The Old Grammar School

Suggestions made that a big public gathering be held to commemorate good old school days.

"SCHOOL DAYS."

"School days, school days, dear old golden rule days, Readin' and writin' and 'rithmetic, Taught to the tune of the hickory stick; You were my queen in calico, I was your bashful, barefoot beau, And you wrote on my slate, 'I love you, Jo.' When we were a couple of kids."

The town of Lindsay, the shire town of the banner county in the Province, will in a short time be stripped of one of its oldest landmarks, a landmark that has been very closely identified with the progress of the town for many, many years, namely, the old Grammar school, which for years past has been known as the Union school.

As the citizens of Lindsay are well aware, the Union school is about to be torn down and will be replaced by a new and modern school; the dear old Grammar school, where so many of Lindsay's famed and talented residents and ex-residents first received their learning, the education that has made them what they are today, is to be torn asunder and scattered to the winds.

A Lindsay citizen has made an excellent suggestion to The Watchman, and one which will no doubt meet with the hearty approval and cooperation of the citizens in general. He suggests that a large public meeting be held in the old institu-

tion a few days before it is torn down; that all the present residents and ex-residents of the town, who received their early education in this school be invited to attend. In other words that a grand farewell gathering be held of the ex-students of the school, when a suitable program of addresses and music could be given. The old Grammar school, a landmark that was green with age when the majority of us were born, and which has been associated with our earliest remembrances of the town of Lindsay, would be a fitting place for the holding of such a gathering.

The old school has a history all its own, was erected when Lindsay was comparatively in its infancy, shortly after the early pioneers had hewn out the highways and their homes. Old school days can be recalled with hallowed memories; back to the old school days "bright with promise," is a long call, but a clear one. Generations of residents in Lindsay at the present time can well recollect their early school days spent underneath the roof of the present union school. The mere mention of the "Old Union School" brings to mind the pleasant memories of faith-

ful, kind-hearted teachers, yet a "man stern and severe," pedagogues who taught the three "r's" with patience and sincerity.

How well one can recollect So and So, who was a wag and who dared anything in the interests of fun. Just in front of him sat a girl whom we all disliked because she was too prim to join the pranks of the other girls and boys, and would never prompt us when we "didn't know the answer."

Similar little incidents will come to the minds of all and many old time acquaintances can be recalled by associating them with the early school days—"dear old golden rule days, readin' and writin' and 'rithmetic, taught to the tune of the hickory stick."

A gathering such as the one suggested by the Lindsay citizen referred to above, would not be amiss, in fact would be the proper thing, and it is to be hoped that some enterprising person will take hold and push matters in this line.

Let's Be 'Appy Club Entertainment

Omemece, Aug. 5.—A number of Omemece's popular young people, known as the "Let's-be-'Appy Club," were well entertained on Tuesday, the hosts being Messrs. Younger, Roulston, Shaw and Gow at Low's Landing. Although the heavy clouds threatened copious showers on Tuesday morning, yet the very brightening of the "Let's-be-'Appy Club" seemed to disperse nature's gloomy aspect, and old sol resolved to assist the genial hosts in their unique excursion.

At 10.30 a.m. a hay rack (well padded) called at the home of Mr. G. F. Parsons, where the party, 26 in number were gathered, and amid much jollity they drove merrily off for one more day's fun.

The nature of the entertainment brought Omemece one step nearer the suffragette movement. The fair sex were allowed their first opportunity of watching the strenuous efforts of the chef, waiters, errand boys, and men of all work cook the dinner and serve it in Delmonico style (?) 'neath the spreading branches of the graceful elms on the banks of the Pigeon rivier.

After all had eaten a generous portion of soufle chicken, "cooked on the grounds," and other dainties, a game of baseball was indulged in by way of a shakedown, and although the score was 20-7, yet the defeated men drowned their chagrin in ice cream and cake, again served "a la suffragette."

Then Mr. Younger photographed the party in various positions, and when the shadows were beginning to lengthen, the hay rack was again called into play and conveyed the merry hay packers to the home of the Misses Parsons, where a most enjoyable evening was spent in games, music, speeches, etc. The party dispersed about 12 p.m., all vowing it to be the most enjoyable outing in which they had ever partaken.

The C.P.R. has let contracts approximating a million and a quarter dollars for the construction of an annex to their Windsor-st. station in Montreal.

HAD HEART TROUBLE LIFE WAS A BURDEN

MILBURN'S HEART AND NERVE PILLS CURED HIM.

Mr. Alexander McKay, Fort Phillips, N. S., writes:—"Seeing testimonials in the B.B.B. Almanac of how many poor sufferers had been helped by Milburn's Heart and Nerve Pills, I thought mine would not be amiss. I am a man of fifty-four years, and have a family of five children. About two years ago I was a sufferer from heart trouble, and life was a burden to myself as well as others. I could not lie on my left side and sometimes I would nearly choke, and was very nervous and run down. My father, a very old man of eighty-five years, told me that he often heard people recommend Milburn's Heart and Nerve Pills to be a great cure so thought it would do no harm to give them a trial, but I had very little faith in them. My wife went to the store and got me two boxes, and before I had used the last of the first box I noticed a change, and before the second box was done I was cured and am a well man to-day."

Price 50 cents per box, or 3 boxes for \$1.35 at all dealers, or mailed direct by The T. Milburn Co., Limited, Toronto, Ont.

Crops In Victoria County

Crop conditions in various sections of Victoria county are reported to be well advanced and on the whole the harvest promises to be a bountiful one. Following are a few reports from Watchman correspondents:

TURNING OUT WELL.

Cameron Point, Aug. 1.—The crops are turning out well in this district, most of the farmers having already drawn in all their hay and fall wheat. The year now busy with crops of barley, oats, etc.

CROPS ARE FAIR.

Bury's Green, Aug. 1.—Picking berries is the order of the day and the delicious fruit is not so plentiful as in former years, owing to the past dry weather. Harvesting commenced last week and the farmers round about are rejoicing that the present rains just came in time to help the grain to head out, and under the present conditions the crops are fair.

TURNIPS NOT PROMISING.

Cameron, Aug. 1.—The recent showers have done much towards improving the condition of potatoes and other root crops, still turnips do not look very promising even yet.

SPRING CROPS MEDIUM.

Cambray, July 31.—Haying is now practically done in this locality, and farmers are now busy with fall wheat and early harvest and the

threshing of alsike. Alsike is poor, both in quantity and quality. Fall wheat is said to be excellent but the barley in general and most of the spring crops are but medium, being in most cases short in straw and thin upon the ground.

BENEFICIAL SHOWERS.

Mamilla, Aug. 1.—The beautiful refreshing showers of late have proved very beneficial to the root crops and the late grain in this section of the county.

CUTTING GRAIN.

Pleasant Point, Aug. 1.—The farmers are through haying and nearly everyone has cut some grain.

HELPING THE PASTURES.

Balsam Grove, Aug. 1.—The heavy rains have been somewhat of a drawback to harvesting, but are doing the pastures much good. Some of the farmers expect to do their harvesting this week.

HOUSING THE HAY.

Haliburton, Aug. 3.—Our village is comparatively quiet just now. The farmers are staying at home and are all busy saving the hay crop, which they seem to have an abundance of. Other crops are also looking fine.

SEVEN HOGS KILLED.

A report reached town this morning to the effect that in the electrical storm Thursday morning seven hogs were killed near Norwood.

This Miss Had a Poor Eye

A young man who sells shoes for a living in Lindsay, went out driving with two lady school teachers in Ennismore last week.

Everything was sailing along very smoothly until one of the ladies started to handle the reins and show her skill in manipulating the leather ribbons.

She endeavored to turn the spirited nag into a laneway leading to a farmhouse, and instead drove into one of the gateposts, with the consequence that one wheel was almost wrenched off, and the whole party sailed on—but on to the road. Repairs were soon made, and the pleasant drive resumed.—Peterboro Review.
