THURSDAY AUGUST 10th, 1899

The Temperance Question.

IN this issue we publish a letter written by Dr. Herriman, in which he discusses our remark of some time ago that if the temperance people had voted and made the plebiscite verdict favor of prohibition read 63 per cent. instead of 23 per cent of the elector te, the government would probably have brought in a prohibitory measure. The doctor's contention lies not so much against this fact as stated by us, as against the action of the government in refusing to heed a majority, because the vote was not large enough. He explains that no word of the premier before the vote led the temperance people to think the plebiscite would be estimated in any such way. There is a great deal of strength in his position and in proportion as there is this strength, will the whole performance prove a weakness to the Liberals at the next election.

The indefiniteness of the whole thing and the astonishing method of reckoning adopted by the premier after the vote left plenty of room for suspicions of insincerity

Overstepping the Possible.

No person expects any important concern to be conducted without plenty of money. When the concern happens to be the country in which a man lives he is all the more of that opinion. The government of a progressive country ought to find it necessary to make large expenditures. If it does not it is time to select a new government. No wise man will set penurious limits to the finances of his nation. The cry for economy is often nothing more than the voice of political bigotry. In Canada every enterprise that has ministered to prosperity has been undertaken amid the protests of the party out of power.

Even with these things in mind it is not possible to regard the enormous estimates of the Laurier government without apprehension. They have reached such proportions that protest is imperative. It is imperative not for any political purpose or on political grounds, but because they have reached the border of impossibility. Sixty millions a year is more money than five millions of people are able to contribute to the national revenue. On strictly business principles there must be a change; for the country, however willing, simply cannot continue to pay that sum. Ten dollars per head for children and alms is a tax that will soon bring poverty to nearly every home. Without any narrow objection to the expenditures of the Laurier government everyone must feel that a burden has been laid upon the people of Canada that threatens them with ruin. Under such perils the spirit of self-preservation in every thoughtful man will compel him to use his franchise to protect himself against a government whose policy, however statesmanlike, is working his financial downfall. This consideration will drive many voters to unwillingly oppose their party at the next election.

Editorial Notes

THE TORONTO SUN publishes this edifying comparison: "The value of all the farm live stock in the counties of Victoria Peterboro and Stormont is, according to the report of the Ontario Bureau of Industries, \$4,133,151. This is only \$12,151 more than the people of Ontario will have to raise to make up the donations voted to railroad promoters at the late session of the legislature."

Card of Thanks

To the officers and members of Court Dunsford No. 473, Independent Order of Foresters: Gentlemen,—Please accept my warm thanks for the courtesy extended by you during the illness of my son Walter J. Bell, and also extend my thanks to the Executive Council of the Independent Order of Foresters for their prompt payment of the policy on his life, which was received within seventeen days of his demise. May prosperity attend your order. MRS. JOHN BELL, Dunsford.

Incites Irreverent Comment. This slenderly molded young vicar. Causes some of his parish to bicker. And wax very wrath. Maintaining the cloth Should not essay golf in the

\$60,000 RECOVERED.

Money Stolen From the Molsens Bank at Winnipeg Has Been Dug Up—John W. Anderson Arrested.

Winnipeg, Aug. 9.—Only one topic is discussed on the street here, and that is the recovery yesterday of \$60,000 of the \$82,000 stolen from Molsens Bank nearly a year ago.

Anderson Under Arrest. John W. Anderson, formerly a junior in the bank, was arrested at 4.30 last evening charged with being the robber. Whether or not he had an accomplice is a mystery, but he had to get through three combinations and a lock somehow, and he got there most successfully. The theory that the robbery was the work of someone in the bank has at last finally been confirmed.

A Detective's Find. It is said that the money was found buried, and the location was discovered as a result of detective work done by a man named Davis, a young fellow who claims to hail from Chicago, and who says he is connected with a private detective agency in the States, and who did some work in connection with the famous Holmes murder cases. Davis has been advised by his solicitors to keep mum until the trial, and he follows instructions.

Working Since January. Davis came here about January last, and for a couple of months did not find much clue, but about March he became suspicious of Anderson. Immediately after the robbery Anderson left the bank's employ, the inspector saying that there were no prospects of salaries being raised on account of the loss in the robbery, and Anderson, on the plea that he could not live on his salary, went to work for the McClary Company, and was employed there when arrested yesterday afternoon. He took the arrest coolly and ate a hearty supper at the jail.

How the Detective Worked. Davis, it seems, after suspecting Anderson, went to work in Jerry Robinson's drygoods store as a fancy window dresser, and was apparently an ordinary drygoods clerk. He ingratiated himself into Anderson's good graces, and the supposition is that he lead Anderson up to the point of saying where the money was on the understanding that they were to engage in some enterprise together. Anderson knew he had been shadowed by detectives immediately after the robbery, and had given more than one detective a long walk into the country, but just for amusement's sake and having a laugh at the expense of the "eye that never sleeps."

\$10,000 Reward. The reward for recovery of the money is \$10,000. The bank was lit up last night, and Manager Cole was in his office, but he was not talking to anybody. H. W. Whittle, of Haggart & Whittle, counsel for Davis, says there is sufficient evidence to convict Anderson.

Manager Pepee of Trenton, Ont., manager of the bank here when the robbery occurred, was notified by wire last night of the arrest of the alleged culprit.

Winnipeg Police Out of It. The police here were not made aware of the developments, and the arrest was effected by the Provincial Department. Anderson is 24 years of age and single. The detective is a young fellow about 26.

Anderson From Hastings, Ont. The expectation is that Anderson will come before the court to-day. Late last night he was very chatty and seemed in excellent spirits. Anderson came here from Hastings, Ont. The pre-arranged plan with the bank seems to have been to keep particulars as quiet as possible, so as to not interfere with the evidence in any way. There is a suspicion that Anderson had accomplices.

Anderson Has Confessed. It was reported late last night that Anderson had confessed.

Man and Horse Killed. Uxbridge, Ont., Aug. 9.—James Vanderburgh, sr., of the 6th concession of Scott Township, was driving out of town yesterday when his horse became frightened at a traction engine and ran into the incoming train. The horse was fearfully mangled and cut completely open and had to be killed at once. Mr. Vanderburgh was knocked unconscious and lived a few minutes. He was one of the oldest settlers in Scott Township and about 78 years of age.

Paris Gets World's Bike Meet. Montreal, Aug. 9.—At yesterday's session of the delegates of the International Cyclists it was officially given out that the League of American Wheelmen is the only body governing cyclists in the United States that would be recognized by the International Cyclists' Union.

The meet for 1900 was awarded to France, and will be held at Paris. The races begin to-day.

Ben Greenway Killed. Vancouver, Aug. 9.—At Nanaimo coal mines, Benjamin Greenway was killed yesterday by a fall of rock. The rock on which he was working gave every evidence of being sound, but while he was undermining it a block about a foot thick and several tons in weight, fell, crushing his head and side in a horrible manner. He died almost immediately.

Bananas Grown in Canada. Chatham, Ont., Aug. 9.—Miss Fanny Tissiman has in her garden a banana plant, from which she gathered a stem of ripe bananas on Tuesday evening. Through the kindness of Miss Tissiman, a number of her friends can say that they have eaten bananas grown in Chatham. The fruit was fully equal to the best grown in southern climes.

Jumped Off the Wharf to Death. Toronto, Aug. 9.—Yesterday Mrs. Mary Dixon, wife of George Dixon of 214 West Richmond street, ended her existence by jumping off the wharf at High Park into Grenadier Pond. She was insane.

Ville Marie to Liquidate. Montreal, Aug. 9.—There will be a meeting of the Ville Marie Bank directors, at which it will be proposed that the bank go immediately into liquidation. This, it is thought, the directors will agree to.

To Be Tried at Cobourg. Toronto, Aug. 9.—Word has been received at the Parliament Buildings that Roach has consented to be tried at Cobourg. The Assizes there begin on Sept. 19.

Sporting Notes

Searchlight by Darklight won the 2.04 pace at Fort Erie on Tuesday last in the fastest time ever made over a Canadian track. Time—2.05, 2.04, 2.03.

Mr. Aldous of Fenelon Falls was unable to secure a race at Hamilton last week for Little Hector. Consequently he has sent Little Hector across the border where he will take in the Michigan circuit. He will start at Springport this week and at Lansing the following week.

Tuesday evening a team from Ashburham arrived in town to have a bout with the local lacrosse team, but they weren't quite heavy enough. An hour's play convinced them of this, the score standing 2 to 0 in favor of Lindsay. Quite a number witnessed the game, which proved interesting.

Friday afternoon over 200 people gathered at the agricultural park to witness the baseball match between the Lifford and Lindsay teams. Excellent play was the order of the game on both sides, and at the conclusion of the seventh innings the score stood even—0 to 0. Mr. T. Buck umpired the game, and his decisions showed that he was the right man in the right place.

A hastily arranged game of lacrosse was played Friday evening last at the agricultural park between the local team and the Peterboro. The visitors arrived on the 6.20 train, and by seven o'clock hostilities commenced and lasted until eight o'clock. The crowd of spectators was small owing to the short notice. At the end of the hour the score stood 4 to 2 in favor of Peterboro.

Jake Gaudaur, champion oarsman of the world, has written Ed. Hanlan, that he will row any person in the world for the championship at a regatta to be held at Ottawa, providing he gets \$1,000. Gaudaur says he would like to see a young man after the championship. Gaudaur wants to race Wray of Australia or Ten Eyck, and names September 15th as a suitable date. Hanlan is going to have the money raised and have the race held at Ottawa.

Mr. John Aldous of Fenelon Falls is being overwhelmed with the congratulations of his friends, these days on the good work being done by the little red pacer, Little Hector 2.12. He is proving quite a bread-winner this season so far, and is meeting the best in Canada. His winnings to date are as follows:—London, free-for-all, second place; Stratford, first; Durham, first; Orangeville, first; Wingham, first; Perth, first. This is a capital showing. Out of six starts he has won five first monies and one second. At Perth he lowered the Canadian half-mile track record to 2.13. May good luck follow him, but it is hardly to be expected that he should continue such a high average of wins throughout the season. It is not the road we travel, but the pace, that kills.

M. J. CARTER

Were the space ten times as large, it would be too small to index half the goods we want you to know of. We have had a very busy season. We are well satisfied. Thanks to you for your very liberal patronage. We are now preparing for the fall and winter trade.
