Return That Ear

"It has been known for some time, - the Oshawa Reformer, "that Mr Fowke (the Liberal candidate for Ontario) has the ear of Sir Wilfred."

The Watchman-Warder very respectfully requests "Mr. Fowke" to kindly return that "ear" to Sir Wilfred, Sir Wilfred needs that ear quite badly these days. Sir Wilfrd needs all his ears,-to hear the cry of the people. against the shameful graft and im morality at Ottawa. Sir Wilfre needs that ear as well that he may harken to the pleading call of Archie lie library was referred to, and Campbell et al for portfolios in the block letter style of sign will be se-

If the "nose" of Sir Wilfred happens to be lying around loose in the possession of any other Grit politi cian kindly see that it returns post haste to Ottawa forthwith. If Sir, Wilfred could get one good whiff the odorous rottenness around him in the party he might start housecleaning.

It is not suggested that any of Sir Wilfred's brains are scattered around among his henchmen. He needs them all himself. And he will need all his "senses" too before he gets through with the session and the approaching election.

The only "organs" that Sir Wilfred Laurier can get along without, and would be the better for giving away or losing, are such organs as La Sclei!, The Hamilton Times, The Oshawa Reformer and our very esteemed dealt with. contemporary.
