From there they go all the way up through the north, preaching to the Indians. They have a model establishment. The farm is 300 acres, and perfectly worked. They raise thoroughbred Jerseys. Rev. Mr. Ross plained to the council that he deemed it inspected the stables, and declared that necessary to re-let a portion of the work from them some pointers might be got for the Guelph farm. Hot and cold water is conducted through the buildings. A pail sits in front of each animal, so fitted that it automatically keeps full to within an inch of the top. The church is beautiful. There are about a dozen clericals and several laymen. We attended vespers and were charmed with the singing. I forgot to say that at Barriere lake Mr. Macminan preached to the factor's family and quite a number of Indians on Sunday.
