If We Understood

Could we but draw the curtains That surround each other's lives, See the naked heart and spirit, Know what spur the action gives, Often we should find it better, Purer than we judge we should We should love each other better, If we only understood.

Could we judge all deeds by motive See the good and bad within, Often we should love the sinner, All the while we loathe the sin; Could we know the powers working To o'erthrow integrity, We should judge each other's errors With more patient charity.

If we knew the cares and trials, Knew the efforts all in vain, Would the grim, eternal roughness Seem, I wonder, just the same?
