HER CITIZENS IN FORMER DAYS, THEY CAME BACK TO THE OLD TOWN

The Old Boys of Victoria County were given a Hearty Welcome in Lindsay on Monday

They came into their own and their own received them. On Monday Lindsay was the host of a host—viz: the Victoria County Old Boys' Association of Toronto, whose members for the first time made an organized visit to the town. To the pride arising from the success and achievement of the men and women whom it and this county have given to the provincial capital, was on Monday added, for Lindsay, the gratification of looking into the faces of and grasping in handclasp, this splendid multitude. And these privileges the town embraced in no half-hearted way. Without undue effusiveness but with a heartiness and cordiality that are far more potent than effusiveness, were the visitors received. The town was in gay attire, but transcending all adornment of motto and bunting must have been for the homecomers the spontaneous and universal good-will and affection with which they were greeted.

The advance-guard of the invasion arrived on Saturday night, and Kent-st owed an unusual animation to the presence of and greetings accorded to quite a sprinkling of former citizens of the town. On Monday morning the regular and a double-header special train were heavily loaded with the homecomers. Mayor Sootheran and the aldermen were in carriages at the station, and rode in the procession which followed the Sylvester, band to the market park. There the mayor read the following address of welcome:

To the Old Boys of the county of Victoria.

I rejoice that it has fallen to my lot, during my occupancy of the position of mayor of the town of Lindsay, to have the pleasure of extending to you in my official capacity, a right, royal, hearty welcome back to your old town and your old county. Permit me to say that no other act of mine since occupying my position has afforded me as much pleasure as this present one. I can assure you that your old friends have watched with pride, the success that has come to the Old Boys of Victoria county in all walks of life and in almost every quarter of the globe. Where-

W. A. SHERWOOD, Victoria Old Boys.

ever you have gone you have done credit to your old county. In sport, in commerce, in agriculture, in the halls of learning and on the battle fields of the Empire, you have taken a prominent and an honorable position, and in your successes, we who have stayed within the borders of the county, have rejoiced.

You went from our midst and you have taken part in the world's progress in other places; we trust that on this your return, the many changes, the many improvements, the evidences of prosperity and growth, will impress you that we, who have stayed at home, have been doing our part to keep the old town and county in a foremost place among the towns and counties of our land. We believe that we are entering upon a period of still greater and more rapid development. We are sure that these signs of prosperity will be a source of great pleasure to you.

We are glad that in the midst of your successes, your thoughts kept ever turning back to your old homes and that when you made for your selves the opportunity of a return that you did in such numbers embrace that opportunity. It is unnecessary for me to say to you "make yourselves at home" or to extend to you the freedom of the town and county. These are yours. We trust that your visit will be exceedingly pleasant, that old associations will be recalled, old friendships renewed and may there be many new ones formed, and that when your visit comes to an end that you will return to your homes with a still greater affection and love for your old town and your old county.

J. H. SOOTHERAN, Mayor. The homecomers brought with them the 48th Highlanders' band of Toronto, and its music, together with the general interest in the occasion had drawn a large crowd to the spot and these gave the most careful and approving attention to the mayor's address and the reply which was read

by the president of the Old Boys' Association, Mr. W. A. Sherwood. The reply was as follows: To the mayor and Corporation of the town of Lindsay, and Citizens: Ladies and Gentlemen,—I am sure I cannot express to you the deep feelings of gratitude that move the members of the Victoria Old Boys' Association, on the splendid reception you have just given us. You have said this occasion is one of the happiest in your experience as mayor of the town of Lindsay—now, if you will permit me to say it, we regard this as the red letter day in the history of our Association. Separated though we may be, many indeed have not visited Lindsay for fully 20 years still the old fires are burning warmly in our breasts, and to-day we are once again with you.

ALBERT E. KNIGHT, Victoria Old Boys.

Toronto has been termed a city of organizations, and I feel sure that none here will doubt its claim to such recognition; yet of all its institutions of a purely national character the Old Boys' Association is most deserving of consideration. By these institutions we will be able to complete that golden chain of inter-provincial union which is so essential to the integrity of our national life. The day is not distant when we will have a closer communion between all the parts of the Dominion that is now enjoyed.

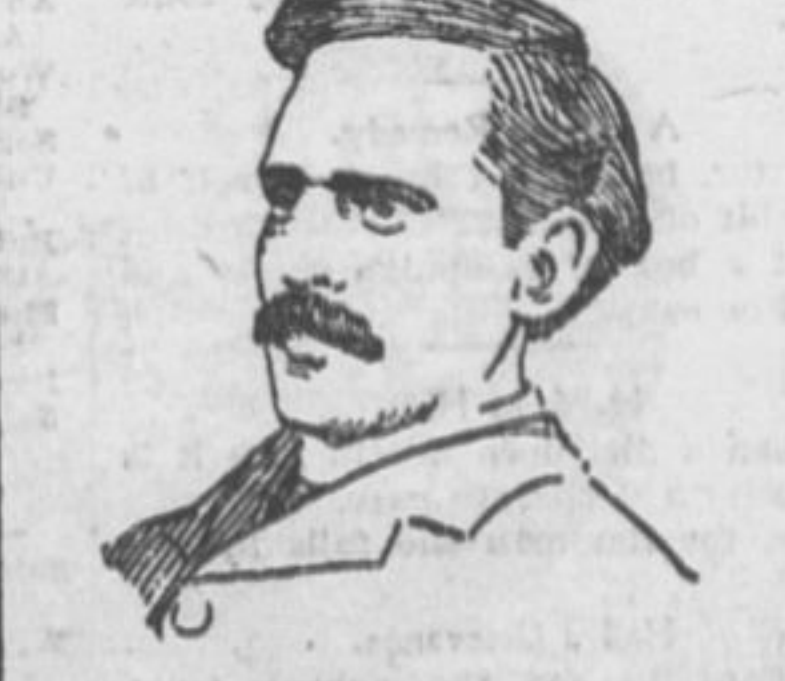

In conclusion let me now appeal to the young men and women I see before me to-day. To you who are native born, this appeal will come more direct, I appeal to you by the sacred memories of the pioneers of this county and sister counties—live that your lives will be as worthy of respect as the lives of those who sleep in yonder cemeteries. Now I thank you in conclusion for this splendid welcome.

AT THE GROUNDS.

More than 1,000 people entered the gates of the Agricultural grounds, in the afternoon. The first attraction was a baseball match between a team picked from the Old Boys, and one made up of Lindsay ex-players. The next event was a match between the local senior team, and the Irish Catholic Benevolent Union of Toronto. A lacrosse match between the locals and the Broadviews of Toronto was the final event.

The chief feature of the first match was "Jack" McAdams' foul that went through the crown of his christy. That feature is unequalled in the history of baseball. Five innings were played. The visitors did not score and the locals got seven.

But the homecomers got even in the senior match when the locals could not score, and the visitors got 3. The Lindsay men made two or three bad errors that accounted for

CHARLES B. HAND, Victoria Old Boys.

at least 2 of the 3 runs against them. But their opponents are a hard proposition who make the most of their own ability and their opponents' mistakes. Pitcher McLaughlin did capital work for the home team. "Doc" Walters umpired the match.

The lacrosse match did not hold the crowd. It did, however, develop some good playing, and a sufficient amount of slugging. Apart, though, from the heads of a couple of Lindsay men being laid open, the casualties were trifling. Both injured men were struck by the same Toronto man, once deliberately and once by accident. Lindsay won the match by 2 goals to 4. The team showed the effect of Coach Lynch's training. The generous supply of excellent

DEAD HORSE ON THE SHORE; AND FILTER BEDS TORN UP

Again People are Drinking Scogog Water that is Not Filtered but Only Strained

The discovery of another dead horse on the shore, and the fact that the filter-beds have only three inches of sand on them are the latest bits of important news from the waterworks circles. The horse was found well up toward the lake.

When the dismantled condition of the filter beds was made public by this paper some months ago, the commissioners quite feverishly, made as if they would have the scandal of "not filtering the water, merely straining it" removed. At the time it was only an offer. Nothing was done for some months. Then at last it was announced that the sand had been put back, but the first report made to the board is that it is all torn out again but three inches, and the superintendent says he cannot get sufficient water through any thicker layer.

The Board of Health discussed these facts at Tuesday night's meeting and ordered four samples of water sent to Toronto for analysis—one from the river, one from the filter basin and two from taps.

music furnished by the Highlanders' band, during the afternoon, was greatly appreciated. The band gave a promenade concert in the skating rink at night. It was well attended.

The following is a partial list of those who came down from Toronto on Saturday and Monday:

- Mr. and Mrs. B. Heaslip, Mrs. G. G. McMaster, Mrs. T. Horton, Mr. and Mrs. E. Bunting, Mrs. Reading, S. Miles, Mrs. Miles, Prof. and Mrs. W. J. Harris, Mr. and Mrs. J. H. REGINA'S ONE DAY'S TRADE EQUALS FOUR IN LINDSAY

A Northwest Man Differs from Mr. Gilles about that Country—Says Stay was too Short

Editor Watchman-Warder.

Dear Sir,—I would like to reply briefly to a letter read in your valuable paper, in which Mr. Gillis gives his opinion of the Northwest. I understand by it that he just visited Carievale Ass., for a month and he includes the Northwest in visiting it. Now I don't wish to say anything about Carievale, as I don't know anything about it, but what I wish to say is about the part of the country that I have lived in for almost eleven years; and that is eight miles west and two north of Regina, hence the North Regina district.

Mr. Gillis would not advise a man in Ontario to sell a good farm and go to the Northwest; neither would I; nor would I advise a man here with a good farm to sell and go to Ontario. I think Mr. Gillis' idea of the Northwest is vague. Probably if he had spent at least six months here in place of the short space of one month he would have returned with a different impression.

Our threshing here has never cost us seven cents per bushel. Four cents for oats and 6 cents for wheat is the highest I have known of for stook threshing. If we had to thresh the way they do in Ontario it would cost even more. I think if the farmers of Ontario reckoned their cost of threshing from the stook to the putting of the grain in the sacks, they would find it equally as high as we poor farmers in the West have to pay. It would be impossible for us here to get plenty of men to thresh with by changing works, as we have so much threshing to do. In Ontario when the farmer expects the men to thresh, he kills a lamb; here we kill a beef and eat it too.

These slays here are quite different from what Mr. Gillis thinks they are. In fact the slay water is all right for stock and is better than a lot of well water infested with some kind of decaying matter. In hay we gave most every kind. Bromé grass is the favorite; mine went 1 1/2 tons per acre. This has been a dry summer, too. I could name some farmers who have 640 acres seeded to Bromé.

I agree with Mr. Gillis as to the waste he refers to, in not having implement sheds and not hauling out the manure onto the fields, although several of our farmers draw direct from the stable to the field in the winter. A binder with us lasts several years longer than three or four years it cuts as much during that time as the average binder in Ontario does in ten years. My friend thinks there is no money in growing wheat in the West. Some people would want to make more inside of five years here than they could in a life time in Ontario.

The man I would advise to come to the Northwest is the man with lots of ambition and a good share of muscle. That kind of man can land here with ONLY A JACK-KNIFE IN HIS POCKET AND INSIDE OF TEN YEARS CAN HAVE A COMFORTABLE HOME WITH 320 acres to back him up. Now if he can do quarter that well in Ontario he must have struck some different part of it from what I am acquainted with.

Mr. Gillis states that the land of the Northwest is heavily mortgaged. I take exception to that statement. For every farm in Ontario that Mr. names without a black patch on it, I'll name him ten here free from any incumbrance. The merchants here do a good cash business and any credit they give the farmer, if they didn't think him good for it, to be sure he wouldn't get it. I have never seen them after the farmer yet. Those who are offering land for sale, if they don't sell I don't know as they will make much of a scramble to get out. Where would they go to? But my friend thinks they could go to Ontario, and raise three or four pigs and a couple of calves.

I visited Lindsay last winter, and I came to the conclusion that there was more business done in Regina, N.W.T., in one day than was in Lindsay in four days. There are five banks doing a thriving business in Regina. That alone speaks for the commercial business done there.

The J. J. Case, the Waterloo and the American Abell threshing Machine companies have each large warehouses in Regina. In farm implements the Massey-Harris, Deering, McCormick, Champion, and the Frost and Wood have each large warehouses. Regina is a distributing point for each of those implement and threshing machine companies. Improved farms here are selling for from \$20 to \$30 per acre—even school lands sold for a year ago from \$10 to \$30 per acre in North Regina district. Those who paid \$30 per acre for those lands were go speculators but farmers who had come here 22 years ago.

My last suggestion to the man who comes west with a view to settling is to stay longer than a month.

Thanking you, Mr. Editor, for the space this epistle has taken in your valuable paper, I am, yours truly,

E. L. WILLIAMSON.

"I'll git de law on dat woman, dat's what!" What's the matter, Aunt Caroline?" She done went and call me up by tel'phonin' when der's smallpox in her family."—Cincinnati Tribune.
