Boy's Tweed Saps, reg 35c for 25c

Men's tweed Caps, reg 55c \$44c

LINDSAY CENTRAL FAIR AGAIN A GREAT SUCCESS

Entries and Gate Receipts Larger than Ever. The Fair in Every Respect a Record One. Great Crowds Present.

The directorate of the Lindsay Central Fair added still another success to their long list. Last season it was deemed almost impossible to improve on the fair, yet this year the exhibits were larger, the racing better, the crowds greater, and best of all, the receipts were almost \$400 in excess of last year, notwithstanding the heavy shower on Saturday afternoon. Taken altogether the fair was one grand success, a record breaker in every sense of the word. A satisfied public and a big bank balance both testify it. Nothing but bad weather has ever threatened the fair with disaster, and again the weather was gloriously fine until Saturday afternoon, when there was a huge downpour of rain—but the money was in.

The exhibits of live stock were excellent, and indicates the improvement that is taking place in the Herd kept by the farmers of the Midland district. The grain and root, dairy produce, etc., also were good. The mercantile exhibits are a growing feature of the fair; local merchants, agents and outside concerns that make articles taking every available space possible. But the chief attraction of the fair is the ring, for the ring is the fair. This year there was some fine racing. The specialties were also ahead of last year. They included some cleverly trained ponies, daring trapezists and a tramp juggler. The latter gentleman's performance was very good, and elicited plenty of applause from the spectators all around.

Speeding in the Ring

The track events proved of an interesting character, especially in the green race, which event took five heats to decide the winner. The following were the results of Friday's racing:

Table with 2 columns: Name and Time. Includes Dr. Mack, Johnnie H., Peggy, May Bell, Miss Tariff, Topsy Dillard, Joe Allan, Hazel Bell, Captain Stubb, Miss Paisley, Why Not, and Why Not.

On Saturday there were only three contestants for the free-for-all, and owing to a heavy rainstorm only two heats were run off, and the race was awarded to Blackbird.

Black Bird 1 2 x Cleopatra 2 3 x Minnie Keswick 3 1 x Time 2:16 1/2, 2:19.

In the 2:40 class the first heat was well contested, but the deciding heats were run on a sloppy track. Little Girl proved too good for her opponents, winning three straight heats as follows:

Table with 2 columns: Name and Time. Includes Little Girl, Little Will, Dr. Mac, Why Not, Brown Gyp. Times range from 1:11 to 2:45.

The Main Building

To the right of the front entrance was the Singer Sewing Machine exhibit, with the leading makes of machines demonstrating their many uses. Fancy work was taught free, and fine samples of work displayed.

Messrs. Forbert & Forbert had a fine exhibit of "Queen Quality," "Boston Favorite," and "Instructor" shoes, the latter for school wear.

Messrs. Walker & Moore were to the fore with a display of Island City paints made by P. D. Dods & Co., Montreal, the Menzies line of wallpapers, picture frames, curtain poles, and other necessaries for house decoration. The business of this firm is extending, and a fine stock of wall papers, etc., is in for the season's work.

The De Laval cream separator was shown by Mr. Lewis, of the Victoria Creamery. It is used in the manufacture of his first prize creamery butter, and, as the novel placards stated, "used in King Edward's dairy, and 800,000 others." "Not the cheap kind." This was the only exhibit of a separator in the main building. Several were shown outside.

The Everitt Piano Co., of Lindsay had several high grade new scale Williams pianos, for which they have the agency, and which were heard to advantage as played by Mrs. Jackson.

Mr. Roenick, of the Central Music Store, had a fine exhibit of Dominions

organs and pianos, which are popular with the public. These instruments are made at Bowmanville. Miss Roenick played varied selections to demonstrate their artistic tone and action. Thos. A. Edison, phonographs, for which Mr. Roenick is agent, entertained the visitors with song and story. Mr. J. A. Williamson had a magnificent display of harnesses. A pair with brass mountings, and another with silver showed skilled workmanship. The celebrated Saskatchewan robes, Newland coats, blankets, and wagon robes, and lap covers, were also shown, as well as trunks and valises.

A large space was occupied with the "Souvenir" ranges sold by Messrs. Boxall & Matthe. They are made by the Gurney-Tilden Co., of Idea furnace made by the same company, Hamilton, and Winnipeg. The New pany, coal burners and heaters, etc., were also shown by this popular hard ware company of Boxall & Matthe.

Messrs. Keyes & Morrison, filled a large space in the center of the building with stoves and ranges of several makes, the "Pandora" ranges made by the McClary Co., of London, manufactured by the Gurney Foundry Co., of Toronto, and exhibits in the plumbing and heating line, including porcelain baths and bowls made in Port Hope by the Standard Ideal Co. Gough's clothing display had a prominent space, and comprised specialties in men's fur-lined coats, and cloth overcoats, boys' school suits at \$3.75 to \$4.50, and men's suits from \$7.50 to \$11, besides other seen at his busy store at the corner besides other lines which are daily of William and Kent streets.

The largest space in the center of the main hall was devoted to Messrs. Dundas & Flavelles, Ltd., where a men's fur and fur-lined coats, men's splendid display of carpets, rugs, electric suits, ladies' astrachan and electric seal jackets, curtains and portieres, grill work, and other lines of goods. Their display presented a luxurious appearance, and contained upwards of \$1800 worth of goods.

Near the main entrance, Mr. R. Neill had a fine display of men's and women's fancy shoes, mostly of the standard Slater makes, for which he has the sole control in Lindsay; Maple Leaf rubbers, leggings, and small wares; also an assortment from his large stock of trunks and valises.

The display of potted and cut flowers was not very extensive. The hot weather of the past few weeks has been somewhat against this class of exhibits.

Long tables were filled with agricultural products, of choice varieties. There could be no better indication of the success of all crops, grain, roots, and fruit are of the best quality.

Mr. G. M. McFadden, who in 1904 was the first in his line to exhibit at this fair, displayed samples of the art decorating materials with which his establishment is equipped. The best Oriental, American and Canadian wallpapers, varnishes of all manufactures, paints, turpines, mouldings and frames. An illuminated gold sign attracts special notice. Samples of the oak finish paper for floors were shown.

Mr. Wm. Warren, agent for the Bell and Karn Pianos had a splendid exhibit of the instruments of these firms, which were demonstrated by Miss Lacey. In sewing machines he showed in American make the Rotary Standard and Rotary Williams and Raymond machines. Cinnamon's hardware store was represented by some beautiful designs of stoves and ranges, including the "Peninsula," by Clark Bros., & Co., Preston, and "Champion" made by D. J. Barker & Co., Picton.

This part of the building was largely devoted to domestic manufactures of various kinds, as well as fancy work, paintings, drawings, burnt wood work, etc.

The Victoria Electric Laundry had a display of samples of laundry work.

The Lindsay Woollen Mills showed splendid horse blankets, steamer rugs, white blankets, yarns and heavy cloth.

Mr. Pepper had a framed exhibit of his beautifully finished photographs mounted on the latest cards.

Outside Exhibits

The building space was not sufficient for the many manufacturers who wished to show their wares. Outside in a tent Mr. Jesse Ferris, Mr. Roenick, of the Central Music Store, had a fine exhibit of Dominions

charge of two power launches of his manufacture.

Cresswell & Jordan had beautiful samples of monumental work.

A brick machine of Wettlaufer Bros. and Sons, Stratford, Ont., was shown by Mr. A. Moore, of Minden, who is agent in this district for that company.

The exhibits which would first attract the attention upon entering the grounds were the carriages of Mr. D. Sinclair, and The James Hamilton Co., Lindsay manufacturers.

The Canadian Swenson atmp puller, made at Bobcaygeon, was also shown.

The Pedlar People were on hand with samples of their celebrated metallic roofing.

Marathon Race

The ten mile Marathon road race on Saturday created a lot of interest and there was quite a buzz of excitement as the competitors took up their places at the starting post. The runners were as follows, Geo. Reilly, H. Elliott, M. Elliott, A. Touchburn, McNutt, Yerec, Little Britain, S. Touchburn and Culbert. The course was once around the track, out of the grounds and south along Adelaide-st., to Kent-st., thence east along Kent-st., to William-st., thence north along William-st., to Colborne-st., thence along Colborne-st., and the Oakwood road to the first concession of Ops, thence south along the first concession of Ops to the fourth quarter line of Ops, thence easterly along the fourth quarter line of Ops and Kent-st., to Adelaide-st., thence north on Adelaide-st. to fair grounds, and once around the track.

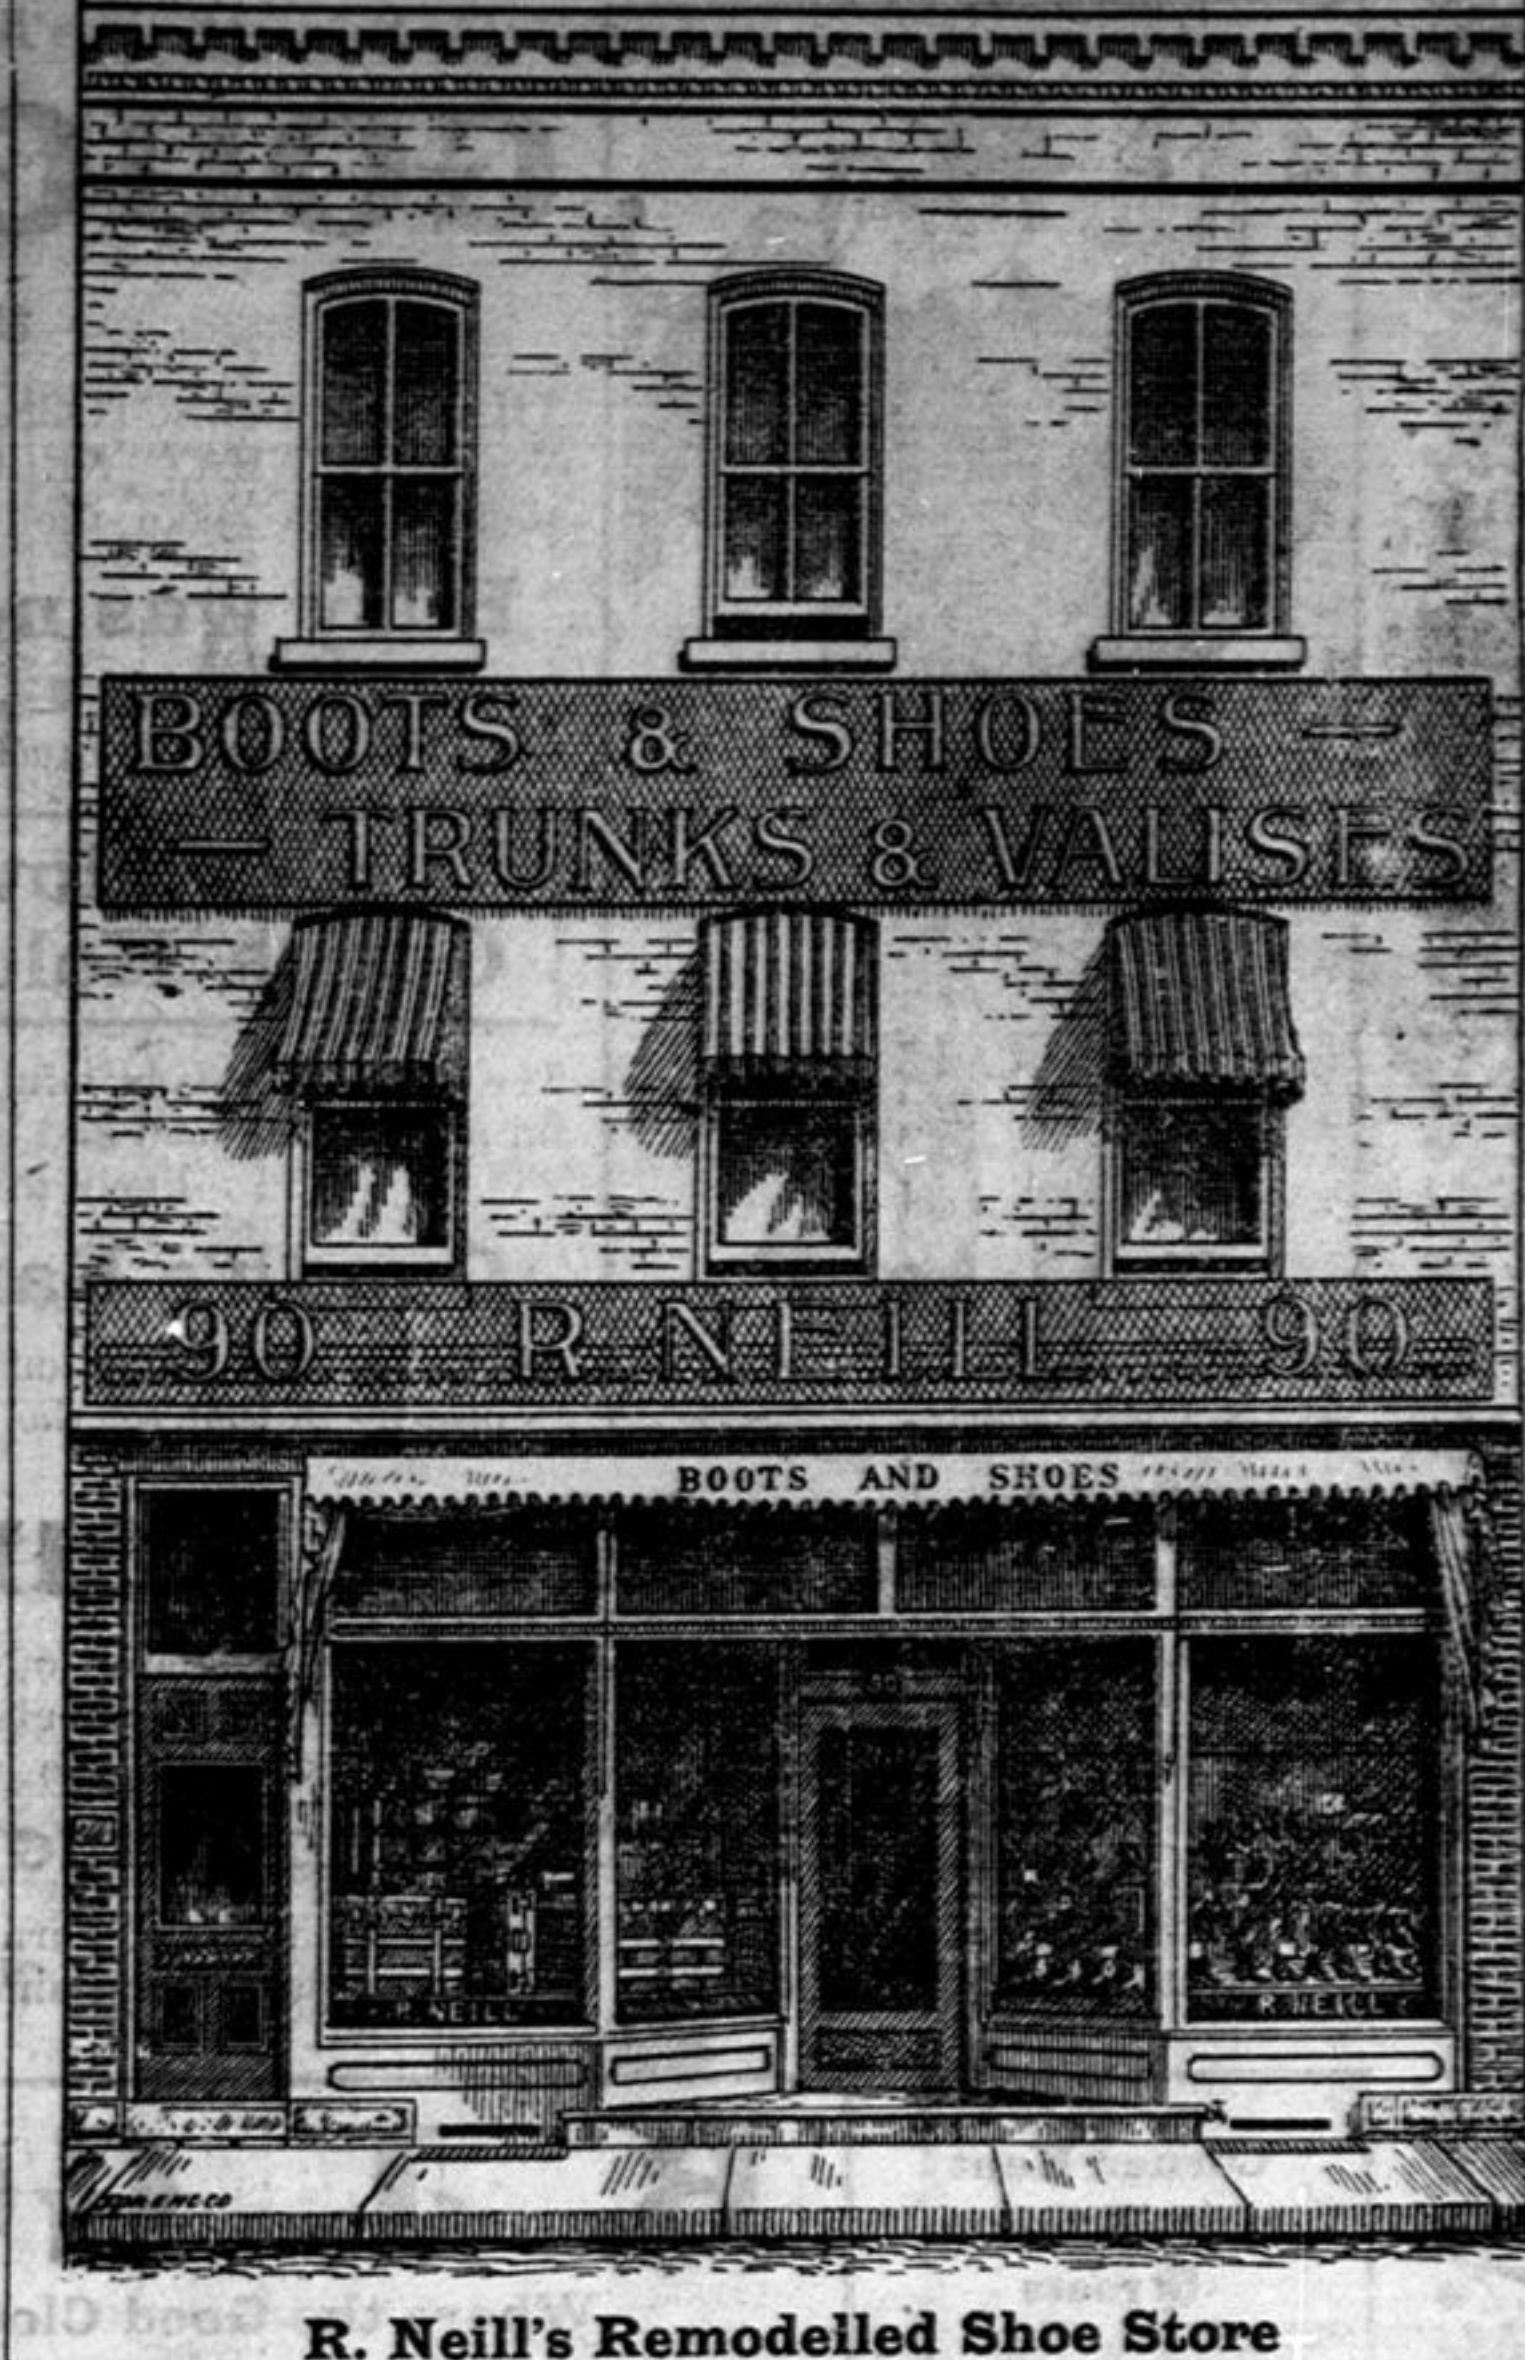

At 1:48 p.m., the start was made and Reilly started off at a pace which proved disastrous to several, Culbert, M. Elliott, and A. Touchburn dropping out before two miles had been traversed. One hour later the next spread quickly around the grounds that the runners were in sight and would soon be on the grounds. The track was cleared, and amidst cheering Geo. Reilly and "Curly" Elliott entered the grounds together. Both were pretty well done, but in the sprint around the track Reilly beat Elliott by a few feet, but finished in error at the wrong wire. Elliott pulled up also, but was jostled along by his friends, a few yards further on in front of the judges' stand, and was given the decision. Later on, owing to the misunderstanding regarding the finish, the two agreed to divide the value of the prizes. The time was 1 hour, 10 minutes afterwards Yerec, of Little Britain, who was unfortunately in being about four minutes late in starting, finished third, and was followed home by McNutt, who took fourth money, and was the last to finish.

Prize List

The first portion of the Central Fair prize list will be found on page 10. The balance will be published next week.

Presbyterian Manse at Ome- mee Damaged by Fire.

(Special to The Watchman-Warder.) Omeamee, Sept. 26.—Fire was discovered in the kitchen of the Presbyterian Manse here about 12:30 this morning, and before it was got under control about \$1500 damage was done. The pastor, Rev. Mr. Whitelaw, and family, were awakened by the smoke, and had a narrow escape.

R. Neill's Remodelled Shoe Store

Poultry

The exhibit of poultry was the there being no fewer than 635 entries. The principal exhibitors were largest in the history of the fair, Messrs. Knight and Snowden, of Bowmanville, King, Oakwood, J. Lauder, Lindsay, Hancock Bros., of Mariposa, J. P. Ryley and Ald. J. O'Reilly, all of whom showed beautiful birds. All classes were well represented, and competition was very close. The majority of the birds were exceptionally fine, and were fit to show anywhere.

A Good Clubbing Offer

The Watchman-Warder and The Farming World, a first-class paper for farmers and stockmen, will be sent to any address in this district one year for one dollar. To all points 20 miles and over from Lindsay the subscription price for the two papers will be \$1.25.
