TORONTO POLICE LANDED ROBBER

Toronto, Aug. 12.—After a search lasting more than a month for the man who during that period has been passing bills that were stolen in the New Westminster robbery of the Bank of Montreal, the Toronto detective force had their efforts rewarded by his capture Saturday night.

This man, known by the name of Walter Davis, is believed to be one of the gang who perpetrated the daring daylight bank robbery in New Westminster in September last, when the Bank of Montreal lost three hundred and fifty thousand dollars.

The arrest occurred on Saturday night in the rotunda of the Palmer House. A visit to the hotel later in the evening resulted in the arrest there of a woman going under the name of Alice Davis, who claims to be the prisoner's wife.

Stolen Bank of Montreal bills to the extent of \$2025 were found in possession of the two prisoners. In addition, bank bills other than those of the Bank of Montreal, but believed to have been obtained in exchange for some part of the stolen money, brought the total amount found in the possession of the two up to \$9225.

About a month ago the Toronto detective department learned that a number of the Bank of Montreal bills that had been taken in the New Westminster robbery were being circulated in Toronto. Detective Tipton was detailed to the case, and he obtained from the head office of the bank at Montreal a list of the numbers and series of the lost notes.

These lists were distributed among a number of the Toronto hotels, tobaccoists, druggists and other places where much money is handled daily, and where an attempt might be made to pass some of the stolen bills.

Last Wednesday a woman answering the description of the one arrested with Walsh entered the Wm. Goldstein & Co.'s store, 82 Yonge-st., and buying an article passed one of the missing bills. The proprietors at once informed the detective office. Detective Tipton lost no time in going down to the store, but the woman had left immediately after making the purchase. He, however, obtained a good description of her.

On Saturday afternoon, a man, afterwards identified as Walsh, went into the Goldstein store and purchasing a cane tendered in payment another of the stolen bills. The clerks, since the other note had been passed on them, were on the alert and spotted the bill at once. The detective office was immediately telephoned and one of the clerks went out of the store after the man and followed him, but the man wanted, evidently becoming aware that he was being followed, managed to elude the clerk following him and had disappeared.

When this was learned the whole Toronto detective force was put on the search. Detectives Cronin and Mitchell, while watching in the rotunda of the Palmer House at 10 o'clock Saturday night saw a man walk up to the hotel clerk at the desk, who bore a resemblance to the man who had passed the stolen bill at Goldstein's.

Walsh was taken to the detective headquarters at the city hall. The detectives did not believe the story and detectives went to the Palmer House again to investigate. There they found the woman, who is passing as the prisoner's wife. They placed the woman under arrest and seized a quantity of baggage that was in the room the couple had been occupying. Among the baggage they found in a valise the sum of \$2020 in the stolen Bank of Montreal bills. Along with this was \$300 of the bills of other banks done up in bundles. In addition to the above money the detectives found with the effects the sum of \$7180.50 in changed money.

Montreal's population, per directory estimate is 5,530,437. Canadian manufacturers will visit Great Britain next year.

The tanners' section of the C.M.A. at Montreal decided on a 10 per cent. increase in leather prices.

Mr. Chas. W. Wood, 34 Torrance St., Montreal, Que., writes:—"For two years I had suffered with nerve trouble, and it was impossible for me to sleep. It did not matter what time I went to bed, in the morning I was even worse than the night before. I consulted a doctor, and he gave me a tonic to take a half hour before going to bed. It was all right for a time, but the old trouble returned with greater force than before. One of the boys who works with me, gave me half a box of Milburn's Heart and Nerve Pills. I took them, and I got such satisfaction that I got another box, and before I finished it I could enjoy sleep from 10 p.m. until 6 a.m., and now feel good."

Fifty Thousand Men Required Garden Party At Bobcaygeon Last Week

FARM LABORERS' EXCURSIONS—THIS YEAR'S WHEAT CROP WILL BE THE LARGEST IN THE HISTORY OF CANADA.

The wheat crop of 1912 will be the greatest ever harvested in Manitoba, Saskatchewan and Alberta, thus requiring the farm laborers of the east to recruit and assist in harvesting the world's greatest bread basket.

The Governments of the respective provinces state that fifty thousand men will be required for this year's harvest. Those will have to be principally recruited from Ontario, and the prosperity of Canada depends on securing labor promptly. The Canadian Pacific, on which company will fall practically the entire task of transporting the men to the west, is already making special arrangements for this year. Excursions from points in Ontario to Manitoba, Saskatchewan and Alberta, will be run and special trains operated, making the trip in about thirty-six hours and avoiding any change of cars or transfers. This will be a day shorter than any other route.

Don't You Need a Tonic?

Good health is an impossibility if the blood is not in a pure, healthy condition as it reaches and nourishes every part of the system. For a time you may not be aware that your blood is becoming vitiated and carrying poisons to all parts of your system, but soon some important organ will refuse to perform its proper function and a serious illness is the result. It is advisable to take an occasional dose of Henderson's Herb Tablets to keep the blood in a healthy condition, even though at the time you may not feel the necessity. Provided you have no serious symptoms, one or two Tablets taken two or three times a week will be found sufficient to preserve the equilibrium.
