Saturday Was St. Swithan's Day

Saturday was St. Swithan's Day, and the legend says that if rain falls on July 15 it will continue for forty days. The superstition, fortunately, is not to be trusted. Many countries have their rainy saints, and all have chosen different days. France has no less than three, St. Medard, June 8, and St. Gervais and St. Protas, June 19. Among the saints' days in Germany to which this belief attaches is that of the Seven Sleepers, June 27. St. Swithan was Bishop of Winchester in the ninth century. There is a story that he was stronger than all the king's horses and all the king's men, inasmuch as he is credited with miraculously restoring an old lady's broken legs. According to William of Malmesbury, he asked that his grave should be where the rain from the eaves might fall on it. A century later, when the monks exhumed his body to deposit it in the cathedral, the transition was delayed for forty days by rain, commencing on July 15; or so, at any rate, the story goes. Like the belief as to shadow-seeing bears and groundhogs, the superstition dies hard. If long rain follows a rainy fifteenth of July once in a generation, the fulfilment of the belief on that one occasion is remembered to the exclusion of the many times it has proven wanting.

Nervous Prostration Sleeplessness Palpitation of the Heart Dizzy Spells Are all Cured by the Use of MILBURN'S HEART and NERVE PILLS

Mr. Peter Halstad, Tilley, Alta., writes: "I take great pleasure in writing a few lines to tell you what your Heart and Nerve Pills have done for me. I had a long standing case of nervous prostration, sleeplessness, palpitation of the heart, and dizzy spells. I bought a box of the pills and they did me so much good I continued their use until I had used several boxes and they restored me to health again. They are a great remedy and I recommend them to all my friends."

KINMOUNT

Kinmount, July 17.—We have had a long spell of dry weather here, but it was broken last night by a down-pour of rain, which was much needed. Mr. Gordon Mark and friends left for Toronto on Saturday last after enjoying the refreshing breezes of Davis lake. Miss Violet Graham, of Cobocok, is visiting friends in the village. Berry-picking is the order of the day at present. Berries are not so plentiful as some supposed they would be. However, the late rain may help some. Miss Myrtle Gilmour is visiting in Lindsay. Mr. Amos Train came home last week from Muskoka, where he was for a short time. Mrs. Levi Christopher, of Peterboro, is visiting friends in the village this week. The trustees of the public school held a meeting last Friday night. Matters of importance were dealt with. Mr. Broderick, P.S.I., was present, giving some good suggestions and advice. Mrs. H. Graham, who was visiting for some time in Peterboro, arrived home last week. Messrs. Orval and Frank Eastman and Charlie Pigeon passed through the village last Thursday. Quite a change has come over the boys since they left our village. Mr. and Mrs. Butts and some of the family from Toronto, are in the village for a short stay. Mrs. E. A. Wellstood and family are visiting friends in Minden. In Toronto, on Tuesday evening, July 11, there passed away to the great beyond one who spent a few years in our village, Master Herschel Eastman. He was taken ill some months since with typhoid fever, after which pleurisy set in, then spinal disease, and although all that could be done was done it was of no avail. He was in his seventeenth year. While here he attended the public school and was a quiet, inoffensive lad. The many friends in this district sympathize with Mr. and Mrs. Eastman and family in their bereavement. He was buried in Minden on Thursday evening.

Ops Council Proceedings

Ops council met July 19 at 10 a. m. All the members present. COMMUNICATIONS. From Provincial Board of Health re pollution of inland waters. From superintendent of G.T.R. agreeing to repair crossings in Ops that needed gravel. From Secretary of Board of Railway Commissioners re Hutton Grove crossing on G.T.R., and also re Pogue's crossing on G. B. & S. R. From Ontario Municipal Association. From Mr. Hart re cleaning Helme drain. INTERVIEWS. Mrs. Connors, objecting to closing of by-roads east of the town on the ground that she had sold a quarter acre of her lot on the street running east, and that therefore the crossing must be kept open. Mr. Meagher must have a means of ingress and egress. Also that she had rented the front half of her lot on the Bobcaygeon road, and she needed the street running north for an outlet from the rear half of said lot. Messrs. Staples and McGahey again supporting the closing of said streets. On search by the clerk it was found that Mr. Meagher held a deed for the quarter acre fronting on the east and west street, but that Mrs. Connors' lot on the Bobcaygeon road was all one lot, with no division registered. Mr. Robert Sanderson, complaining of the condition of the temporary crossing at Stewart's on the G. B. & S. R. On finding the way things were in the registry office, council considered that the only parts of the by-roads east of the town that could be closed were the extension of Queen-st. eastward to the point of intersection with the by-street running north and also this street running north from the point of intersection to the northern boundary of lot 21, and on motion of F. W. Blackson, seconded by W. Best, Rev. Hawkins was instructed to have the owners of property along these streets sign agreements to pay \$125 per acre for the east extension of Queen-st. eastward, and \$75 per acre for the street running north, before council took steps to close the same. Moved by D. W. Terrill, seconded by W. Walden, that R. Sanderson's bill for damages to buggy broken on street caused by Stewart's crossing be referred to the C.P.R. Moved by W. Walden, seconded by F. W. Blackson, that the following accounts be paid: McLennan & Co., for scraper, cement, etc., \$13.55; W. Burden, for repairs to big grader, \$5.50; Jos. Doust, for two typewriter ribbons, \$1.57; J. McGahey, for gravel, \$3.90; Geo. McGahey, horse hire to Hutton Grove crossing, \$1; Registry Office fees, 60c. Moved by W. Walden, seconded by D. W. Terrill, that the C. P. R. through Mr. Duncan be urged to put the crossing at Stewart's into a safe condition at once, and also to hurry to completion the overhead bridge at that point. Council adjourned to meet at the call of the reeve.

To Cross Atlantic In a Motor Boat

New York, July 16.—Captain John Weller, the mariner of Carlstadt, N.J., who will try to cross the Atlantic in his fifty-foot motor boat Romania, has started on his voyage. After an official farewell at the home of the Jamaica Bay Yacht Club, the boat anchored in the North River until yesterday morning, when she moved down to the Yacht Basin south of Pier A. at the Battery. The start was made from the Battery at noon yesterday. Captain Weller's crew consists of Captain William Small, Anton Mepro, Henry Struovmeyer, and Robert Weller, the owner's son. Capt. Weller expects to reach Queenstown, the first port to call, on August 4. From there the Romania will go to Liverpool, thence to France, to Antwerp, and will make a side excursion some 250 miles up the Rhine. On the return voyage Capt. Weller will cross the Atlantic by the southern route.

Election Expected In September

Ottawa, July 18.—Just how, when, or under what particular circumstances an election is likely to occur, no one at present is in a position to conclusively forecast, but most of the members now arriving expect it and say the country is expecting it. Evidences have been accumulating for some weeks as to the Government's intention in that direction, and it does not come it will be wholly unexpected which will happen. Apparently but two courses are open—either to attempt by months of effort and struggle to put through the bill or else go to the country. With the indemnity exhausted the members are not in a mood for the former course, but rather disposed to hasten the climax one way or another. All this makes an election more than probable. As to the time—the last week in September seems to be the earliest date possible.
