gentlemen," ne began, "and means added, with a bow to the right and left. "As many of you know, I prefer to practice law a little, and I want say now that I'm glad Mr. Bartlett is in the profession. A lawyer with keen wit and eloquence could console an innocent mother before a jury or own children. [Laughter.] And at the point, gentlemen, we are cent of the charges against us. I speaking now of my clients, the ops. They are deeply interested in the development of this section. The Bishop does hold his head high in this case he has held it high to small coming prosperity in air. He believed it would come, that is why he bought timber lands. As for the accused gen- man from the Hub of the universe, say that I have known him for al years and have never heard a against his character. He is not mer, but a business man, and it d be unfair to judge him by any standard. He is not only a busi- man, but a big one. He handles things. This railroad is going to big thing for you and your chil- Yes, Wilson is all right. He fight in the late unpleasant- ills the women he was too young- is here to build a railroad for good and prosperity, and he can't one where there is nothing to be out. If he buys up timber for his ny, it is the only way to get to back him in the enterprise. gentlemen of the opposition, if

Black Hair I have used your Hair Vigor five years and am greatly re- sed with it. It certainly re- s the original color to gray e. It keeps my hair soft."—Mrs. n Kilkenny, New Portland, Me. Ayer's Hair Vigor has a restoring color to y hair for fifty years, it never fails to do work, either. You can rely upon it stopping your hair n falling, for keeping r scalp clean, and for king your hair grow. \$1.00 a bottle. All druggists.

WILL THE MAYOR USE SHOTGUN AGAINST THE GRAND TRUNK?

It is Alleged that the Company are Putting Down Tracks on Town Property

THE MILK GETS RICHER Both Bridges are now Closed to Traffic but Council is not Ready to act

There are indications that this year's council will have to go up against harder propositions than reason and common sense before the end of their term; and such as they will likely not make as good headway against as they made against these. At a meeting on Monday night it was proposed to post the mayor on a remote street across the river with a gun to see that the Grand Trunk does not put down tracks on town property. Expressed fears that His Worship would not be a very formidable proposition with a gun were set at rest by his assurance that he handled that weapon with the most perilous sort of expertness. There is just a possibility that civil commotion at that point will divert the attention of council from the fact that both bridges are blocked to traffic—the one because the government is rebuilding the swing, and the other because in 7 months council have not got to work to rebuild its condemned approaches. It is expected that His Worship will reach the point of prospective hostilities either over the floating foot-bridge or by a flanking movement in a row-boat. These matters, and an over-charge of 5 cents a gallon and freight on ten gallons of cylinder

DISASTER REPORTED AND DENIED

Consternation was caused by a stock market wire from New York at 3 o'clock yesterday afternoon to the effect that Atlantic City, New Jersey, the Famous Summer Resort, had been swept by a tidal wave that had caused the death of three thousand people. The associated press could get no confirmation or denial of the terrible report, because the wires were demoralized in the vicinity of the reported disaster. Enquiry at the local C. P. R. office late last night elicited the information that a heavy storm had swept the summer resort but that not a life had been lost.

oil for the road-roller occupied council's attention from 8 to 10.45 on Monday night. Another meeting will be held to find out what will be done. This report will deal with the proceedings of two meetings. The first, the regular monthly one was held on Wednesday night of last week and the second a committee meeting on Monday night.

At the first meeting Contractor Miller offered to buy the flag stones taken from the Kent crossings. Allan Dougal asked that the bank boys be let hold a ball in the council chamber. Geo. Mills protested against closing John-st for the L. B. & P. railway. P. G. Pilkie acent a letter referring to Mr. Chalmer's "childish proposition" to deposit \$25 to see who was wrong about the Daniel drain, and appended a report from Supt. Begbie to the effect that the lateral had sufficient fall from the street line to the sewer.

THE MILK IS BETTER A fresh test of the contents of the local milkmen's cans made it evident that either Mr. Douglas does not know his business or some of the milkmen are crooked. At the last test made a few weeks ago the best sample scored 3.80, and the others on a scale down to 2.50. This time though the pasture had had a month more of summer, the milk tested as high as 4 per cent butterfat and the poorest of it 3.75. Following is the report: McMullen 4, Murtha 4 Stewart 3.90, McFadyen 3.85, Wilson 3.75, and Quibell 3.75.

This report led Ald. Storer to ask "New machine for testing?" "The cows have been tested" remarked Ald. O'Reilly. The report was sent to the Board of Health, for what reason nobody knows unless because it was so rank. The auditor had found a dozen or so of irregularities, for example the Kawartha Lakes Navigation Company had delivered the lake gravel without any contract. Several of these irregularities were corrected by resolutions etc., coming up at the meeting of council.

A resolution to make a contract with the Light Heat & Power Company for 60 lamps at \$50 each, was adopted with the illuminating committee "if a satisfactory contract can be made the wheels of the machinery go, but accomplished nothing. Driver O'Neil of the fire wagon got two weeks' leave of absence. The clerk has written to a company manufacturing refrigerators and

the river contrary to law. The mayor said the law must be observed. "TOWN AND GRAND TRUNK Then came the crisis. "Who gave the G. T. R. the right to put down tracks on Brock-st?" demanded Ald. O'Reilly, and looked around as if expecting to see somebody confess. Confessing has become quite a common exercise for the warden who have in moments of weakness imagined they were off the whole council. Ald. McCrae has confessed before and likely will again when he sets well enough to come back and is asked how it came that he ordered a block of cement walk to be laid north from R. M. Beal's residence. "I didn't" said the mayor in reply to Ald. O'Reilly's question about the G. T. R. sidings.

"Well they are going on putting in sidings to embarrass the L. B. & P. railway which wants to cross the G. T. R. there. They have got off into town property without consent and I think they should be stopped before they get the rails down. Then they should be thrown off our property. Toronto has had to do that. Let the mayor go over with a shotgun and keep the company off. Ald. Maunder—Is he any good to shoot? Ald. Cinnamon—Yes he is a good shot. The mayor—it would not do for you to get in my way when I was going to shoot.

At this point Ald. Robinson regarded council with a parallel. It was the story of Mr. Cuff who, when the Victoria railway was going to cross his land some years ago.—Col. Deacon will give you the exact date—sat on the fence with his shot gun and dared the navvies to come onto his property. "That's the way to handle such men" declared the south ward legislator with some heat, evidently having in mind an assault that a certain person in his neighborhood had made upon an electric gun put up by the G. T. R. at the Lindsay-st crossing. "Mr. Cuff told me he had nothing in his gun" remarked Ald. Cinnamon by way of relieving the tension of the moment. "Well we should have something in it" retorted his colleague. Someone suggested that Ald. Storer go over and protect the town property. "What would I do if 50 navvies came along?" queried the chairman of the Board of Works with some trepidation. "Do!" replied Ald. O'Reilly "why you have the whole police force at your back." The assurance that he would have the assistance of Bill Nelson and Geo. Foster against the half-a-hundred navvies did not greatly reassure the knight of the road roller, however. It was decided to take legal advice to the law's limit.

MAYOR WILL GET MONEY The recommendation of the engineer that certain ditches be cleaned out was favored by Ald. Robinson but Ald. Cinnamon demanded to know how that could be done when the by-law had been defeated and the money all spent. "We shall get more money" said the mayor, but did not disclose the source of the lure. THE BRIDGE APPROACHES A good deal of time was spent in discussing the approaches to the Wellington-st bridge. Ald. O'Reilly found fault because a resolution of his to rebuild the approaches being adopted in February last nothing has been done, except that plans and specifications got by Ald. McCrae, from nobody knows who, had been examined by council. Ald. Cinnamon said the people had refused the money to build it; let it stand. It was agreed that it would take more than an afternoon's

word to make the bridge stand up under a very heavy load, and that something must be done. In the meantime the foot-bridge will be used, and saving for steamers. DO WE DISLIKE MR CARNEGIE? Mr Beal Says we do and Objects to Putting his Name in the Library The excavation for the new public library is nearing completion, and the adjacent ground is being loaded with material. At a recent meeting the contention of the contractor that he could not get stone at Cobocook on board the scows at \$3.00 a cord received a somewhat bad crack by a telephone message to Judge Harding from Mr. Callan owner of the quarries, saying that he had charged the contractor nothing for the stone but was glad to have it used in the library building as an advertisement. It has been decided to build the stock room larger than the plans, at an added cost of \$900 so that now the total cost is \$10,700—in spite of Crown Attorney Devlin's recent demonstration against changing the contract one jot. The architect will get 5 per cent of the cost. A CARNEGIE TABLET When the question of putting up a tablet in the new library stating that it was built with Mr. Carnegie's money, Mr. Beal strongly objected and said that there was a feeling in town against Mr. Carnegie.

A Word to Carriage Owners The system of cold tire setting introduced this season has been a complete success. Over 300 sets have been put on and not one complaint has been made. The old system of fire and water will soon be a thing of the past. It is well known fact that the heat of a red hot tire destroys the wood. We cool the face of our rims with white lead and set the tire cold. This prevents the water from getting into the timber and makes a first class job. All vehicles made by me in the future will be made in this way. I found it quite a difficult matter to introduce rubber tires in this country. In 1891 I sold one rig, in 1892 I sold two rigs. In 1893, this permit began and I sold nine and all my customers were delighted. Dr. Shier is the owner of the first pneumatic-tired rig made in this country and all who have seen it say that there was not as good a rig of its kind at the Toronto Exhibition. During the last five years I have learned a great deal about rubber tires and I can promise intending purchasers that they get a rubber-tired buggy in this shop, that will out-wear a steel-tired rig. I use and am sole agent for the best brand of rubber-tires made in America and any person contemplating purchasing an up-to-date rubber-tired carriage should in order to get the best results, give his order early. My carriages are on exhibition in the showrooms. If you want to see first-class rigs of my make on the showground, just take notice to the rigs driven by men who know a first-class rig—Dr. McAlpine, Dr. Shier, Dr. Blanchard and Veterinary Surgeon Broad. Those rigs will be in use on the showgrounds and can't be beaten in Canada. R. KYLIE

500 pairs of Boys' Pants only 25c at Graham's during Lindsay Fair Days.

Extras for Fair Week Lindsay Central Fair, Sept. 24 26 will be the centre of attraction for thousands of the people of Victoria and adjoining counties. Next in point of interest will be NEILL'S SPECIAL 6 DAYS SALE Commencing Monday September 21st and continuing all week, we will offer special values in seasonable lines of Men's, Women's and Children's Footwear We are after a record week's business. That is why we are willing to make a sacrifice by offering these big trade bring- ers. Do not fail to call and see these bargains, even if you are not prepared to buy, we cordially invite you to Make Our Store Your Headquarters during your stay in town. We'll look after your parcels and wraps.
