Secures British Rights in Cunard Vessels in Case of War.

THE STRINGENT PROVISIONS.

Admiralty Will Have the Right to Hire or Purshase All or Any of the Company's Ships Between Liverpool and Now York, Boston, the Medi-

> terranean Ports and Havre-The New Vessels.

London, Aug. 5.-The agreement between the Admiralty, the Board of Trade, the Postmaster-General and the Cunard Steamship Company, dated July 30, is assured in a Par-Mamentary paper last evening. All the company's steamships between Liverpool, New York, Boston, the Mediterannean ports and Havre, including the new steamships, which swill have a speed of 20 to 24 knots ma hour, will be at the disposal of the Admiralty for hire or purchase the event of war. The vessels must be maintained under the British flag and managed witout any undus increase in freight charges or madus preference against British sub-The masters, officers and enginsers of all the vessels must ways be British subjects and the same condition applies to threefourths of the crew.

The company is not allowed to sell any vessel whose speed is 17 knots and upwards without the consent of the Government. The company must maintain the gun mountings, etc., ready for use. For these concessions the Government agrees to subsidize the new vessels at \$375,000 per year each. The loan of \$13,000,000 which will bear interest at 21 per cent., and is to be repaid in 20 annual installments, will rank as the first charge in the whole Cunard fleet, and will be secured by debentures. The agreement provides for a reduction in the subsidy for the new steamships in the case of their failure to attain a minimum speed of 234 kmots.

the Votes.

Rome, Aug. 5 .- The conclave, after being in session for four days, elected Guiseppe Sarto, Patriarch of Venice, as Pope to succeed Leo XIII., and he now reigns at the Vatican and over the Catholic world as Pius X. Last night all Rome was illuminated in his honor. His election and the assumption of his holy office were marked by a striking demons-Bration and impressive ceremonies at the Vatican. To-day the new Pope, clad in all his full Pontificial robes and with all the ritualistic ceremony will receive the members of the diplomatic corps, the cardinals and the bishops, who will then offer official homage, this, notwithstanding the fact that twice yesterday the cardinals and many high officials of the Vatican went through a similar ceremony,

Coronation of Pius X.

The date upon which the coronation of Pious X, will occur has not yet been officially decided, but the impression prevails that it will take place Aug. 9. Although the election was over at 11 o'clock yesterday morning and was announced to the world 45 minutes later, by the appearance of the new Pope, at the window of St. Peter's, the conclave was not formally dissolved until 5.30 yesterday afternoon. The cardinals then returned to their various apartments in Rome, with the exception of Cardinals Oreglia and Rampolla, who temporarily retain their official suites in the Vatican, and Cardinal Herrero y Espinosa, who is too ill to be moved for several days. It was to the sick cardinal that the new Pope paid his first visit after being formally proclaimed Pontiff. The cardinals will remain in Rome for to-day's ceremonies, and should the coronation be fixed for next Sunday, they are not likely to return to their respective homes dntil after that ceremony.

Election Unanimous.

The election of the Patriarch of Venice was unanimous. After Monday's ballot, it was a foregone conclusion that he was the only candidate satisafctory to all to secure the necessary two-thirds. One of the cardinals said that he believed Pius X. would follow the broad lines of Leo's policy, although not likely to accentuate it. This voices the general feeling here, which is one of sat-

He did not follow the precedent created by Pope Leo, who declined give his cap to the master of ceremonies, but with a slight smile Sarto took the white cap, placed calmly on his head and dropped the red one lightly on the head of Monsignor Merry del Val, amidst a murmur of approval. This is taken as a certain indication that the happy recipient is soon to be raised to the cardinalate.

Career of Pepe Pius X. Giuseppe Sarto was born in Riesi, diocese of Treviso, on June 2nd, 1835, and was created cardinal by Leo XIII, at the consistory of June 12th, 1893, receiving the title of Saint Bernardo delle Terme. He is also patriarch of Venice since June, 1893, and Bishop of Mantua. He belongs to the ecclesiastical congregations of bishops and regulars, sacred rites, indulgences and sacred rel-

Cardinal Sarto enjoys great popularity in his diocese, and is honored by all for his purity, for the strict uprightness of his life, and for liberal ideas. He is a modest and agreeable man, highly cultivated, very kindhearted, still strong and robust in spite of his 68 years. He has never taken great part in the political and public life of the church, but divided his time between study and good works. Although most faithful to the Holy See, he was presented to the King and Queen of Italy in Venice. He may be considered among

the more liberal members of the Italian Episcopate and Sacred College. He is rather timid in expressing an opinion. It is said that Leo XIII. always thought very highly of him, and sided with him on one occasion when Sarto disapproved of Rampol-

SUMMER READING.

A View of the Subject That Much May Be Said in Faver Of.

English weeklies one and all lament over the decline of literary taste and pursuits in England, and a great deal of the depression in the book trade they ascribe to the rage for "bridge" within the house, and out-of-door pastimes. Now we are inclined to think that the rage for "speed" is at the root of the evil, says The Toronto News. It has destroyed the taste for books in several ways, and, first and foremost, by bringing the art of writing down to the level of "book making." The rate at which authors are expected to conceive, arrange, and develop their wares has resulted in an immense quantity of unwholesome food being put on the market. Literary indigestion is the outcome. The men and women who rush madly through the air in their motor cars, who fly time. Household are not run at concert pitch. The intellectual, rather than the intellagent, portion of the human mechanism is in the ascendant. Out of door lounging is conducive to reven ie, and the absorption of abstract ideas. "It is in the fight and battle of life we learn and grow, and dure ing the hours of rest and lassitude that we gain understanding, that makes the fullness of life."

A big library in a summer house's a mistake; one or two good books, & magazine or two, and the daily peper, will suffice. But a summer de void of books, even for those who are indefatigable readers during the rest of the year, is a mistake, for the very quality of intellectual power which comes with what Lampman calls the "full furnace of the hour" is one for which the most casual, as well as the most devout book-lover may be thankful, as all Canadians may be thankful for a climate which insists upon their enjoying sylvan as well as intellectual pleasures at the same period.
