—Mr. A. J. Graham expects to open in the stand east of the Benson house about July 20, with a complete stock of ready-made clothing and gent's furnishings.

—Callon Bros. report several sales of "Red Birds" and numerous enquiries as a result of the exhibition given on Kent-st. last week by a trick rider in the interest of the Good Bicycle Co., of Brantford. The wheel was put to the severest tests by this clever rider, and proved that only the best material and workmanship enter into the construction.

—Mr. G. Robertson of Mount Horeb left for the Northwest on Tuesday last with a load of seventeen fine working horses. The equines were purchased for Mr. Albert A. Anderson of Portage La Prairie and were all secured in this district. Mr. Anderson finds that the Ontario horseflesh is what is wanted in the West, having purchased during the past spring no less than three or four car loads.

—At regular meeting of Brock Lodge, No. 46, A. F. & A. M., G. R. C., Cannington, held on Saturday, June 24th (St. John Baptist) the following brethren were inducted officers for the ensuing term:—W. —In the report of Mr. Chas. Staylor's raising in last week's paper we stated that Mr. Newton Smale was captain of one side. That was an error. Mr. Chas. Minty held that position and Mr. Smale was his first choice.

—This office is indebted to Mr. P. J. Wilkinson of Cambury for several very fine boxes of his famous strawberries. The fruit was the largest we have seen this season, and the flavor—well, out of sight. Mr. Wilkinson's berries command the highest price in town, as they should.

—Mr. John McCrea, who recently purchased the Makin's foundry on William-st., is meeting with good success and he is well satisfied with his venture. Already several good jobs have been booked. He is fitting the foundry up with the latest machinery and is in a position to handle all classes of work in his line with promptness.

—Barrels have been placed at the corners of the principal streets about town into which the public are warned not to look. Our scribe ventured a peep when not observed, and he can assure the public there is very valuable information at the bottom. However, if you must look in be careful Chief Bell don't see you.

—During the severe electrical storm that passed over this district Tuesday evening the residence of R. Abercrombie, east ward, was struck by lightning and the roof somewhat damaged. The fluid also passed down the chimney, but no serious damage was done. At King's Wharf, Emily, the barn of Mrs. T. Dorgan was struck and completely wrecked.

—Mr. Bert Weese went north some 300 miles on Tuesday to purchase a car load of choice horses which he will bring back to Lindsay on Saturday and thence ship to a foreign market. This means \$1000 put in circulation in other parts which might be kept at home providing our local horse breeders would endeavor to raise the class of stock Mr. Weese requires and give him the same chance they offer outside dealers.

The steamer Alice Ethel and palace barge will leave the town wharf at 9 a.m., and at 2 p.m., the steamer will make a second trip without barge. A program of sports has been arranged. Tickets 25 cts.

—The Baptist excursion to Port Perry on Dominion day was a success in every way. The day was all that could be desired and the crowd just large enough to make things pleasant. Over three hours were given at the Port, that time being spent in boating, fishing and visiting friends. The Crandella reached home before dark, and all on board were delighted with the day's outing.

—Our good friends of the E.E.A. are to be congratulated on the success of their annual outing on July 1st to Crowley's island. The spacious barge Lindsay was comfortably filled, while not a few paid ten cents extra and chose the Alice-Ethel which has been much improved this season by hurricane deck, awnings, etc. A good orchestra was on board, and dancing was kept up with much spirit during the day. At the island a program of sports was run off. The sail up the lake in the evening was delightful, Lindsay being reached about 9 o'clock.

The subject treated in this number, "Domestic Architecture," is well presented and gives fine promise for the articles which are to follow. ...THE TURNING POINT...

This week we enter upon the second half of '99. Instead of printing the news of the week's bargains we take a new perspective of things in general, and the relation of this business to the community round about.

If we were to put in a few words what constitutes our claim upon your attention we should say that we make a business of looking after the interests of our customers. Others do the same to a certain extent. We try to do better than the average in order to deserve your confidence.

The trend of all our advertising is to emphasize the great fact that this store is able to buy and sell a little closer than others; that it serves everybody well by reason of the perfect facilities and varied stocks; and that it gives satisfaction by getting it. We have pretty clear notions of what Lindsay needs in the way of Dry Goods, and men of large experience in the buying are kept constantly busy anticipating your wishes.

Importing direct for ourselves is one way of keeping prices down. Paying cash is another way. Shoppers are beginning to realize more and more the extent of our facilities, the rapidity with which we get new goods, and the full strength of this organization. The business broadens and deepens continually, and we're careful to keep the store in direct competition with anything Toronto has or may have in the line of Dry Goods.

Lindsay has reason to be proud of the business we are doing, and the record of the six months just closed tells better than anything else that we mean to double our lead and enlarge our usefulness. Business has been supremely good and for that we are thankful. But, judging by plans and preparations now under way, the success of the next six months will discount anything and everything in the past.

—Miss Bannon is offering the ladies of this town and community an unusual chance to buy stylish millinery at low prices. Buried in a Lime Kiln

A horrible affair is reported from Madoc, North Hastings. James Fringle of that village owned a lime kiln, and on Saturday morning he started to take out a kiln which he had just burned. It appears that some stones on the top gave way, and the unfortunate man fell into the partly emptied kiln. He was not missed till late in the day, and when search was made for him he was found with his clothing burnt off, and when he was taken out the flesh peeled off his bones. The unfortunate man was only three months married, and was a prominent Orangeman and Freemason.

A Successful Family

We are pleased to note among the names of the successful candidates at Medical Council exams, that of Dr. R. S. Broad of Little Britain, who also recently received the degree of M.D., C.M. and F.F.M.C. with high honors. The young doctor who is a graduate of the Lindsay Collegiate, has taken a very brilliant course, taking honors at every exam, and winning three certificates of honor during the course. This marks another step in upward march of the family of Jas. Broad of Little Britain. The oldest son, J. J. Broad, M.D., of Wellington, who graduated in 1887, is one of the leading practitioners of Prince Edward county. The second son, Dr. S. Broad, V.S., of Momence, Ill., holds the position of assistant State veterinary for the state. The third son is Dr. W. F. Broad, V.S., of this town, who holds the position of government inspector of live stock for this district. The fourth, Dr. C. E. Broad, V.S., has a very lucrative practice in Lowell, Ind., and was also recently appointed assistant state veterinary for Indiana. The youngest son, Thomas, is farming near Winnipeg. Mr. and Mrs. Broad have reason to feel proud of their family.

Chapter of Accidents.

—Early on Monday morning last word was received in town that Mr. William Thorndike of Oakwood had been kicked by a horse, and had one of his legs badly broken.

—On Thursday last Mr. Wm. J. Curtis of Mariposa came to town and put up at the Central house. While watering his team of high-life equines after dinner, one of the animals let both heels go out at him, one of which caught Mr. Curtis on the leg above the knee, but fortunately no bones were broken. It was a close call.

—Last week John, the little four-year-old son of Mr. Fegan of the east ward, tipped backward against a hot stove, and received a deep burn across the back of the neck. In his fall the chair tipped forward and the high back catching him under the neck, pinned him up tight against the stove. Mrs. Fegan, the boy's mother, rescued the child from his terrible position, but not until it had been severely burned. Medical aid was promptly summoned, and the little sufferer is now doing as well as could be expected.

MCCARTY—WILLIAMSON

The home of Mr. Geo. Williamson, Brock, was the scene of an exceedingly pretty but quiet wedding on Wednesday, June 28th, when his only daughter Emma Maud was united in marriage to Mr. D. C. McCarthy of Herkimer, N.Y. The presents were very beautiful and showed the high esteem in which the young couple are held. Mr. and Mrs. McCarthy left Monday for their new home. We extend congratulations and best wishes for their future happiness.

MCGAHEY—BURTON

A very pleasant event took place on Wednesday, June 28th, at the home of Mr. and Mrs. Edward Burton, Cambury, when their only daughter Ella was united in bonds of wedlock to Mr. James McGahey, a prosperous young farmer of the township of Emily. The nuptial knot was tied by the Rev. C. H. Marsh of Lindsay. Miss McGahey assisted the bride, while Mr. John Burton, brother of the bride, acted as best man. After the wedding all sat down to a sumptuous tea. The numerous, valuable and appropriate presents are a token of esteem in which the bride is held. The Watchman-Warder extends congratulations.
