COUNTY CORRESPONDENCE

CAMERON

Several farmers of this community are discussing the advisability of a beef ring for next summer.

The Cambray-ites still pass through to our lake.

Miss Kathleen Drury of Victoria Road spent last week among friends here.

Miss Clara Eyles has passed her first year examination in piano with honors.

Miss Cowieson and Mr. Arnold paid Cameron a flying visit. Come again.

Mr. P. Northcott and Mr. J. Cundal have decided to visit the Pan-American during this month.

KINMOUNT

We sincerely sympathize with Mr. Jas. McGrath, who recently lost a little son by diphtheria.

Mr. H. P. Chessell's youngest son is now down with diphtheria. We hope for a speedy recovery.

Mr. Yeoman Smith of Bury's Green urduy last.

Mr. Jos. Brisbin of Burnt River has been in Kinmount all week driving piles for the foundation of Mr. F. Dettman's barn, over the Burnt river in rear of the hotel. One pile jumped out again and "Joe" says it must have struck a "dead preacher."

Rain wanted.

JANETVILLE

Miss Jessie Dunn of London is spending a month's vacation with her friend Miss Edna Porter, Janetville.

Some people are getting very kind, out driving the sick.

A heavy electric storm passed over this place on Saturday night. A milch cow belonging to Mrs. JACKET was struck by lightning and killed.

A very large quantity of the famous Sylvester mowers and binders and other machinery has been sold throughout this section this season by their local agent Mr. W. Arthurs, and still the call is for more. He is also agent for the well-known Tudehope buggies and carriages, which are not surpassed for beauty, strength or easy-running qualities in Canada.

FAIRBAIRN

Is it not time that the reeve of this little burg was setting the date for the Civic holiday.

Mr. and Mrs. Geo. Britton spent last Sunday at the home of her brother, Mr. Will Davidson.

The glorious and immortal memory of King William III. was celebrated as usual by life and drum, badges and speech-making and all orange enthusiasm. Our orange-men spent the day in different places. The following persons had a pleasant time at Bobcaygeon: Messrs. Tallman, Robinson, Will Pogue, Wm. Lamb, David Oliver and Chris. Heaslip and Misses Ada Oliver, Jennie Flette and Gertie Tier. Messrs. Lorn Mullin and Robt. Little spent the day at Port Hope while Mr. John Britton went to Buckhorn. The popularity of orangeism was once more tried and the members of the lodge may well congratulate themselves on the results of the glorious 12th 1901.

Mr. Jas Herron of Cameron spent Sunday with his friend Jno. Patterson.

Mr. D. A. Robertson of this place spent Sunday in Lindsay.

Mr. and Mrs. AM. Northey of Fenelon Falls visited Mrs. Tiers' on Sunday.

Miss Carrie Skitch has gone to Campbellford to spend her vacation. Messrs. Jno. Glass, E. Tiers and Thos. Oliver spent the glorious 12th fishing. Some of our boys went to Bobcaygeon.

A barn raising and a wedding soon.

MOUNT HOREB

Mount Horeb against the world! At an early hour on the morning of the 12th of July all the village was alive and large flags were seen flying in a right royal way. Nearly everyone went to Port Hope, where there was a grand display of orange men, orange girls, orange women and all the rest orange and an orange dog. Be it understood that not a single orange man was intoxicated. If some men were drunk do not come to the conclusion that the Orangemen are responsible. All came back in due time pleased with the outing, and thus ended the glorious 12th.

On the evening of the 11th the boys of Mt. Horeb and suburbs gathered together and under the supervision of Captain Lowrey the fire works were handled in first-class style. A game of football, patriotic songs, three cheers for King Edward and the glorious 12th wound up the evening and all went home at a proper hour. Lost—Between Mt. Horeb and Reaboro, by way of Hillhead, on the 12th of July, a blue regalia with

golden tassels and stars, a blue ribbon attached to the front with the motto L.O.L. No. 820 on it. The finder will be suitably rewarded by returning the same to Wm. Elliott, Elliott House, Mt. Horeb.

Reaboro L.O.L. No. 820 deserves much credit for their clean, neat appearance. In looking at them one who did not know the lodge would appear small. The band is composed of members of the lodge, twenty strong.

A society known as the "Knights of Labor" has been started in Mt. Horeb.

Miss Maggie Scott, teacher of Mt. Horeb, who has been here only one year took up a class of six pupils for the Entrance examination; five passing, one pupil heading the list. This speaks in glowing terms for both pupils and teacher.

Fresh ground insect powder at Higginbotham's, next to Daly House.—27-4.

KEEP THE MILK CANS CLEAN

Inspector Lowrey Makes His First Visit—Severe Fines Inflicted

Mr. J. B. Lowrey, the new instructor for the Victoria County Cheese Board has just completed his first visit to the various factories. He reports fairly favorable on what he has seen. He compliments the district upon the class of makers employed, and states that with first-class equipment they could hardly fail to make anything but choice cheese. It is a matter of regret that on his first visit he has had to inflict severe penalties for the adulteration of milk. Will the unthinking people never learn to be honest? Severe fines will, or at least should, prove a warning to other would-be transgressors.

The curing-rooms as a whole are hardly up to the standard for the curing of choice cheese. Two or three factories have put in the sub-air duct with good results, but strange as it may seem one of the best curing rooms was minus ice and sub-air duct. On the other hand lumber and paper had not been spared and with two air spaces—most of the factories having only one—the maker has been able during the hot wave to keep the room down to 70 degrees. With the sub-earth duct added what an ideal curing room this would be.

Speaking of the whey nuisance, Mr. Lowrey gave us a new idea. He states that whey is little worse than any other filth that is sure to congregate where care is not exercised in cleaning and airing the milk cans. Unclean cans are an abomination, and they will ruin the reputation of any factory or maker. He has found the great majority of cans in this district to be clean and alright, but here and there he found individual cases where the cans were really filthy. They had been simply rinsed with water while the covers were not given even that much attention. At one factory he refused to permit the offensive cans to be brought into the factory, while in other cases where not so bad they were accepted with a warning never to bring them back in that condition or they and their contents would be rejected. Some of the cans were so filthy that he could not scrape the filth and rust off with a stick. The practice of leaving the whey in the can will quickly destroy the tin and rust is sure to follow.

Mr. Lowrey states that it is simply an impossibility for any maker to manufacture a pure and wholesome cheese where milk from filthy cans is accepted, as their contents will contaminate all the milk in a large vat. He had been forced to deal harshly with the transgressors along the line, but looks forward to a marked improvement in the future. A clean can has a "feel" all its own and he can pick it out blindfolded.

Hair Falls

"I tried Ayer's Hair Vigor to stop my hair from falling. One-half a bottle cured me."
J. C. Baxter, Braidwood, Ill.

Ayer's Hair Vigor is certainly the most economical preparation of its kind on the market. A little of it goes a long way. It doesn't take much of it to stop falling of the hair, make the hair grow, and restore color to gray hair.
\$1.00 a bottle. All druggists.

If your druggist cannot supply you, send us one dollar and we will express you a bottle. Be sure and give the name of your nearest express office. Address, J. C. AYER CO., Lowell, Mass.

Great 30 Days' Reduction Sale

GRAHAM'S

The One Price King Clothier

Boldest Possible Reductions!

IMPORTANT NEW FEATURES OF OUR BIG AND BUSY SALE!

Stirring tidings for shoppers! Last week's sales in volume of business exceeded all previous July records. This week promises to set even a swifter pace, judging by indications. To the various lines in process of clearance we have added some new and noteworthy purchases. THE ONE-PRICE CLOTHIER

East of Benson House

LINDSAY and BOBCAYGEON

The Stocker Trade

Mr. P. B. McMillhargey, our local live stock dealer, endorses to a certain extent the views of Mr. Austin on the cattle trade given in our last issue. Mr. McMillhargey thinks that while the market in Canada will certainly be lower, he does not expect that it will go below two-and-a-half cents per pound. He attributes the dullness in the stocker trade to the drought in the American ranching states, where he says many ranchers are selling to more fortunate ranchers at any price rather than have their cattle starve. This statement comes from him "right off the bat," and that after a trip through Colorado and Texas. He also states that if the worst comes we will in a few years find a ready market in the Northwest for all our young stockers and while the trade may be retarded for a time it will not be lost. Already there is a good business being done. He could have sold ten cars for Calgary recently, but finding them difficult to purchase only sent one lot. The times are good and prospects are bright for a big harvest and he thinks that farmers will be inclined to hold onto the young stock so long as the grass is good with the view of getting the most out of them. This is very well from their point of view, but on the other hand it means that they will be all rushed in at once and the market will be glutted with stockers that can hardly be sold at any price. His

advice to farmers would be to let them go just as soon as the drovers find a market for them, which he expects will begin to open up in about a month. He would also advise farmers who have plenty of rough fodder to hold the big stockers and go in for home feeding and finishing for the British market. The light stock when finished has to be sold in the American market, where they can be produced cheaper than in Canada. The big steer, well fed and finished, is the kind they can make money out of. Don't forget breeding also counts in the cattle question. He also endorses the view that lambs will run low in price this fall in common with the low prices in the United States. All the advices point this way.

New Century Ideas.

The Toronto Exhibition is to be held from August 26 to Sept 7, announces that its principal characteristic will be the adoption of New Century Ideas. The phrase might be considered a bit indefinite but for the fact that contemporaneously the statement is made that daily and nightly displays of all the new weapons of war as well as recent developments in the arts of peace. The pom-pom will be on view, wireless telegraphy will be shown in practical use off the shore to passing vessels, magnificent displays of illuminating effects will be made, recent announcements in electricity will be

shown, demonstrations will be made in the cultivation of the sugar beet, modern methods of rescuing sea and will be illustrated, manoeuvres which latter-day artillery will take part in fact the military will be very much in evidence in all its branches while the handy-man and the marines will also be used largely in the off-shore operations and the brilliant night spectacle, the Bombardment of the Taku Forts by International forces. An International Musical Tattoo will be the feature of the opening night, when a large number of troops will be utilized. A street exhibit of French-Canadian cattle and of Pan-American live stock, is to be made. In fact, in the live stock made. In fact, in the live stock made. In fact, in the live stock made.

—But butter is palatable and nutritious. For sale at A. Campbell's grocery.—29-4.
