According to the Militia Department orders last week from Ottawa, the following changes are made in the 45th Regt. To be Captain, Lieut. M. A. Germain, in place of Capt. J. M. McCrea, transferred to the Reserve. To be provisionally Lieut. Sergt. Wm. J. Brown, (provisionary) Lieut. Sergt. Bruce Holmes Hopkins.

There seems to be somewhat of an epidemic in horse stealing going on in the county at present. On July 27th, Mr. Fred Mark, Oakwood, had a valuable bay mare stolen, and no sooner had Chief Vincent started the cards going for the description than he received word that another bay mare had been stolen from Frazerbrook and a third horse from Sutton.

There was a meeting in the Orange Hall at Omemee on Wednesday evening last in the interests of Protestantism. The meeting was well attended and was most interesting throughout. Past. County Minister Cottingham occupied the chair and excellent address were delivered by Col. Sam. Hughes, M.P.; George McCarty, Grand Organizer; Mr. William Warren, of Lindsay; and Rev. Mr. Tennie, of Omemee. Mr. Peter Wilson, of the W.W., Lindsay, pleased the audience with a number of well-rendered vocal selections that were thoroughly enjoyed.

The Grand Lodge of the Independent Order of Oddfellows is in session this week at Orillia and among the delegates on the official list are the following: Lindsay, W. Ashley, George Crawford and H. A. Middleton. Little Britain—J. J. Rich, Bobaygeon—J. H. Moore, Pemberton—A. J. Piper, Manilla—Lorne Ferguson, Peterboro—J. W. Miller, W. S. Robinson, Thomas Duncan, P. McCrecher, Wm. Hill, Pontypool—Ernest Beuron, Woodville—A. W. Perry, F. D. McGrattan. There are between 700 and 800 delegates present. Grant, Exbridge, J. G. Vicars, Port sent from all over the continent.

Not a covey Independent: Mr. McConnell, of Lindsay, appears to never tire of improving his Island. He has completed the formidable undertaking of making a timber tract work all along the shore line and filling in behind to a level with the timber. This will add to the shore and prevent any further inroad by the action of the water. Mr. McConnell has an acetylene gas plant and it is understood that he intends to erect lamps along the breast work so that the island will at night have an illuminated outline. This will have a splendid effect from the lake and also light the grounds, adding greatly to the cheerfulness of the surroundings.

This seems to be a good season for runs for the fire team, but with little to do fortunately for the brigade, when the scene of the fire is reached. On Sunday evening an alarm was rung in for McConnell's boat house. Mr. Chas. Sauer's yacht had caught on fire in the boathouse and the blaze would soon have gained headway had it not been discovered when it was. The yacht was noticed, however, and run out into the river. Everything was all right when the fire-fighters reached the scene. On Tuesday there were two runs for the team. The first run was at about 12.30 when fire was discovered on the shed roof of the building behind the L. H. & P. Co. Another run occurred in the afternoon to the rear of Mr. Chalmers' mill. In neither case was any damage done by fire. The wind was high and a conflagration would have meant the severest loss, so the prompt answers to the alarm were all right anyway.

Men's Suits... Coats are made with fitted backs—that is, the fitted effect is present, but they have that loose, stylish hang that most every man likes. Broad, good looking lapels that set sure and flat. The collar grips the neck band with a firm, always there hold—not the least sign of a "yawn." Straight or slightly rounded coat fronts—hand padded, which makes them keep their shape as long as the coats have life. Nice length Vests of a decided manish cut. Trousers are as shapely and good looking as the coats, which is high praise for them, indeed. Now isn't that the kind of a new-suit you have been looking for? We are showing them in some exceptionally nice, stylish tweeds and very durable and fashionable worsteds, handsome suits indeed and worth having a look at them to-day at SUTCLIFFE'S.

Price Savings... It isn't what you make counts most—it's what you save that swells the total achievements at the years end. It's your duty to save, and it's the duty of your store to help you save by offering dependable merchandise at lowest possible prices. But during August we do more than this—we are closing out all odd lines throughout the store and the price reductions are extreme indeed. Better just come each day and spend an hour or so in looking around—note the price tickets and you will see how great is our claim and how justly we are entitled to it when we say we sell "TRUSTWORTHY GOODS AT UNIFORMLY LOW PRICES" all the year round—yet we offer still greater reductions and savings for you to take advantage of during the next few days.

We close at 5 o'clock daily except Saturdays during August. J. Sutcliffe & Sons. Cash and One Price LINDSAY Also in Oshawa.

TELEGRAPHY OPENS THE WAY To a Successful Life. Several thousand Telegraph Operators will be required by the various Railway companies within the next six months. On AUGUST 1st, I will open a school in Lindsay, to be known as the National School of Telegraphy. Board here is reasonable, and all ordinary students should graduate here within six months. Write or see me for terms. The greatest and most successful managers of to-day have, with rare exception, risen from the ranks of the operators. Salaries of operators run from \$50 to \$80 per month, according to the importance of the position. Operators who are Agents, make from \$60 to \$100 per month, and are always eligible for promotion. Lady operators for commercial work are in great demand. Qualifications necessary are few but absolutely essential, viz: a common school education, strict sobriety, honesty, industry and carefulness. Sir William C. Van Horne, of C. P. R. fame, began his railway career as an operator; so did J. W. Leonard, C. W. Spencer, Geo. C. Jones, and scores of others, all now holding high positions. Address NATIONAL SCHOOL OF TELEGRAPHY, Lindsay, Ont. A. M. Paton, Principal.
