It is about one mile from the village of Hartley and convenient to Palestine and Cambray cheese factories. Possession 1st of March, but the purchaser or tenant will have the right of fall ploughing. Terms reasonable. For further particulars apply on the premises or to MRS. JAMES GILCHRIST, Hartley P. O.—34-8.

would cross the walks and stand between the walks and buildings. Ald. O'Reilly referred to the corduroy walk on the north side and stated that the centre cedars should be taken out and the walk filled in with sand or gravel. Commissioner Chalmers modestly submitted Mr. Pitkie's account for extras to council for instructions. He also made a verbal explanation of the gravel secured at Sturgeon Point. Commissioner Chalmers stated he had inspected King-st., but was not able to report on cost of the proposed permanent roadway improvements. He had interviewed Mr. Stone, who offered to put in the tile drains at \$1 per rod. They had to be put down about three feet. Mr. Touchburn stated the work could not be done for less by day work. Moved by Ald. Jackson, seconded by Ald. Robson, that the commissioner be instructed to enter into an agreement with some one to put in the tile drain of King-st.—Carried.

The Steam Roller
Chairman Touchburn stated he had written to four firms about the cost of steam roller, but had not yet received answers thereto. Ald. Jackson thought that if the council could get the steam-roller they should get it at once. The sewers were all in on William, Cambridge and Russel-sts., and the roller could be used to great advantage on these streets. Then Kent-st. was sadly in need of repairs. Even if they could not put on broken stone, great good would result. Black Knott
Commissioner Chalmers was instructed to destroy the diseased trees in compliance with Mr. Trew's report. Accounts
A number of accounts were referred to the finance committee with instructions to be paid. Amicably Settled
Ald. Jackson waxed warm when he introduced the question of members proceeding with unauthorized work, and in order to make his case clear, read rule 61 outlining the duties of chairmen of committees, and also rule 71 giving the penalties attached where chairmen attempted to override the committee and council by doing work of any kind without authority. Mr. Jackson stated that each member was personally responsible to the people for the work done by the council and also were equally entitled to know just what was going on. It was clearly understood that when the important works in hand were completed we would take up the other works and go as far as our money and time would permit. Ald. Touchburn—When we went around in the spring was it not settled that the recommendations in our report were to be completed. Ald. Jackson—No, that covered fully \$10,000 and we cannot spend any such sum. Chairman Touchburn—I certainly understood it had to be done. I was not trying to take the start in any way. The grain season is starting and the wet season is near at hand, and I did not want to put the gravel down in the mud. Ald. Hore—But you have let another contract? Ald. Touchburn—I have not. Mr. Chalmers asked me to get him a man and I could not get one to do the work by the day or job. Ald. Jackson—We want to get along without any friction. We are all personally responsible, and every member has the right to know what is going on. Every matter of expenditure must come before the respective committees for authorization. Town Property
Chairman Hore reported that he had a man at work mowing grass and raking town park. He had inspected the old opera house scenery and found it was no good. On motion the clerk was instructed to inform the Cornwall Theatrical Co. to that effect. On motion of Ald. Jackson and O'Reilly the chairman and commissioner were instructed to get all necessary fixtures for the clerk's office that could be made in town at once. The clerk was also instructed to prepare a list of all fixtures and furniture required at once. Police and Light
Chairman Robson read two accounts from the Light, Heat & Power Co., for \$20.32, which were referred to the finance committee for payment. Ald. O'Reilly stated that he had

been given notice that he didn't want by a letter from Chairman Robson in the Evening Post. If reporters do not report correctly then go for them, but let the councillors settle their own differences without rushing into print. Ald. Robson stated that he was well within his rights and he had only written in self-defence and what he believed was perfectly true. Ald. O'Reilly—It was not true and the minutes of committee and council will show it is not true. Ald. Robson—I thought it was true. I was not at the meeting when the contract was let, and because I asked for information I was not going to be insulted. Ald. O'Reilly—You were at every meeting except one, and the business of entering into a contract was held over until the next day when you were present. Then you also submitted all the reports to council. It is not fair to council to ask questions about the work of your own committee. Ald. Robson did not agree with this statement and other members endorsed the east ward representative. The matter was then dropped. Finance Committee
The members then took up the work referred to the committee on finance. The communication of Wm. Braniff asking for return of pedlar's license owing to sickness was consented to and the clerk was so instructed. The case of the unfortunate man, Lacombe was considered with the letter from Solicitor Hopkins. The clerk was instructed to communicate with the clerk of Otonabee. The clerk was instructed to forward Solicitor Hopkins's letter re tile to Mr. Sutherland. Accounts
The following accounts were ordered to be paid: Edwards & Co., \$70; Robert Bryans & Co., \$53.50; Victor Hill, \$78; John Carew, \$70.79; Rathburn Co., \$197.42; Light, Heat & Power Co., \$20.32; Chas. Podger, \$2.50 and Nurse Callan, \$21. Ald. Hore stated that medical men should be given to understand that they could not engage nurses this way. Mayor Ingle—Dr. Gillespie told me the woman would have died if he had not secured a nurse. It was decided not to send a delegate to the Municipal convention. The auditor's report for June and July was ordered to be filed. Auditor Eagleson stated that there was still \$28 out on the 1899 collector's roll and \$350 on the 1900 roll. The matter was laid over. The auditor recommended that a separate account be kept in the bank for amounts of commuted sewer tax. In order to make this sum meet the requirements it must bear four per cent. The council then adjourned. A Pointer for Boatmen.
"A Camper" writes: During a recent holiday I took a row up the Burnt river from Cameron lake in Fenelon and was both surprised and delighted and I venture the strong statement that Canada cannot show anything more beautiful. On both sides of the winding river the soft maples and willows bend gracefully to the water's edge, while festoons of Virginia creeper, bitter-sweet with its beautiful white flowers, and wild grape hang in endless profusion, interpersed with white high-bush cranberry with its turning fruit and cedar laden as it is now with its light green of seed-pod making a scene of wondrous beauty. In the few spaces where the trees do not come to the water's edge banks of ferns, often nearly four feet in height, make a rich contrast to the foliage of the trees, every leaf of which is reflected in the dark river below. If some of our enterprising boatmen will run an excursion say to Rosedale park for lunch, then up the river on the return trip I am sure they will return with the best-pleased lot of patrons they ever took out. I am told that this river on a bright moonlight night is a scene of beauty once seen will never be forgotten.

Remember Bargain Prices are only for Friday and Saturday. Come Early.

E. E. W. MCGAFFEY.

All Work Must Be Authorized.

ALDERMAN JACKSON SCORES CHAIRMEN OF COMMITTEES.

Strong Plea for a Steam Roller.—There is Plenty of Work for it, and it Should be Purchased at Once.

On Wednesday evening all the members of the council except Ald. Sinclair assembled in the clerk's office to deliberate on "matters of state" that had been sent to the various committees.

Board of Works
The clerk submitted a resolution from the Board of Health, requesting council to have stagnant water removed from roadway in front of Mr. Thos. O'Neill's property.—Referred to Street Commissioner.

From Solicitor Hopkins re lateral to Mr. O. Bigelow's residence was read on motion filed.

The question for more laterals on Russel-st. was considered and on motion of Ald. Jackson and Hore, the commissioner and chairman were instructed to see Mr. Dobson, and if he desired an additional lateral to put the same in at once.

Mr. Jackson pointed out that when they were putting in one for Mr. Bigelow, they might as well put in the other for Mr. Dobson.

Mayor Ingle stated that in future the commissioner should go along the streets that were putting in sewers and secure the names and number of laterals for each property. It made it costly to put them in afterwards.

The walks opposite the storehouses and elevator in the east ward were considered, and it was proposed to make approaches so that the teams
