

Haliburton

A Beauty Spot in the Ontario Highlands, where waters flow in opposite directions.

Haliburton, known as one of the beauty spots in Ontario, is the highest part of the highland, where the waters flow in opposite directions. There is no part in Ontario, and probably no part of country in the world so healthful and invigorating as the highlands of Haliburton.

The climate is exceptionally pleasant, a navigable chain of waters runs from the immediate midst of Haliburton to within about two miles of Minden, a distance of eighteen miles, and the entire route cannot be surpassed for picturesqueness and good fishing. To the east and to the north are large chains of lakes abounding with fish of various kinds and these are equally as picturesque as the chain to Minden. Deer are also very plentiful, hunters almost always getting their full number in season. Numerous facts could be given if space would permit, but to get really acquainted with the many scenes of beauty and in order to ascertain the future possibilities of this section of our northern highlands one should make a personal visit.

The lake shores are motionless, but they give out the heartiest invitation to tenters, cottage builders and pleasure seekers. Already accommodation is given for quite a number of these, but much more is needed. There is a lack of accommodation for the tourist. Recently a number of visitors from Niagara Falls brought their tents with them and a number of citizens of Haliburton took their tents to the lake shore and camped out.

Popular Bay house at Allsaw about five miles down the lakes from Haliburton village will accommodate as far as rooms are concerned about fifty guests and besides the residents along the shores of the lakes take boarders during the summer months. It is understood that several new cottages will be erected next spring, thus assuring accommodation for a good number of tourists.

A resident of Haliburton in talking to The Watchman said: "We have a beautiful, invigorating climate, a beautiful scenic village and equally picturesque surroundings, plenty of fish and game and what we really want is better railway accommodation," and that is a fact. As it is at present visitors do not

visit the pretty village as they would if there was better railway accommodation. Many times they have to waste the greater part of their day's outing in reaching the village by rail. Another citizen of the northern village termed the train; the "slow train in Arkin-saw." However, better service is looked for before next summer. There is no question but that the people of Haliburton will get better service in time, but there is no time like the present and they want the better service to commence next summer. This will assure a big tourist traffic.

Already the Grand Trunk railway people are preparing their advertising pamphlets for next summer and there is no reason why they should not put on the better train service from Lindsay to Haliburton, advertise the same, and also advertise the many advantages lying around promiscuously for the summer tourist, the beautiful scenery, the abundance of game and fish, etc.

Still another party has written to The Watchman on the same subject, and a few extracts from the letter are quoted:

Judging from circumstantial evidence the visitors will come, but if they do not know that such a place as Haliburton exists it is not reasonable to expect them to come. If our town council would wake up to realize the opportunities awaiting us at our door and advertise with the boards of trade and other institutions in different localities, and make the town more attractive by building one or two more steel and cement bridges like the one at the west end, improve the wharves, etc., and encourage industries to come, such as factories they would be doing something worth while.

The quickest and probably the most effective way to advertise these highlands as a summer resort together with the foregoing conditions would be for every person living in the town and country when writing to friends to use local picture post cards or a book of Haliburton views which shows eighteen of the best scenes, with a good description of Haliburton on the first page. It may seem too expensive to use the book of views extensively, but the picture post cards are very cheap and very attractive.

Ladies' New 1910 Fall Suits Just Arrived

Having purchased a very special line at a price that will save you money, made of very fine quality of serge, cut in the very latest style, two colors only, navy and black, with 36 inch coat, semi-fitted and pleated skirt, all sizes for

Butter and Eggs Have Advanced

Harvest is in full swing and as a result the market was only fairly well attended on Saturday. The price of eggs and butter has increased slightly, while the other prices remain practically unchanged.

- Following are the corrected prices:
- Flour, best Manitoba, retail \$3.35.
 - Flour, best Manitoba, retail \$3.10.
 - Rolls oats, retail, \$2.70.
 - Shorts, retail, \$1.20.
 - Bran, per cwt., \$1.10.
 - Flax wheat, 97c. bush.
 - Large Peas, 70c per bus.
 - Small peas 65c bus.
 - Spring wheat, 90c. bush.
 - Goose wheat, 90c bush.
 - Buckwheat, 40c per bus.
 - Barley 45c per bus.
 - Oats 35c per bus.
 - Rye, 80c. per bus.
 - Eggs, per doz., 20c.
 - Butter, 23 to 24c.
 - Creamery butter, 23c lb.
 - Potatoes, \$1 bag.
 - Peas 10c bunch.
 - Lettuce 5c bunch.
 - Onions 5c bunch.
 - Parsley 5 cents bunch.
 - Sage 5c per bunch.
 - Honey 10c per lb.
 - Live hogs, \$8.60 cwt.
 - Little hogs, per pair, \$6.
 - Veal 6 to 15c per lb.
 - Lamb 12c and 13c lb.
 - Beef, 8c to 12c lb.
 - Pork, 14c per lb.
 - Rib Roast 12c.
 - Sturgeon steak, 18c.
 - Spare ribs, 8 lbs. for 25c.
 - Beef cattle, \$5 to \$6.75 per cwt.
 - Pea straw, \$1.50 per load.
 - Straw \$5 load.
 - Cream per quart 80c.
 - Lard per pound 19c.
 - Chickens \$1 pair.
 - Hens, 18c. pound.
 - Ducks \$1 pair.
 - Turkeys, 18c lb.
 - Geese, 20c. pound.
 - Hides, \$9 to \$9.50.
 - Head cheese 10c per lb.
 - Asparagus, 5c bunch.
 - Tomatoes 15c pound.
 - New hay, per ton, \$10 to \$12.
 - Turnips 5c bush.
 - Carrots 5c bunch.
 - Beets 5c bunch.
 - Cheese 15c. pound.
 - Peaches 40c. doz.
 - Plums 10c. doz.

DROWNED IN SIMCOE.
Toronto, Aug. 20.—Word was received in the city last night that Ivan Clark, son of Mr. Frederick Clark, 635 Huron-st., and James Grange, son of Dr. E. A. A. Grange, 644 Huron-st., were drowned at Jackson's Point.

Young Grange had gone up to spend the day with his comrade, Clark, who was holidaying at Sunnyside, near the Point. In the early afternoon they went out in a canoe and all went well till nearly 6 o'clock, when a squall struck the water near them and trouble began. The canoe upset at a point about 200 yards from the shore. The young men seemed to go down together as if they had clasped each other.

BROKE THE RECORD.
At the Cobourg Horse Show yesterday the spectators were treated to a number of extra strong attractions. The various events were pulled off without a hitch. In the high jumping event, Confidence, owned by Hon. Clifford Sifton, of Ottawa, broke the Canadian record by jumping seven feet, four and a half inches. The former record was seven feet, four inches, and was held by Hercules, owned by Commodore Jarvis, of Toronto. At the event yesterday Hercules, Ironside and the Wasp jumped seven feet, two inches. Miss Wilmont, of Belleville, on a pony, Bathgate Swell, jumped six feet.

SURVEYING NEW LOTS.
Pleasant Point, Aug. 20.—Mr. Riggis, of Toronto, arrived last night to spend Sunday with his family here. Mr. and Mrs. W. R. Keys and family who have been spending a few weeks here under canvas, returned to their home in Lindsay. Mr. R. L. Morgan, of Lindsay, and Mr. Laymer made a business trip in Mr. Morgan's launch to Fenelon Falls the other day. Mr. John Hay is busy surveying new lots for the cottagers. The demand for lots is ever becoming bigger on account of the convenience to town by land and water. Mr. and Mrs. Howard Hopwood, Miss Cox, Miss Mimms, Miss Bonnie, Dr. Mimms, Mr. Hall, Mr. Waddington and Mr. Bert Mimms, of Chemung Park, have been visiting Mr. and Mrs. Matt. Sisson at "Idle Times" cottage. They came in the fast launch "Black Arrow," and report having an excellent time during their visit here. Mr. Cliff arrived here in his auto last evening and took the family home in the car to-day. Mrs. Robert Chambers was the guest of Mrs. Carter yesterday. Miss Ford and Miss Marshall are camping here for a few days.

Children Cry FOR FLETCHER'S CASTORIA

THE CHICKEN MITE.

(By A. A. Knight, Dept. of Agriculture.)

The chicken mite has an average length of one twenty-fifth of an inch. It has eight legs and is very active and swift in its movements. Its color is a light grey, with small dark spots showing through its skin. As a rule it is not found on the fowls during the day, but hides in cracks and crevices about the roosts and other parts of the building, in litter, or anything affording shelter. At night it comes out to feed. The first step towards ridding the poultry house of this pest is to give the house a thorough cleaning out. Litter of all kinds must be removed and disposed of in some way that will not be likely to reinfest the place. This must be followed by a thorough spraying of every part of the house, including nests and any boxes and barrels that may be present. For this work any of the following sprays applied with an ordinary spray-pump, may be used:

1. Crude Carbolic Acid 1 quart. Water 5 gallons.
2. Ordinary kerosene (coal-oil) is a splendid thing to apply to the roosts, where mites will be found to be most numerous.
3. Kerosene Emulsion. Kerosene 2 gallons. Hard Soap 1 pound. Rain water 1 gallon. Bring the water to a boil and dissolve the soap in it, then turn in the kerosene, stirring vigorously until the whole is of a thick creamy nature. Dilute one gallon of this mixture with nine gallons of rain water and the spray is ready. This can be used as a spray, dip or wash. The spray should be applied with considerable force, so that it will penetrate all cracks and crevices. Where a sprayer is not available any of the above materials may be applied with a whitewash brush, but the work will not be as effective as where a sprayer is used. Mites may be cleared out of the poultry house by fumigating with sulphur, using about five pounds for every thousand cubic feet of space. To lessen danger from fire the vessel containing the sulphur should be placed into a larger vessel containing water. After thoroughly moistening the floor with water, pour a little kerosene over the sulphur and apply a match to it. Leave about twelve hours and then open doors and windows to air the building. This plan is effective only where the building can be made air tight. All cracks around doors, windows, etc., must be stopped up to prevent the escape of the gas. It must not be supposed that one application of any of the above remedies will be sufficient in all cases. In all likelihood there will be some eggs that were not killed, and unless a second application is made when these hatch out, the pest will very soon be as bad as ever. Constant watchfulness is the price of success. Twice during the year give the house a good coat of whitewash, using fresh lime into which a handful of salt has been added. The salt makes it stick better.

PURE BLACK FOX.
Some time ago Mr. Solon Ford, of Fortescue, saw a pure black fox go into its den. Here he was able to capture it alive with five young ones, one of which is spotted and the others red. He has carefully kept them and they are well grown. They are a valuable and very pretty family, well worth the trouble he has taken to keep them. Mr. Robert Hughes, of the same neighborhood, has ten young foxes, all red, which he is keeping alive.

YOU PAY WHEN CURED

NO NAMES OR PHOTOS USED WITHOUT WRITTEN CONSENT

NERVOUS DEBILITY

Thousands of young and middle-aged men are annually swept to a premature grave through Early Indications, Excesses and Blood Diseases. If you have any of the following symptoms consult us before it is too late. Are you nervous and weak, despondent and gloomy, speckle before the eyes, with dark circles under them, weak back, kidneys irritable, palpitation of the heart, painful dreams and losses, sediment in urine, pimples on the face, eyes sunken, hollow cheeks, careworn expression, poor memory, listless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, weak manhood, premature decay, bone pains, hair loose, sore throat, etc.

YOU WILL BE A WRECK

Our New Method Treatment can cure you and make a man of you. Under its influence the brain becomes active, the blood purified, so that all pimples, blotches and ulcers disappear, the nerves become strong as steel, so that nervousness, bashfulness and despondency vanish, the eyes become bright, the face full and clear, energy returns to the body and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. Don't let quacks and fakirs rob you of your hard earned dollars. We will cure you or no pay.

DRS. KENNEDY & KENNEDY

Cor. Michigan Ave. and Griswold St., Detroit, Mich.

NOTICE All letters from Canada must be addressed to our Canadian Correspondence Department in Windsor, Ont. If you desire to see us personally call at our Medical Institute in Detroit as we see and treat no patients in our Windsor offices which are for Correspondence and Laboratory for Canadian business only. Address all letters as follows: **DRS. KENNEDY & KENNEDY, Windsor, Ont.**

Write for our private address.

SHE KNEW ENOUGH.
Recently a most fastidious young man in a certain town bought a pair of overalls and found in them the name of the sewing girl, who had made them. He very promptly wrote her a letter with all the effusiveness necessary in such a case, and in due time he received a reply which, however, was void of the romance usual in such cases. Here it is: "I am a working girl, it is true, but I make a good living and I do not care to support a husband, as I would prob-

ably have to do, if I married some silly noodle, who gets mashed on a girl he never saw. Permit me to further say, that I do not know how my card got in the pair of overalls, and that when I do marry, if ever, it will be some fellow who can afford something better than a forty-seven cent pair of breeches."

The Doukhobor village of Veregin, Man., yesterday completed purchases of fall and winter supplies totaling \$300,000.

WILL ADVERTISE THE L.C.I.
It has been decided by the Lindsay board of education to advertise the advantages of the Collegiate Institute as an approved school of the first rank. The staff is an excellent one and the record of the last year is one that has few equals, if any, in the Province.
