

\$25,000 WAITING FOR OWNER

Cincinnati, Ohio.—Twenty-five thousand dollars is lying in the safe of the German Hospital, awaiting the finding of heirs to the estate of Mrs. Tindel, who died at that institution of apoplexy.

The money was in large bills, concealed in Mrs. Tindel's clothing, and was brought to light, together with her will, after her death.

Apoplexy claims hundreds of victims every year. Yet apoplexy is but an advanced stage of blood poisoning which manifests itself in headaches and backaches. Very frequently the cause is constipation.

Such a case as the above shows the importance of keeping the bowels active, the kidneys regular, the skin healthy, so that the blood will be always pure and rich.

"Fruit-a-tives"—the famous fruit liver tablets—are safe and efficient regulators for stomach, liver, bowels, kidneys and skin.

"Fruit-a-tives" are sold by all dealers at 50c a box, 6 for \$2.50 or trial size, 25c.

BIGGEST DAY

SATURDAY BIGGEST DAY.

Saturday at the Lindsay Central Fair was the best day the fair has ever had. The paid admissions amounted to \$1657.10, which was four hundred dollars ahead of Friday. In the past Friday has been considered the better day, but this condition was reversed in the Fair of 1909.

Trains had carried the crowds on the day previous, but on Saturday these trains were literally packed like oysters. The town was crowded as it has seldom been before. This crowd made a bee-line for the fair grounds in the afternoon, and the majority were inside the grounds when the rain fell. Thus the shower did not in any way diminish the attendance.

The day was better even than Friday, the performance on the stage in front of the grand stand being really good, and the races the very best. The big crowd amused itself in a hundred and one ways and the rain did not drown the general good spirits, though many were soaked through to the skin.

WON JUDGING PRIZE.

P. Channon won the special prize given to the man under twenty-five, a farmers son, who would come nearest the judges' decision in judging the cattle. David Deyell was second.

WON SILVER CUP.

The Victoria Loan Cup, donated as a prize for the best pair of horses, not less than 3,000 pounds, shown in harness to a suitable vehicle, formation, action, manners and soundness all to be taken into consideration, was won by Wm. Channon, Oakwood.

LADY DRIVING.

Seven ladies entered the ladies' driving, single, competition. This event is always a favorite. Mrs. Chas. Lindsay, of town, drove beautifully and had an excellent turnout, winning first prize. Miss Hunter, of Orono, was second.

In the ladies double driving Miss Nora Mitchell, of Clarken, carried off the prize with Mrs. Thos. Downey, Reaboro, second.

A KEEN CONTEST.

In the gent's turnout there were fifteen entries and Dr. Sinclair had a hard time to decide the winners. In this contest the turnout has to be owned by a farmer and the driver must either be the farmer himself or his son. No entire horse or animal that has ever won money on a track is allowed to enter the contest. Gentleman, lady and all are to be considered in the judging. Mr. James Bushell, of Omeme, won this event, with Mr. Bert McGill, Janetville, second.

In drivers, 15j hands and under, brought out a goodly number. B. McGill, of Janetville, was first, Curtis, of _____, second, and Hunter, of Orono, third.

The competition for the Sylvester plow was a keen one. This is for general purpose teams, owned and driven by farmer or his son, to be judged by speed and value. Mr. C. McLean, Woodville, won first, and Bowen Bros., Valentia, second prize.

WILD FLOWERS.

The collection of Canadian wild flowers in The Warder last week were not exhibited by Mr. H. S. Rosevear as stated, but by Watson Kirkconnell, the 14-year-old son of Principal T. A. Kirkconnell, of the Lindsay Collegiate Institute. The boy gathered the flowers himself.

RELAY RACE.

To the Janetville team of runners fell the victory in the relay race over

a course of three miles, held at the fair Saturday. The Mariposa team came second, there being no other contenders. The winning team of runners comprised Thos. Wauchop, J. W. Paul, and Oliver Gordon, and the Mariposa team was composed of C. Owens, N. McKee, and R. M. Parker. The race was started at the foot of Kent-st. by Mr. John Carew. The first two runners went along as far as the track in the grounds, and the others took it up and each went once around. The Janetville men were always in the lead and won by a handsome margin. The winners received suit cases and the second team watch chains or rings, whichever they chose. Mayor Begg, J. D. Flavell and G. H. Hopkins were the judges.

All previous records of the Lindsay Central Fair were broken last week, and as a result the directors are \$523.23 ahead of any previous fair ever held. The total receipts for admissions and grandstand this year were \$3,839.50, while last year they amounted to \$3,316.27, an increase of \$523.23. \$750 was the total amount received from the grandstand, \$320 on Friday, and \$430 on Saturday. This is a large increase, as the admission to the stand was increased but ten cents. \$104 was received from the midway and other amusements.

Several thousand people had tucked themselves into the fair grounds and all was going as merrily as the proverbial marriage bell when the weatherman saw fit to have it rain. Dark clouds gathered hurriedly and soon a brisk shower was in progress. Everyone scattered for cover and umbrellas were in great demand. These in the grandstand thanked their stars they were there and those in the rain wished they were in the grandstand. However, the rain soon passed and the sun and wind dried out those who got wet.

WILL BUILD NEW STAND. It all happened in the judge's stand. President Ellis was confronted with the necessity of having a new stand built.

"Take up a subscription right here," suggested S. J. Fox, M.P.P. Without additional comment Mr. Ellis acted upon the suggestion. Out came a little memo book and G. H. Hopkins decorated his signature first with a \$10.

Then came Mayor Begg and H. B. Black, J. Carew and S. J. Fox did likewise. Senator McHugh was enticed into the stand upon some pretext and followed suit. Soon a handsome fund was subscribed and all had a hearty laugh over the incident. The stand will be erected for next year.

The aeroplane did not "go up." It was carried about in Hopkins' auto, but the coming of the rain prevented a fair test of its flying ability. Without detracting anything from the inventors it would appear that something extraordinary is required to make the Dutchman fly.

Sunlight Soap Employees

GIVEN \$2,500,000 WORTH OF STOCK—GENEROUS TREATMENT OF WORKMEN BY LEVER BROS. LIMITED.

Lever Brothers Limited, manufacturers of Sunlight Soap, have been trying to solve the problem of satisfactory relations between employer and employe. The village of Port Sunlight was built at an expense to the firm of \$2,500,000, and \$3,000,000, and was simply for the purpose of improving the conditions under which their employes live, and is without any financial return to Lever Brothers Limited, whatsoever. They have also adopted a system of pensioning their employes when they reach the age of 60 or 65. Recently Mr. W. H. Lever set aside \$2,500,000 of stock to be given to the various employes of Lever Brothers Limited. The first distribution of this stock took place on July 23, 1909. The stock is given employes according to length of service, and is theirs so long as they remain with the company. Dividends will be payable annually, including this present year. Lever Bros. certainly are solving the problem of capital and labor in a manner that must win the admiration of everyone.

John D. Rockefeller has given Chicago University \$24,000,000 to date. Lieutenant-Governor Gibson formally opened the new waterworks at Guelph.

Division Court Held at Gooderham and Tory Hill

Wednesday his Honor Judge McMILLAN returned from holding court at Gooderham and Tory Hill.

In the Gooderham court most of the cases were adjourned.

W. P. Robinson, of Peterboro, sued the Clamorgan Horse Association for the board and attendance upon a horse belonging to the defendants. Owing to the absence of the parties the case was adjourned to the next court.

TRUSTEES SUED.

Jos. Munroe sued the trustees of school section No. 5, Glamorgan, for building a foundation under the school house. The defendants denied hiring the plaintiffs, and said that the plaintiff had been hired by one of the trustees only and not by the board. The trustees also alleged that the job would have to be done over again. After hearing the evidence His Honor said that he thought it was just a case where the trustees had disagreed among themselves for ulterior motives and gave judgment for the plaintiff for the amount claimed. The plaintiff appeared in person and I. E. Weldon appeared for the trustees.

FOR WAGES.

John Winn sued Joseph Morrison

for balance due for wages. Morrison claims that this amount is due by the bank and not by him. The case was adjourned to the next court in order to have the Bank of British North America added as parties. The plaintiff appeared in person. I. E. Weldon for the defendants.

Some other cases came up but were adjourned until the next court.

AT TORY HILL.

At Tory Hill, Emery Peters sued William Eyott for the balance on an agreement for sale of land. William German, of Bancroft, was also added as a party defendant. Eyott claimed that he was always will to pay the amount in dispute, but that the plaintiff refused to give him a receipt for the money. His Honor gave judgment for the plaintiffs against both defendants, but without costs as regarding German holding that the defendant had no right to demand a special receipt. I. E. Weldon for plaintiff. I. E. Weldon for defendant.

William McCrae sued one, Savanac, for the balance due on a horse, guaranteeing some other parties for the amount. Judgment for the plaintiff for the amount claimed. I. E. Weldon for the plaintiff.

Victoria and Haliburton Boys Doing Well in New Town of Biggar in Saskatchewan

The Warder has received a copy of The Biggar World, which is published in Biggar, Saskatchewan. It is a new paper in the western field, and the initials, number contains much interesting information about the town of Biggar and its business men.

Among the biographical sketches of Biggar professional and business men appears the following reference to a former resident of this county, who received his early training at the L. C. I.:

S. J. Staples, M.D., C.M., comes from Victoria County, Ont., near Kirkfield, where he received his public school education, later matriculating at the Lindsay Collegiate Institute. Mr. Staples then entered Trinity Medical College at Toronto and after the amalgamation with Toronto Medical College, in due course and with honors, attained his M.D., C.M., diploma from Toronto Medical College, graduating class of '05. Dr. Staples practised in the east and west for three years when he received appointment as surgeon for the Grand Trunk Pacific at this point. Dr. Staples is president of the Biggar Board of Trade and of the most energetic workers for the betterment and expansion of Biggar.

A HARDWARE MERCHANT. Another sketch is given of a former resident of Minden, in the person of A. W. Mooney, member and manager of the hardware firm of Mooney & King. Mr. Mooney was educated in the east and in his early manhood went to Cranbrook, B.C., on the C. P.R., entered on a career of railroading as best suited to his active temperament. His course was speedily upward in his chosen avocation, and in record time he successfully passed his examination qualifying him as a locomotive engineer, taking his first engine at Cranbrook, later running out of Medicine Hat, where he built a modern residence and with Mrs. Mooney and their children made their home. He and Mr. King, having some money for investment and seeking a location for the establishment of a business, pooled their capital and formed the present partnership, and, hearing favorable reports of Biggar and district, Mr. Mooney, representing the new firm came to this place to investigate, arriving here on March 20, 1908, and was so favorably impressed with Biggar as a business opening that he immediately erected a building and installed a comprehensive stock of hardware in the firm's commodious store. They have since added furniture and harness to their stock and do tinmithing in all its branches, having in charge of this department E. Klump, a thoroughly experienced and competent tinmith. The firm is doing a big volume of business and are highly satisfied with the destiny that brought them here. Mr. Mooney is a well informed and well read man, not having neglected the cultivation of his mind in the pursuit of his

railroading career. On the 7th of June, 1909, on the incorporation of Biggar, Mr. Mooney was elected unanimously as overseer, the highest dignity in the gift of the town. He is also a member of the council of the Board of Trade, and is a public-spirited man and one of the most energetic local workers in the exploitation and advancement of Biggar.

A LINDSAY BOY. W. J. Graham, International machine agent, was born at Sturgeon Falls, Ont., and was educated at Lindsay. Mr. Graham at an early age went into the lumbering business and was soon a proficient sawyer, holding the position of head sawyer in a large Nipissing district mill for thirteen years. He went to British Columbia from Nipissing and there for four years had charge of big saw mills at a salary of close to \$200 a month. Mr. Graham resigned his position in B. C. to go to go into business for himself at Biggar, the fame of this town having reached him even there, coming here in October, 1908, and during March last opened up in the lumber business and International implements at this point. After doing a first-rate business here for four or five months, Mr. Graham, having received a tempting offer for his lumber business, sold it. Mr. Graham was elected councillor on the incorporation of Biggar on June 7, 1909, and is also a member of the council of Biggar Board of Trade, and is an active worker in all local public affairs.

A KICKING HORSE. A great deal of excitement was caused by a kicking horse Saturday afternoon in front of Flavell's store. The animals became frightened and kicked itself entirely free from rig and harness.

DEATH REPORTED. An old offender that hung for years. Nothing touched his stony heart but Putnam's Corn Extractor, and out he came root, stem and branch. All corns cured just as quickly when Putnam's is used; try it.

IN HOSPITAL. On Wednesday night last as Mr. J. Mingus was boarding the G.T.R. train with the lumbermen going to Gowganda he met with a serious accident. He failed to board the train until it was pulling out, and then he had a very narrow escape from being dragged under the wheels and being killed.

Mr. Mingus had his baggage with him and thus was handicapped in getting on the moving train. He unfortunately got on backwards and missed his footing on the lower step of the coach. The luggage fell, but Mr. Mingus managed to hang on. It appears that he strained the muscles of his body very severely, and it was found necessary to let him off at Orillia where he was taken to the hospital.

Enlarged Premises

The increased patronage which we have enjoyed since moving into the Kent-st. store has forced an enlargement of the premises. This we have done by adding 30 feet at the rear, making 500 square feet of store space. The needed room now displays the stock of

Clothing, Boots and Shoes and Staple Dry Goods

to splendid advantage, and makes shopping here easy. With the best purchasing facilities, ready cash and a very low expense, this store is able to place the goods in your possession at saving prices.

Make your motto "A DOLLAR SAVED IS A DOLLAR EARNED," and come to

Emery rod and Towel drier—found Only on Pandora

When a knife is dull a Pandora owner never wastes time hunting for a "steel." She just walks over to the emery rod attachment to Pandora, gives knife six or eight passes over the high-grade emery, which puts on the keenest kind of an edge. This combined emery rod and towel drier is a patented attachment you cannot secure on any other range. Just one of the many improvements that go to make Pandora the handiest range you can buy. 14

McClary's Pandora Range

FOR SALE BY D. CINNAMON

A Good Salary comes quickly to the graduate of the Lindsay Business College

This School has made a record of producing competent bookkeepers, stenographers and office assistants, and the demand for the graduates far exceeds the supply.

SUBJECTS TAUGHT—bookkeeping, penmanship, arithmetic, short hand, typewriting, spelling, business letter writing, etc.

YOU PAY WHEN CURED Drs. K. & K. TAKE ALL RISKS

Thousands of young and middle-aged men are annually swept to a premature grave through Early Indigestions, Excesses and Blood Diseases. If you have any of the following symptoms consult us before it is too late. Are you nervous and weak, dependent and gloomy, spots before the eyes, with dark circles under them, weak back, kidneys irritable, palpitation of the heart, bad dreams and losses, sediment in urine, pimples on the face, eyes sunken, hollow cheeks, careworn expression, poor memory, listless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, weak manhood, premature decay, bone pains, hair loss, sore throat, etc.
