKay, to Gordon Stewart Murdoch, of Port Huron, Mich.

GAINER-SAWYER.

Married at the Methodist parsonage, Minden, June 16, 1913, Miss Ethel Sawyer, daughter of Mr. Fred Sawyer, of Lutterworth township, to Mr. Bert Gainer, of Minden township, by the Rev. J. M. Whyte, Miss Edith Sawyer, sister of the bride, acted as bridesmaid, while Mr. William Lewis, of Minden, supported the groom.

ARMSTRONG-McLEAN.

A quiet but pretty wedding was celebrated at the home of Mrs. J. A. McLean, Bay-st., at 2 o'clock Wednesday, when her daughter Miss Edith McLean was united in the holy bonds of matrimony to our popular young townsman, Mr. G. F. Armstrong, son of Mr. and Mrs. Frank Armstrong, Russell-st.

MINDEN.

Minden, June 17.—Mr. Bert Hartle, of Lindsay, accompanied by his friend, Mr. Beal, spent Sunday with his parents here.

Mr. Brighton autoed through from Peterboro this week.

Mrs. Minaker and daughter Effie, of Toronto, are the guests of Mrs. Wm. Archer.

Mr. Ernie Laking and Miss I. Robertson, of Haliburton, was in town Sunday.

Mr. and Mrs. Lafferty and two children, of Toronto, are holidaying at Gull View Cottage this week.

Messrs. John McBride, B. Dickson and John Walker, all of Millbrook, were holidaying at Gull Lake this week.

Mr. Krugel, of Toronto, is in town and we wish him success in his new appointment.

Child of Four Years Slays His Mother Who Taught Him How to Use Firearm

Collingwood, June 1.—A mother was slain here last night with a bullet fired in play by her four-year-old son, whom she had taught how to load and handle the rifle. The circumstances of the case, as related by eye-witnesses, are so extraordinary as to appear beyond precedent.

James Calback, his wife, a son aged four and a daughter aged two and one-half years lived with Calback's father in a small cottage owned by the latter. On Saturday evening the little boy complained of violent toothache. The father went into the town and bought a supply of remedial drops, which, on his return to the cottage shortly before midnight, he administered to the child. The least two of the cartridges were loaded, apparently mitigated, while not entirely relieving the boy's suffering, the father retired to bed, leaving the mother to sit up with the little patient, who was still in too much pain to go to sleep.

Stole Watch Year Ago, Now Before Magistrate

A party hailing from Norland appeared before P. M. Jackson at Tuesday's court to answer to the charge of stealing a watch. The offence was committed about one year ago, but for various reasons was never ventilated in court.

The young man belongs to a respectable family in the north country, but is a shiftless sort of a person. How he came in possession of the watch, according to the story told, was a feat not impossible to any ordinary mortal. He held no one up, he took no chances to clamor to the top of a verandah in the silent hours of the night and enter the sleeping apartments of the party he robbed and quietly extract the chronometer from his vest pocket. No! he was too careful of his body, but it is understood that he entered the house while the wife of the man who owned the watch was picking berries and purloined the coveted treasure.

Constable Pearson, of Norland, arrested his man on Sunday night and turned him over to Constable Davy, of Victoria Road, who brought the prisoner into Lindsay last evening and placed him in charge of Governor Balfour.

The prisoner, after receiving a hearing this morning was remanded for one week, having pleaded guilty to taking the watch, but denied pulling the staple or breaking into the residence.

The case will come up next Tuesday, June 24th, when the prisoner will receive his sentence.

Better Farming Special To Visit Lindsay on June 25th. -A Car of Instruction

On Wednesday, June 25th, the Ontario Government coaches, known as the better farming coaches, will visit Lindsay via C.P.R., and as they will remain in town for a whole day, it is fully expected that the farming community in this section of Victoria County will be well represented. The public will be given an opportunity of visiting the cars any time between 9 a.m. and 5.30 p.m. during the day. Women and children will find much interest in the exhibits and the literature to be distributed.

The equipment will consist of two coaches, one for the transportation of typical animals of the various classes of live stock produced in Ontario, including heavy horses, beef and dairy cattle, poultry, swine and sheep. The other coach will contain illustrative and demonstrative material, covering seed improvement, identification of weeds, testing of seed, drainage, soil moisture, alfalfa, silage, insects, dairying, poultry-raising, etc., etc. Every farmer, no matter what lines he may be following, will find more or less of interest in the demonstrative cars. Throughout the day instructors will be in charge of the equipment, prepared to answer questions and distribute literature.

INSTRUCTORS.

The staff of instructors will be drawn from the Agricultural College, the Department of Agriculture and the regular Institute staff. Only men with special training and experience will be engaged to give instruction.

The horse breeder, the beef cattle man, the sheep raiser, the poultry man, the beekeeper, the general farmer and all who are interested in any special feature of farming, will be benefited by visiting the train to take advantage of the lectures, answers to questions and explanations given by the instructors. The literature to be distributed and the evening lectures will be most valuable.

While the special trains which have been operated in Ontario during the past two years have been an important feature in the dissemination of agricultural knowledge, we believe that the method to be followed this season will be much more effective than former methods. We cannot urge too strongly upon the farmers and even the business men of the town, also the housewives and the high school pupils, as well as the pupils of the higher grades in the public schools, to take advantage of this special opportunity. The C. P. R. has shown its faith in this form of instruction by placing trains at the disposal of the Agricultural Department in the various Provinces, and we sincerely hope that the farmers of Ontario will show their appreciation by attending the demonstrations and lectures in large numbers.

Be sure and give the boys an opportunity to take advantage of the Better Farming Coaches. Several hours can be spent with interest and profit.

Fine Barns Were Destroyed by Fire

The barns and outbuildings on the farm of Mr. Robert Reynolds, Cavan, were destroyed by fire on Thursday afternoon last. Three horses and a number of pigs were lost. The fire was caused by flying sparks which originated from a burning brush heap a short distance from the barn. The farm on which the fire occurred is located on the 10th line of Cavan, and is owned by the Waddell estate. On the afternoon in question Mr. Reynolds decided to consume a number of brush heaps that were located between the buildings and the road. A high wind was blowing at the time, and it is thought that the flying brands were carried by the wind, setting fire to the barn. The women, who were in the house at the time, were the first to arrive on the scene. They succeeded in securing a small portion of the stock, and could easily have released the horses had they known they were in the stable. They believed that the men were using the animals in the field. By the time the men arrived the animals had perished.

A number of the neighbors arrived in time to lend valuable assistance in saving the house and a number of outbuildings. Several times the latter caught fire and would have been destroyed with the barn had it not been for the efforts of the bucket brigade. The buildings destroyed are valued in the neighborhood of \$1,500. The horses that were lost are estimated to be worth about \$200 each. The animals met a horrible death. They were tied in the stalls and were right in the midst of the flames. The limbs were literally burned off them.

LETTER OF THANKS

Mr. Leigh R. Knight, agent Insurance Co., of North America, Lindsay, Ont.:

Dear Sir:—By an oversight the policy covering the contents of my dwelling house expired on the 4th of September last and was not renewed, which fact I was not aware of until I had a fire on the 21st of May. This insurance was transferred to Mr. Kidd, when he bought out a local agency and I understand the agency was taken from Mr. Kidd and transferred to you, but that no notification of my policy was ever given to you and that you not having any record of my risk, were unable to notify me when it expired. You can imagine my surprise when I found out I was left without any insurance. It was indeed kind of you to take the matter up with your company and it was particularly good of them to send their representative here to adjust the loss and to settle with me so satisfactorily. I again thank you for the company's cheque for \$227.05 in full of my loss and I certainly wish your company every success in the future for they certainly know how to be honorable with their policyholders. Yours sincerely, J. W. WAKELY.

BOBCAYGEON.

Bobcaygeon, June 10.—On account of the absence of Rev. Mr. Honey Sunday at the Whitty conference Rev. W. G. Smith, of the Presbyterian church, occupied the pulpit in the evening at the Methodist church.

Hills are out announcing an entertainment in the town hall Thursday evening the 12th inst., given by the local Dramatic Society, of Fenelon Falls, in aid of the public library. The play comes highly recommended. The Agricultural Society are advertising the first of July in their park. A kalathumpian procession and sports of all sorts are to be run off. Remember the date and take in the fun.

The first of the Saturday-Sunday trains from Toronto came in Saturday afternoon and returned Sunday evening. Quite a number availed themselves of the opportunity and took a run out. The train will run regularly till September.

The open season for fishing starts next Monday, the 16th inst. The prospects are for a good catch. The fishing season generally ushers in the tourist season so that under ordinary circumstances there will be an influx of summer friends to assist us in landing the first bass. The weather has been somewhat backward, with cool winds and night frosts, but these will disappear in due course.

The school board met this evening and received resignations from Miss L. Wilson and Miss Hayman, which were accepted. Others of the teachers asked for an increase in salary. The board will meet soon again to consider these matters.

Warden Bottum and Reeve Devitt, of Verulam, are home from county council and report a good time. On account of increased expenditure on bridges, etc., the county rate is raised some three mills. This with increased salaries to teachers and the increased rate on account of the new power house and plant will mean careful financing. We hope for the best.

Messrs. Warden Bottum and Devitt take a run out to the Cross Creek bridge in Ops Friday of this week to inspect same.

Circus Band Said to Have Hypnotized a Big Conference

Toronto, June 16.—Who would believe that a passing circus band and parade could almost empty a church and stop the solemn, unworried deliberations of a great Methodist conference.

Yet that is what happened this morning at the Central Methodist church, when the natural lust of the eye and the ear was excited by the blare of a brass band and the imaginary sights of the days when all were boys and there was nothing so alluring as a circus.

Howe's London circus with its bands were on parade along Bloor-st. east, just at the time when Rev. Jas. Allen, Home Mission secretary, was concluding his report of unpaid missionaries in the circuits of the Dominion. He was interesting, he was moving and impressive, but he hardly stirred up joy in the hearts of his hearers.

Suddenly a blare of brass was heard outside and the street noises, and the tramp, tramp, tramp, tramp of the myriad feet passing down the street echoed within the auditorium of the church.

Clergymen in their 40's, 50's and 60's began to crane their necks, to turn around restlessly, and to cast longing eyes towards the doors. At last a few ventured to rise and disappear without. This startled President C. W. Watch, who rose and said:—

"Brethren, it's only a band sounding out joy over the reports we are hearing in this place."

It failed to work, because it was practically a prohibition. But prohibition always increases anxiety to which it is forbidden.

ZION, FENELON.

Zion, Fenelon, June 16.—A good time is expected at Zion next Sunday and Monday, when the usual picnic at Zion will be held. Rev. Mr. Smith, of Bobcaygeon, will take charge of the services on Sunday and will also give a speech on Monday night. Special music will be provided by the choir and others will sing. Baseball in the afternoon and a real good tea, which will be served from five to eight. Come one and all.

Rev. Mr. Howard and Mr. F. J. Pethick returned from conference last week. We are very sorry indeed to lose Mr. Howard here at Zion, as every one has been well pleased with him while running to catch a car she wouldn't.

The Irish home rule bill passed its second reading without division in the British House of Commons.

The more the merrier—but this doesn't apply to trouble.

Nearly every widow believes that all the married women of her acquaintance would like to exchange places with her.

Hamilton Hospital Governors admit over-crowding, but repudiate Inspector Dr. Bruce Smith's charges of dirtiness. They ascribe the crowded condition to the fact that the steamer Neepawa carried away the four gates at Lock 1 on the Welland canal.

It's wasteful to talk about "making good." Get busy.

If a woman knew how she looks while running to catch a car she wouldn't.

Regularity
 of the bowels is an absolute necessity for good health. Unless the waste matter from the food which collects there is got rid of at least once a day, it decays and poisons the whole body, causing biliousness, indigestion and sick headaches. Salts and other harsh mineral purgatives irritate the delicate lining of the bowels. Dr. Morse's Indian Root Pills—entirely vegetable—regulate the bowels effectively, without weakening, sickening or griping. Use Dr. Morse's Indian Root Pills.

Advanced toward Madame in preference of the ball, with whom she was to dance, and his highness Monsieur the Count of Soissons, a relative of the king, with the queen. They took their places, and the ballet began.

The king figured opposite the queen, and every time that he passed by she devoured with his eyes those studies of which he could not ascertain the number. A cold sweat covered the brow of the cardinal.

The ballet lasted an hour. It ended with the applause of the whole assemblage, and every one who remained late to see the king, and the king took advantage of the privilege he had of leaving his lady to advance eagerly toward the queen.

"Thank you, madame," said he, "for the deference you have shown to my wishes but I think you want two of the studs, and I bring them back to you."

"How nice!" cried the young queen, "I have two more. But then I shall have fourteen."

The king counted them, and the twelve studs were set on her majesty's shoulder.

The king called the cardinal to him. "What does this mean, M. le Cardinal?" asked the king in a severe tone.

"This means, sire," replied the cardinal, "that I was desirous of presenting her majesty with these two studs, and that I dared to offer them up to you, I proposed this means of inducing her to accept them."

(To be continued.)

PILES

Do not suffer another day of itching, smarting, burning, and bleeding. Dr. J. G. Edwards' Pile Cure is a sure cure for all cases of Piles, Hemorrhoids, and Stricture. It is a purely vegetable preparation, and does not injure the system. It is sold by all druggists and chemists.

SMARRY RAISED.

At the meeting of the Anglican Synod in Toronto, the salary of Bishop Smarry was raised to \$6,000, in order to sustain the dignity of the office and to meet the many demands made upon him.

FRANK MATHIE APPOINTED.

Rev. Frank Mathie, of Lindsay, was appointed a substitute delegate to the Provincial synod at the session held in Toronto Wednesday last.

The Bureau of Exchange
 Conducted by Dept. of Agriculture FOR SALE

White Leghorn Cockerel, bred-to-day.

WANTED

Hogs, 12-16 weeks, prices right. Names and addresses of all pure bred stock dealers in Victoria County, whether horses, cattle, sheep or swine. Send names direct to Dept. of Agriculture, stating kind of pure bred stock kept.

Send "wants" and "for sales" to us. No expense to you if inserted in our column.

If you are planning to do drainage work and are in doubt as to your outlet, the grade, or depth at which to dig, then call on us. We have the instruments and it costs you nothing to have us look it over.

For information apply at the Dept. of Agriculture, Lindsay.

THE SUMMER SCOURGE.

FLIES are disease carriers and originate in filth. They are born in filth; they thrive in filth; they prefer filth as an environment. With filth laden feet they drag their way through the butter; with filth covered wings they flounder in the milk; with filthy bodies they succumb in the sirup. From sewer and alleyway, manure pile and dead cat, they gather disease. This, too, they bring into the butter, the milk and the sirup. And thus human beings die, victims of the noisome, dirty, disgusting little insect—the worst nuisance of the summer.

One female fly lays about 120 perfect eggs. These eggs hatch in ten days. It may be assumed that they result in sixty perfect females. These females lay 120 eggs each. The eggs hatch in ten days and result in 3,600 perfect females. The 3,600 lay 120 eggs each, which hatch in ten days and result in 210,000 females, and so on. If therefore one energetic fly becomes productive on April 15, how many energetic flies will one manure pile give forth by Oct. 31? Kill the early fly.
