The Local Legislature at its last session passed "An Act to regulate the Speed and Operation of Motor Vehicles on Highways."

This is an important piece of legislation and should be well understood by the public at large. As matters go at the present time, it is dangerous to venture on the king's highway with the old time horse and carriage. The man with the automobile acts as though he had the right of way and scuds along without apparent interest in the rights of others.

The Legislature showed their wisdom when they undertook to control what is rapidly becoming a grievous nuisance. For the information of the public we shall quote Sections 10 and 11 of the Act, which show the responsibility of automobilists on the highway. Section 10 is as follows:

10. Every person having control or charge of a motor vehicle, shall whenever upon any public street or highway and approaching any vehicle drawn by horse or horses, or any horse upon which any person is riding, operate, manage and control such motor vehicle in such manner as to exercise every reasonable precaution to prevent the frightening of any such horse or horses, and to insure the safety and protection of any person riding or driving the same, and outside the limits of any city or town shall not approach such horse or horses within one hundred yards, or pass the same going in the opposite direction at a greater speed than seven miles an hour, and if going in the same direction, shall signal his desire to pass and give the rider or driver an opportunity to turn out so that he may be passed with safety, and if any such horse or horses appear frightened, he shall reduce his speed, and shall not proceed further toward such animal or animals unless such movement be necessary to such animal or animals under the control of the rider or driver, and if he approach any such person riding or driving any animal or horse upon any public highway outside of the limits of any city or town he shall also stop any such motor vehicle when signalled by such rider or driver to do so by raising his hand, or otherwise requested, and shall remain stationary so long as may be necessary to allow such rider or driver to pass, or until directed by such rider or driver to proceed; and in case any animal ridden or driven by such rider or driver appears to be frightened, the operator of such motor vehicle, and any occupants of the same, shall upon request, render assistance to such rider or driver in control of such animal or animals.

11. In case an accident occurs to any person, whether on foot or horseback, or in a vehicle, or to any horse or vehicle in charge of any person, or owing to the presence of motor vehicle on any public highway, the person in charge of such motor vehicle shall return to the scene of the accident, and upon request, give in writing to any one demanding the same, his name and address, and also the name and address of the owner of such motor vehicle, and the number of the permit of the said motor vehicle.

18. When any loss or damage is incurred or sustained by any person by a motor vehicle, the onus of proof that such loss or damage did not arise through the negligence or improper conduct of the owner or driver of the motor vehicle shall be upon the owner or driver of such vehicle.

20. Any person violating any of the provisions of this Act, or any regulations made thereunder, where penalties for the violation thereof are not heretofore provided, upon summary conviction, shall be liable to a fine of not less than \$10 or more than \$50 and costs.

The Act also compels each automobile to have its number placed both in front and behind. These numbers are to be placed as to be distinct and visible, not less than five inches in height, and to be kept free from dust and dirt. These numbers must be the numbers issued by the Provincial Secretary. Any person being unfortunate enough to have trouble on the highway with one of those machines should not neglect to take the number, and thus be able to trace the offender.

Mr. P. A. McDiarmid was called to Madoc on Saturday by the serious illness of his father, who died on Sunday. Mr. McDiarmid's many friends will sympathize deeply with him in his loss, particularly as it is only a few weeks since his father-in-law, Mr. Kidd, died very suddenly.

Mr. Henry Rednor, an aged resident of the Falls, died at his late residence, Rednor's Point, on Saturday. The funeral took place to the village cemetery on Monday afternoon, and was well attended.
