- Children's Dongola Shoes and Slippers, all sizes 7 to 10, special 40c

R. NEIL, The Shoe King

Sole Agent for the Stater Shoe

The body of an Indian was found dead on the G.T.R. tracks, one mile east of Jordan Station. He is supposed to have been struck by a train. The body is almost unrecognizable. His name is David Lalorn of Hagerville. He was about 26 years of age and unmarried.

The Weekly Sun: Mr. Greenway brought into the political field of the honesty and plain dealing of the farm. Unfortunately, he dropped them there. He can hardly do better now than to return to the place in which they grew.

POWER COMPANY WILL BE ASKED FOR FIGURE ON STREET LIGHTS

Prospective Purchasers of the Gas Plant make a Proposition

GRAVEL WILL BE STORED

The Lake Gravel is not Fit for Kent-St., but 100 Yards Will be Stored for Walks

The street-lighting question was again thrust upon the attention of council on Friday night, by a visit from a representative of the St. Catharines Carbide Company, who had a proposition to make. He was Mr. McTavish, and he said that the Lindsay Gas Company had asked his company to buy the plant. Before doing so his company wanted to know that they could get a 5-year contract with the town for at least 100 lamps at \$15 each. Would the town give such a contract? That was what he came to find out. Mayor Southerton called a special meeting of the council to help him out. The result was that the proposition was not entertained by the council, but a committee was appointed to interview the Light, Heat and Power Company in a general way on electric street-lighting.

THE LAKE GRAVEL

Although allowing \$400 worth of it to go onto William-st. as an experiment, council is not at all persuaded that lakeshore gravel provided by the Kawartha Lakes Navigation Company is first-class road material, or good enough for Kent-st. After unsuccessful efforts to find better in quantities, council has decided to store 600 yards of it for use in walks to be built next year. At Friday night's meeting Mr. Jos. Parkin was present on behalf of the company. He had a sample of excellent gravel found on the west shore of the lake north of Ball Point but strung along the shore for a long distance, and totalling only 2000 yards. The gravel formerly put on Kent-st. was not good. The couple of scow-loads at most. The old pit from which the gravel formerly put on Kent-st. was not good. The couple of scow-loads at most. The old pit from which the gravel formerly put on Kent-st. was not good. The couple of scow-loads at most.

THE STREET LIGHT

Mr. McTavish briefly outlined his proposition regarding the street lights. The Lindsay Gas Company had been getting carbide from his company ever since it began operation. It now seemed to have reached the limit of its resources and wanted his company to buy the plant. He was there to find out whether there was a likelihood of getting a contract with the town if they did buy it. If not they certainly would not take it. They must have at least 100 lamps at \$15 a lamp for 5 years. If that could be got they would behind it, plant, put plenty of money service, and extend the domestic service, which numbered only 40 lamps, and should number 200.

THE AQUATIC SPORTS

The chief interest centred in the aquatic events. It is a fact that there is a pronounced revival of interest in such events at Sturgeon Point. The officials occupied a platform that had been erected outside of Mr. G. H. Hopkins' boat-house. They were Messrs. R. Miller, G. H. Hopkins, Geo. Lytle, J. D. Flavelle, John Carew and Rev. J. W. Macmillan.

THE FLAVELLE MILLING COMPANY'S EMPLOYEES HAD A SUCCESSFUL PICNIC

On Saturday last Sturgeon Point was the scene of the 10th annual picnic of the Flavelle Milling Company employees. The crowd was not as big as last year's, but the event was in every way a gratifying success. Amid fine weather more than 1000 people put in a pleasant afternoon. The Alexandra and Kenosha went down in the morning, and the latter boat made an afternoon trip. The feature of the event for the children—and a unique and commendable feature it is—was the distribution of about 1000 gifts of toys and candy to the juveniles. The roped-off space was the centre of attraction for a host of expectant and delighted youngsters for an hour after dinner. A program of athletic sports followed.

STURGEON POINT WAS AGAIN THE SCENE OF A GOOD OUTING

anything but the common old fog, is doubtful, however. At all events a committee was appointed to interview the Light, Heat & Power Company about street lighting. The members are Aids. McCrae, McWatters, Maunders, Storer and the mayor. To them Aid. O'Reilly's suggestion that it might be well to have an idea of what they were to ask the company for, did not appear necessary—for the reason, likely, that nobody knows. That, however, is no damper on enthusiasm such as commences the committee. Their report will be looked for with considerable interest. There is no telling, but out of even their blundering way of going about their job, some good may come.

MARIPOSA COUNCIL

Is Opposed to the County Guaranteeing Bonds of Any Municipality

Mariposa council met on Monday, the 27th inst. The chief business was the adoption of the engineer's report on the Hancock drain and the resolution endorsing the refusal of the council the guarantee the bonds of any corporation within the county.

MANILLA

Quite a number attended the social held on Mr. Thos. Osborne's lawn on Monday night, and reported a good time, though not too hot. Elegant sateen blouses at \$1, and nicely trimmed cloth skirts for \$2.80 to \$5 at W. L. Coone's.

COUNTY CORRESPONDENCE

CAMBRAV

Mr. Geo. Lowden, one mile east of this place, has just completed his new residence. It is a two-story brick, 44 x 22, with kitchen 18 x 24. The brick work was done by Mr. J. D. Ewart and his staff, while Mr. Thomas Downey of Reaboro had charge of the carpenters. The residence is a credit to the owner and workmen as well.

J. O. ORR, Manager and Secretary

What's more, I don't care.

Well, I acknowledge it sorter interests me, went on our philosopher in an inscrutable tone, "because, Brother Dole, you kin often trace a man's good or bad doin's to his belief in Bible matters. Maybe you don't remember Jabe Lynan that staid Thad Wilson's stump suckin' hoss an' was ketchin' an' put up. I was at the courthouse in Darkey when he received his sentence. His wife sent me to 'im to carry his pipe an' one thing or other—a pair of socks an' other necessary tricks, a little can o' lye soap, fer one thing. She hadn't the time to go, as she said she had a batch o' young corn to hoe out. I found 'im as happy as ef he was goin' off on an excursion. He laughed an' frowed it ud be some time 'fore he got back an' ud wonder what could 'a made 'im."
