HIS LIFE'S WORK FINISHED, GENERAL BOOTH PASSES AWAY

London, Aug. 20.—William Booth, general and commander-in-chief of the Salvation Army, passed away at 10.30 o'clock to-night. He was born at Nottingham in 1829.

instruction that it should not be opened until after his death. While nobody knows what name the envelope encloses, the general belief among the Salvation Army is that the name will prove to be that of his son, Bramwell Booth, who for thirty years has been his chief of staff.

Writing in this week's War Cry, before his father's death, Bramwell Booth said:—"In periods of calm peace the general has evidently fully realized the serious nature of his illness. He has spoken several times of his work as finished, and referred with joy to the prospect of soon meeting again both my dear mother and sister."

The morning newspapers all pay tributes to the memory of General Booth, giving to him a prominent place among the company of the world's great religious leaders. They say he has left behind him a vital record of life's activity in the service of a great cause, and a monument to himself in every civilized country, a record worthy of a noble and self-sacrificing life.

Mr. Fischer had the verses in hand for some time. He finally put them in music, but somehow the hymn never (denied rounded) out. Finally one night when he was in bed he refrained, which seems to combine all the faith and love of the Christian religion in its complets, came to him as an inspiration. He always regarded it as a vision and was fond of telling its origin. The words are:

BIG APPLE CROP

LARGE INCREASE IN ONTARIO ORCHARD YIELD. The apple crop this year promises to be very good indeed. One large firm of orchardists who have leased apple orchards all through Ontario report that they expect 100,000 barrels of apples against 33,000 last year. Part of this however, is due to improved methods of caring for the orchards. The early fruit are only a fair crop. Astrachan and Yellow Transparent being light and Duchess turning out a medium crop. Spies are light and Greenings a good average. Baldwins and Ben Davis are a heavy crop. It is expected that the price of fruit will be much lower this year than last.
