Manager Lindsay Branch

THE CANADIAN BANK OF COMMERCE

SIR EDMUND WALKER, C.V.O., L.L.D., D.C.L., PRESIDENT
ALEXANDER LAIRD, GENERAL MANAGER

CAPITAL - \$10,000,000 REST - \$8,000,000

THE SAVINGS BANK DEPARTMENT

The Canadian Bank of Commerce will receive deposits of \$1 and upwards, on which interest is allowed at current rates. There is no delay in withdrawing the whole or any portion of the deposit. Small deposits are welcomed.

Accounts may be opened in the names of two or more persons, to be operated by any one of the number or by the survivor. A joint account of this kind saves expense in establishing the ownership of the money after death, and is especially useful when a man desires to provide for his wife, or for others depending upon him, in the event of his death.

Lindsay Branch, H. A. HOLMES Manager

A New Laxative

—the best known to modern medicine
—is the active principle which makes

NA-DRU-CO LAXATIVES

so much better than ordinary physics. While thoroughly effective, they never grip, purge or cause nausea, and never lose their effectiveness. One of the best of the NA-DRU-CO line. 25c. a box. If your druggist has not yet stocked them, send 25c. and we will mail them.

National Drug and Chemical Company of Canada, Limited, Montreal.

Preserving Time Means

St. Lawrence Sugar

Every good housewife knows that poor sugar means poor Preserves.

The anxiety as to whether Jams, Marmalades, Preserves and Pickles are going to keep, can be entirely dispelled by using **ST. LAWRENCE GRANULATED**.

Remember to order ST. LAWRENCE SUGAR—either in barrels, 20 pound bags or by the pound.

The St. Lawrence Sugar Refining Co. Limited
MONTREAL

You've Probably Guessed

You've probably guessed that the people who have the smallest medical expenses have taken some pains to find the right grocery stores.

"What to eat" is one of the big questions of life; and "where to buy it" takes on a relative importance. This store is one of the "correct answers" to the question.

Neglect Is Incipient Murder

(From the Farmers' Magazine)

The Women's Institute of Ontario are calling the attention of the farmers to the discouraging conditions under which the majority of women do their work. The farmer of former days who stinted his table and counted every match that was used, is looked upon by the farmer of to-day as a "tight-wad" of the most despicable kind. Unfortunately many heads of households who think themselves generous are guilty of things quite as bad as the meanness of a former generation.

Many a farmer lives in a house poorly ventilated, poorly heated, and most unhandy in every particular. The pump and cistern are outside and away from the house. The out-buildings require a very strong constitution in the cold and stormy days. Hundreds of extra steps have to be taken by the wife in her daily duties, while her sleeping apartment is not as well regarded in the matter of fresh air, as the box stalls for the cows and colts.

A new silo has to be built; the barn foundation must be put up; a ram or gasoline operated pump must be installed to get the water to the well-cared-for stock. No expense for the pigs is considered too much. The orchard has its barrels of lime sulphur and fertilizers regularly applied. The rotation of crops takes time and money. Machinery for every operation must be purchased at once. The wagon, whose creaking wheels annoy, must be replaced by a new one. Only the patient wife, whose wheels never groan, and the growing family whose limbs are tireless in the treadmill of useless labor, about the house—only these can wait. These are only human blood and bones and realize no immediate dollars to buy more land or swell the bank account, perchance to be gobbled up some fine day by a mining scheme of a hogus cold storage flotation.

Even the social side of life must be built up at the expense of the physical. The seven-year-old daughter must have her piano and take music lessons. Like the southern boy in the story, if she has not the capacity, therefore, it must be acquired or purchased. The new top buggy and showy driver seem a necessity. All this is done at a cost much in excess of what a well equipped water service in the house would demand for its installation.

Happily, signs are not wanting that these matters will be improved. Many farmers are awakening to the fact that money is not everything. Life is more than meat, said the Wise man.

How can life be ministered to better than in preventing disease which are now largely caused by neglect, overwork and exposure. The matter of fresh air, properly prepared food and convenient water, heat and light conveniences on the farm are receiving proper consideration.

Save the women and children in the farm home.

LINDSAY FRIENDS ARE ANXIOUS

The many friends of Mr. Dave Mulcahey, of town, son of Mr. Wm. Mulcahey, who resides on the corner of Queen and St. Patrick-sts., are becoming anxious as to his safety, he having been missing in South Porcupine, the district where the fire was at its worst. Dave has been missing in that district for the past two or three years, leaving this year about April, and as no word has been received from him since the fire his relations are anxious.

All the telegraph offices in that district are piled high with messages, but the wires are badly choked and it may be days before the anxious friends know the fate of their people. There are no wires into Porcupine and all is still doubt and confusion. It will probably be days before an authoritative list of the dead can be prepared.

Refugees coming out from South Porcupine, the district in which Mr. Mulcahey was working, tell a horrible story of being forced into the water of the lake by fire and waiting hours for succor. A terrific gale was blowing and the waves dashed mountain high so that very few boats could venture out, although the women and children were taken away. Survivors from Porcupine tell sorry tales of lying in swamps beside lakes and escaping with scorched lungs and burned bodies. Many women and children stood chin deep in the water at Porcupine for five hours and survived the terrible heat and smoke, but many sank beneath the waves. Hundreds of people were brought to Golden City in boats as soon as the fire started, but in South Porcupine it was not fifteen minutes from the outbreak before the whole town was completely wiped out. Scores of men took to the water where they stood up to their necks with wet blankets over their heads, thus escaping, and from the fact that many have escaped Mr. Mulcahey's relations and friends are still hopeful and expect a message at any time.

Tourists Arriving at Pretty Rosedale

Rosedale, July 14.—Once more Rosedale is filling with pleasure seekers, and once more see them passing along, rod in hand, at any time of the day. No big catches have yet been reported.

Mr. Goodman's cottages are all taken. Major Napier Keefe and family of Toronto, are in one; Dr. W. F. Clarke, his wife and family, have another; Mr. and Mrs. F. Cote are in "Hiawatha", while Mr. and Mrs. Goodman, who have just returned from two years in British Columbia, have their usual summer abode.

Mr. and Mrs. J. S. Macleod have had Miss B. Galloway, Beaverton, and Mrs. Vernon Lawson, Ottawa, with them for some time.

Rev. Dr. R. N. and Mrs. Burns, with Misses Hilda, Elsie and Gladys, also Mrs. W. R. Macdonald, are occupying "Kawartha Lodge" the same as last year. Mr. Jas. G. Burns was with them for a few days this week before sailing for England and the continent.

Rev. Wm. McKay with his wife and two children, arrived on Monday from Milton, and are as usual occupying H. J. Lytle's summer place.

Mr. and Mrs. E. G. Lytle and children, of Oakwood, have had their cosy home open for some time.

Mr. and Mrs. Jas. Dickson opened house not long ago. Miss A. I. Dickson has recently returned from China, where she has been for six years connected with the Presbyterian mission at Kong-Moon; she has a collection of Chinese curios well worth seeing.

Dr. Petry, of T.C.S., Port Hope, with Mrs. Petry and children, also Mr. Henry Howard, of Quebec, are occupying their cottage at Point aux Roches, Balsam Lake.

Mr. and Mrs. Fox, Toronto, motor out to their cottage on Saturday last.

Mrs. W. J. Harris and family, of Toronto, are occupying Mrs. H. Macdonald's house.

Miss Eva Bonnell came from Bothaygon Wednesday, and is at Mrs. Dickson's. We understand that, her mother has taken the Reynolds house for the summer months, and will be here shortly.

The St. Andrew's College "Camp Kagawong," has about 25 or 30 boys at present, and more are coming each week. Mr. Chapman is looking after them the same as last year.

We regret to hear that Mr. Thos. Isaac had two ribs broken, and was badly bruised by falling from a beam in the barn while putting in hay. Dr. Johnston was called, and at time of writing Mr. Isaac is resting somewhat easier.

Mrs. J. R. Hughes, of Orillia, arrived on Saturday for a visit with Miss Smith. She was accompanied by Miss Belle Brooks, who has been with her since the winter.

Mr. R. M. Purdoo, of Trail, B.C., has been renewing acquaintances here during the past few weeks, and will leave shortly for his western home.

Miss Zillah Suggitt, of Baddow, visited with Miss V. McIntosh, at "Moy Villa" this week, and went on to Lindsay on Tuesday.

Mr. Jas. Poulson has taken up his duties as brigadier.

Rev. Mr. Gandier has the English church service here every two weeks. He is greatly liked by all who have heard him. The church is being improved by a bell and tower.

Rev. Mr. Terry will hold service on Sunday as usual. Owing to extra Coconak services, we have been without any for the past two Sabbaths.

A number from here took in the 12th of July celebration at Fenelon Falls. Among them were Messrs. Burnett, Arkwright, Swift and Isaac, and Misses Irvine and Isaac.

CARD OF THANKS.

Through the columns of The Daily Warder and the Weekly Watchman-Warder, Mrs. S. J. Fox, wife of the late S. J. Fox, M.P.P., wishes to express her heartfelt appreciation and thankfulness to the large host of the friends in town and country for sympathy to her and members of the family in the time of her deep trouble. Mrs. Fox wishes to thank the many manifestations of sympathy, and is grateful to the superlative interest and staff of the Ross Memorial Hospital for the excellent and very efficient aid rendered to her late husband during his stay in that institution. Such expressions of sympathy and kindness tend in a great measure to alleviate the sorrow in the hour of bereavement.

LINDSAY PROSPECTOR SAFE.

Mr. William Fowler, of Lindsay, a prospector at Porcupine, is safe, and came out of the terrible fire with only a few burrs and scratches. Mrs. Thos. Connel, Glenelg-st., has received a telegram from her brother, Mr. Fowler, which stated that he had escaped the ravaging flames.

Mr. Fowler lives in Toronto, and went to Porcupine two months ago, and it is thought that the fire will hinder his work considerably. He had a narrow escape having had to bury his tent and outfit in a hole dug in the ground, while his post office, Pottsville, has been wiped off the map.

The Implement OF THE NATION

A NECESSITY TO ALL CLASSES.

To the Farmer, in his Business and Home Life.
The Commercial Man in his Office and Every Department of his Establishment.

"GO NORTH, YOUNG MAN"

CANADA, COUNTRY OF FUTURE. SAYS WANAMAKER.

New York, July 15.—Interviewed on his return from a three-months' trip to Europe and the coronation, John Wanamaker said regarding reciprocity the English people seemed to favor the idea in the abstract, but that they had many differences of opinion as to the articles of agreement. Mr. Wanamaker held a pamphlet on "Canada in his hand, and pointing to it, said:

"Canada is a great country. It is a fine field for Americans. There is no longer any need for our young men to go west. They should go north and settle in the country of the future."

For A Good Reliable Boot

DON'T FORGET To call on J. Hughes' Hand Made Boot and Shoe Store

ONLY FIRST CLASS MECHANICS EMPLOYED AND VERY BEST LEATHER USED.

REPAIRS NEATLY AND PROMPTLY EXECUTED

If you need repairing done or rubber heels fixed, call in and we will fill your requirements while you wait.

J. HUGHES J. I. S. ST. AND WILLIAM ST. NORTH

A FURNACE THAT WILL GIVE YOU AS MUCH HEAT FROM SIX TONS OF COAL AS YOU EVER GOT FROM SEVEN, IS ONE YOU CANNOT AFFORD TO OVERLOOK.

The "Hecla" will do this: It is built to save coal at every point, but the big coal-saving feature is the Steel Ribbed Fire Pot. By adding Steel Ribs to the Fire Pot the surface which radiates heat is increased three times.

Every Furnace has flanges, or projections of some sort on the fire pot to get more radiating surface, because the heating capacity of the fire pot increases as the increase the radiating surface. But the "Hecla" is the only Furnace that has attained the greatest possible radiating surface and the reason is that where other Furnaces have clumsy cast-iron flanges, the flanges on the "Hecla" are made of steel plate and fixed to the fire pot casting by our patent process.

"Hecla" Furnace

A test extending over three years, demonstrated that this ribbed fire pot made a saving in coal—18%.

Isn't that worth looking into?
Ask someone who owns a "Hecla."

You will find the "Hecla" the best warm air Furnace you ever saw. You will find that it gives an even distribution of heat—heat that is moist and free from gas or dust.

You will find the "Hecla" a Furnace easy to run. One that does not waste live coals when you shake it down. You will find a Furnace that burns wood or coal equally well.

Get this Booklet. It gives interesting information about Hecla Heating.

Mariposa O

Mariposa Council proceeding day, July 10, 1911. The matter all present. Mr. Arnold reported that there were three culverts being water on to his farm at con. 4, Mariposa, and wanted council to assist him in removing this trouble. Mr. Howard Hertz wanted pay for a spring coil had fallen into municipal drains while under construction, causing the death of the coil. Robert Hodgins wanted another grant to help complete the walks at Manilla; Mr. Neil said that the gravel pit at 1 in con. 7 was in such a condition that he could not get out with load of gravel; the clerk received notice that the resolution of the council respecting the bridge across Scougog Lake had been received from Ottawa, and had been forwarded to the Hon. Dr. Reaume, Minister of Public Works at Toronto; Mr. Donald, tax and land commissioner for the Grand Trunk Railway, sent plans and specifications of the proposed combination station dwelling house at Manilla Junction. Messrs. Michael Varcoe, and report respecting a meeting of committee of the county council view of the county assuming the maintenance and construction of the Cat Tail Bridge at lot 20, 21 in con. 4, Mariposa. The committee recommended the county assume the bridge, and the town pay 48 per cent. of the cost of construction and maintenance of the bridge.

Mr. Charles Jenkins, sheep venter, presented a report showing he had examined the following: G. Washington, one sheep valued at \$10; Messrs. Hogg & Lytle, two sheep valued at \$8 each, and three sheep valued at \$5 each.

Mr. A. G. Cavana, township engineer, sent in plans, profile, and estimates for the deviation of creek at lot 17, con. 5, Mariposa east of Mr. Glenn's barns.

The agreement for the construction of a ditch at lot ten, concession 10, was signed by the reeve and all persons concerned; a communication from the council that Mr. R. H. Lapp was about to place wire fence on the road allowance, lot 20, con. 3; Mr. John Hancock reported that he had placed 1 tile 4 inches in diameter to connect the road, and his six inch tile drainage a distance of 95 rods, and the difference in price between the 6 and 4 inch tile would be \$12.20; Mr. G. Graham asked the council to suspend three days work cleaning out the drain on the road allowance; Mr. Donald McIntosh asks for one day's statute labor for
