Taft Says Reciprocity Will Give His People Complete Possession of Our Markets

Regarding the flour milling industry the President says: 'If, now, the duty is to be taken off wheat and the Canadian wheat can come to the millers of Minneapolis and other places, it can and will be made into flour, because the capacity of the American mills is 33 per cent. greater than is needed to mill the wheat of this country. Canadian wheat can be imported and ground into flour without materially reducing the demand for or price of American wheat, and the surplus will be sent abroad as flour. The price of Canadian wheat will doubtless be increased by a few cents by access to the market nearer at hand but the access to the market nearer at hand will be the by-product of bran and to the American farmer. A very Canada to those mills. These by-products are now so scarce that many farmers are unable to procure them.'

The President notes that the cost of living is not higher in the United States than in Canada. If this is so how is the Canadian producer of general farm products to benefit by access to the American market? Further on the Chief Executive of the Washington Government frankly admits that 'one of the great objects of the present treaty is the conservation of our natural resources. It is perfectly evident from the statistics that our general lumber supply of spruce wood for paper-making are being rapidly 'exhausted.' Further on he says: 'The Provinces of Canada have control over the Crown lands, in which nine-tenths of the pulp-wood is grown and they have imposed restrictions and export duties of various kinds upon the pulp-wood in the export of the wood except in the form of paper. In order to induce

the Canadian Provinces, over whom the Dominion can exercise no control, to lift the restrictions upon the exportation of their pulp wood, it is provided in the agreement that when paper is made in Canada, from wood grown on land not under export restrictions, the paper may come into the United States free; and it is hoped that the difference of \$5.77 between the duty on paper from restricted wood and no duty on paper made from unrestricted wood will induce the Provinces to lift their restrictions.' In meeting Washington's views in this connection the Laurier Government has thrown the policy of conservation to the winds and entered into a bargain with Congress to cede Ontario, Quebec, New Brunswick and British Columbia into abandonment their policy of encouraging manufacturing here at home for the benefit of Canadian workmen. Canadian

Italian Instantly Killed on C. P. R. at Pottery Corners

An accident occurred Friday morning at Pottery Corners, where an Italian named Joseph Fracasse was struck by the regular C.P.R. passenger train, which arrives here at 11.30 from Burketon Junction, and instantly killed. Fracasse had been working for Stewart & Perry at the construction work at Baker's mill, but had finished there and it is thought that he was driving to the work out near Peterboro, accompanied by another Italian named Nichols Reusata. They had reached Pottery Corners and had started to cross when the driver tried to turn off the track instead of crossing and the horse balked, refusing to move. Seeing that they would be struck Reusata jumped and escaped injury, but Fracasse was instantly killed, being hit over the

temple, besides having his breast badly injured. The buggy was smashed into match wood, while the horse escaped and ran up the road. The emergency brakes were immediately put on and the train, which was in charge of Conductor A. McNeillie, and Engineer Barr, stopped, but the injured man was dead when picked up. He was taken in the baggage car to the station here, where Dr. Brown and the coroner, Dr. Blanchard, were summoned and found him injured as above. The coroner investigated the accident and an inquest was held on Friday afternoon but adjourned for a week. Crisco Fracasse, brother of the deceased, arrived at the station shortly after the accident and identified the body. The full details of the accident will be likely heard at the inquest.

ORILLIA MAN MURDERED

Young Man Murders Chum And Escapes

Orillia, Aug. 10. — A cold blooded murder was perpetrated in South Orillia about three miles from town shortly before midnight last night when a young man named Arthur Sheridan stabbed a companion named Ross Ford to death. The murder occurred during a party at George Duff's. Ford had just arrived at the party about 11.30 when Sheridan went to meet him. The two walked down the road, West-st., four or five rods. Sheridan returned to the party in a few minutes and told those outside the house to send for a doctor as he was afraid he had 'done for' Ford.

BODY IN A DITCH. Some of those present went down the road and found him lying face down in the ditch by the road side. He had a gaping wound just below his throat where he had been stabbed with a knife, and only gasped once, or twice before he expired. Sheridan remained talking for a few moments and then went off.

No effort was made to apprehend him. He gave no reason for the deed which was evidently premeditated, nor is any known, except that the two had a quarrel at a party at Connor's a few nights before. They had been companions and had been keeping company with sisters and it is supposed that the quarrel had something to do with one of the girls. Both young men were about 22 years of age.

The murdered youth was a son of John Ford, the wholesale cattle buyer and butcher on the fourth concession. The large crowd of excursionists spent a very enjoyable time, being treated with great courtesy by the citizens of Midland.

MURDERER ESCAPED. They spent the greater part of the night searching for the murderers but woods are being scoured by a number without success. This morning the men got track of him in the big swamp stretching between the fifth and seventh concessions containing fifty acres of land owned by his family, but so far he has not been caught or seen. Sheridan worked for the neighboring farmers.

It is not thought possible that he can escape. The murder has stirred up the whole community and is the sole topic of discussion this morning.

The often neglected youngsters will have to be supplied with plenty of shade during hot weather. Turkey hens with poult do not thrive in closed board houses. They will do far better if you knock out the side boards and replace them with netting.

Flour Goes Up Eleven Cents

Winnipeg, Man., Aug. 10.—All prominent milling companies have raised the price of flour 10 cents per sack of 100 pounds, and 20 cents a barrel of 195 pounds. The new price went into effect yesterday at noon, but all of yesterday's billings were made at the old rate. The increase is due to the rise in the price of wheat, October option being particularly responsible.

SHAMROCKS WON FROM MIDLAND

The Shamrock baseball team were in Midland yesterday on the G.T.R. excursion and met the fast Midland team on the oval in the afternoon, winning a slugging contest by the score of 16 to 11. Up to the last innings the Midland team were completely outclassed, being unable to solve 'Tubby' Williamson's slants and when they did hit, his support was gilt edged. In the last innings the score was 16 to 5 when Midland went to bat but in this period the northern boys counted six runs on a couple of hits and several errors by the Lindsay infield. 'Bill' Langdon pitched the last innings. 'Tubby' Williamson pitched one of the best games in his career besides getting five hits in as many times at bat. The Midland pitchers were easy for the local boys and were hammered to all corners of the lot. Downes lasted only one inning, while Carpenter finished the game. A large crowd was present and the Lindsay boys were used 'white.' The teams: Lindsay—Day, Williamson, Langdon, Workman, Cain, J. Spratt, P. Spratt, Dennison, Scott, Preston. Midland—Scarlet, Henley, Duncan, Foster, Yerex, Haggerty, Argue, Deshau, Carpenter, Dowse.

The large crowd of excursionists spent a very enjoyable time, being treated with great courtesy by the citizens of Midland.

PLEASANT POINT. Pleasant Point, Aug. 14. — Mr. and Mrs. William Warren, of Lindsay spent the holiday at the Hugheson cottage.

Mr. Norman Cliffe landed four nice lunge and one bass on Monday. Mr. Morgan caught four fine lunge on Monday but lost a fine silver bait and line.

A number of Pleasant Pointers went to the dance given by the Warners at Sturgeon Point. A delightful evening was spent by all present.

MANILLA. Manilla, Aug. 14. — Rev. A. McFadyen, with his wife and child, of Montreal, are the holiday visitors of Mr. Charles Keeler for a few days. Miss McKenna, of Hallowbury, is visiting friends in town. Miss Graham, of Hamilton, visited Mr. and Mrs. Neil McDonald last

Does United States Own Canada

SIGNIFICANT LANGUAGE HELD BY THE NEWSPAPERS. Already the American press talks as if it owned this country. The Detroit Free Press, one of the leading papers of the United States, presupposes war between Britain and another power and proceeds: 'Washington must insist that England must expect no assistance from Canada; and in compensation for Canada's absolute neutrality. Germany must make no attack upon Canada or her ocean trade. If Canada took part in the war, Germany would attack her, or at least threaten attack. In either case we would have to send our troops into the country and our fleet into the waters of Canada. When would they come back? Curious reading this for self-respecting Canadians? The Montreal Star naturally asks: 'But if we are to be protected by the American navy, how long will it be before the practical business men of the United States will ask that we be invited to contribute to the upkeep of the navy which protects us? And if we contribute will not that be taxation without representation? And if we are to be taxed for the benefit of the American treasury and if our tariffs are to be made at Washington, how long will the farce of a separate name and a separate flag last?'

OBITUARY

MRS. THOS. RICHARDSON. The citizens of Lindsay and surrounding community were shocked to hear of the death of Mrs. Thomas Richardson, who passed quietly away at her residence on Cambridge-st. on Sunday, at the age of eighty-three years. Deceased was stricken with a paralytic stroke last Wednesday from which she never recovered. Mrs. Richardson had lived most of her life in Cavan, coming to Lindsay some seven years ago on the death of her husband. She was a Methodist by religion, and was always a strong church worker, having been a member of that church for over sixty years. Her kindness and tact won her a large number of friends who will sympathize with the sorrowing friends. She leaves to mourn her loss four children, Misses Ada and Ethel, of town; John, of Oshawa, and William of Merrittown. The funeral took place this morning at 9.30, the body being taken to Gardner's Cemetery, Cavan, for interment. The two sons, John and William, Howard Richardson and S. Staples were the pall bearers.

DR. McCAMUS. Another well known and respected citizen of Lindsay, Dr. McCamus, passed quietly away on Sunday at his home on Wellington-st. Dr. McCamus was born in Cavan, and after he had taken his degree practised in Bobcaygeon for some thirty-five years, also running a drug store in that place. The doctor had not been feeling well for some time, but was able to get around until last Wednesday when he became very ill with heart disease and passed quietly away on Sunday at the age of 73 years. He leaves to mourn his loss a loving wife and one son William in the Philippines.

The funeral will take place on Wednesday, service being held at the family residence at 10.30, from where the body will be taken to Bobcaygeon on the morning train.

Mr. and Mrs. Richard Pearce and child, also Mr. Frank Pearce, of Toronto, are the guests at the parental home.

Mr. and Mrs. Wm. Barry attended the excursion to Niagara Falls. Mr. and Mrs. Campbell and their two children, of Toronto, were so entertained for a few days last week the guests of Dr. and Mrs. McPhail. Mr. and Mrs. John Kerr leave Manilla Aug. 16 for Manitoba to visit their son Albert. Their many friends wish them a pleasant journey and a safe return. Misses A. McQueen, of Toronto, and Mayme McQueen, New York, are holidaying with their mother.

Western Wheat Yield to Exceed 200,000,000 bu.

The chief concern of the banking circles of the Dominion, and in fact of the whole country at large, centre just now around the crop prospects, since it is largely by that factor that the commercial conditions are regulated. Reports from the Canadian West up to last week were of the most encouraging nature, and it is only during the last few days that anything like a crop scare has been in effect. Now there is talk of black dust in the wheat, and particularly so in Southern Manitoba and Saskatchewan Provinces, in the vicinity of the international border line. The Chicago grain exchange has gone through the throes of a scare of this nature, and reports from the so-called crop experts sent out by the grain houses of Wall-st. have been the factors on which the damage has been based.

William Whyte. Says Helley Shaw, director of the Maple Leaf Milling Co., who has special correspondence from the West: 'LITTLE RUST DAMAGE. "We are going to have a bumper crop of wheat in the West this year, far and above any previous yield. From my reports I estimate it at between 217,000,000 and 235,000,000 bushel. Tall of rust damage has been heard, but it does not seem to be of any material import, and is confined entirely to the border districts. The wheat has become lodged on account of the recent wet weather, and offers a good chance for rust to work havoc, but it does not seem to be lost sight of that the crop is rapidly nearing harvest, and is, I believe too far advanced for much damage to be done. There is an enormous new territory farther north, which has to be reckoned from this year, and the yield there will be excellent. On the whole conditions were never so promising and indicate a great prosperity for Canada, such as in fact it has possibly never known before.'

The time has passed when the action of the grain exchanges could be taken as an absolute criterion of crop prospects, however, and local grain men and bankers are not disposed to view the movement of the prices as of anything more than passing importance, relying altogether on the statement of their own men in the field, and on the opinion of the farming community at large. Some rust damage has been conceded in Southern Manitoba, but despite this fact, no apprehension is felt by local authorities on the crop situation. It is pointed out that the wheat has advanced to a stage where there is not likely to be any material damage occasioned by the pest, and that, with fair weather from now on to harvest a new record for production should be established.

OVER TWO HUNDRED MILLION BUSHELS. It is a Toronto representative made a tour of the grain houses in the board of trade building, and was surprised to note the extent of the feeling of optimism regarding the crop outlook in the West. The consensus of opinion is that the crop will even surpass the big estimates made by such authorities as Sir William Whyte, of the C. F. R., who stated that the yield should approximate nearly 200,000,000 bushels. Estimates far and above this were the rule rather than the exception among the grain men, and an average struck from some round down estimates ran into 217,000,000 bushels.

When it is remembered that the wheat in the Canadian West was only 117,000,000 bushels last year, the significance of this will be readily apparent. Indeed, at the time of harvest the Canadian crop was set at 130,000,000 bushels, and it is only now that the supplies lodged with the farmers, who hold on for higher prices, is coming out, that this figure has been revised.

GRAIN MEN ARE ALMOST UNANIMOUS in the opinion that the crop this year will far exceed the estimate of Sir

TRIP TO THE WEST. Mr. William Rich, the popular Mariposa live stock dealer, is leaving for a trip through the Canadian West and expects to be away for a month or six weeks. During his absence he has made arrangements whereby his brother Mr. Chas. Rich will look after his droving business and his friends may continue to bring their live stock to Mariposa Station every Wednesday as usual, when shipment will be made and highest prices paid. Mr. Rich is well entitled to this vacation, and his many friends wish him a pleasant trip.

Matthews Co. In Full In

Montreal, Aug. 15.—That important packing merger in place, the firms concerned being Laing Packing and Provision Montreal, the George Matthews of Hull, and the Blackwell of Toronto, and that this arrangement will go into effect on August 20, seems to be every probability. A number of local packing and provision firms when consulted this morning stated that they were of such an amalgamation be summed, but admitted that extremely probable as the first had been always been. Officials of Matthews Limited, subsidiary concern of the company, state that an arrangement between the Matthews and Blackwell companies had been talked of some time ago, more recently rumor including Laing Company, has been presumably in opposition firm had, however, no official information from their head office and could say whether or not there was truth in the rumor.

PLEASANT POINT. Pleasant Point, Aug. 14. Ruth McCulloch, of Toronto has been visiting at Miss Carter's, left for her home city after a week's pleasant stay. Mr. Jack Wilfred, of Lindsay spending a few days at Carter's, the guest of Master Carter.
