EARNING POWER OF THE COW.

The Dominion Department of Agriculture has issued the following bulletin on cow-testing, which contains much information of interest to the dairy men. It says:

"Most farmers can estimate closely the number of bushels of grain raised, and tell fairly accurately the number of tons of hay grown, but when it comes to the really most important income of the farm, the product of each cow, it's all a blank, and they say, Oh, I don't know, I get my cheque each month, that's all I care about.

"While a knowledge of the total weight of milk delivered at the factory is necessary, it never conveys to the farmer the information he needs in need of as in the profit made by each cow in the stable. That information is absolutely necessary to him if he desires to consider himself a credit to his profession, a first class, business-like dairyman. Otherwise, these satisfying totals or delusive averages will continue to allow the one or two poor cows in every herd to consume good feed for which no profitable return is ever given.

"In many herds where no attempt at checking up individual performance has been made, there is frequently to be found a difference of \$30 to \$40 in the earning power of the best and poorest cow. Farmers need to consider that statement carefully. In the Dominion are to be found herds, let us say of twelve or fourteen cows, with a fairly good average yield of perhaps as high as 5,500 lbs. milk, where the highest yield is close on to 8,000 lbs. milk and 280 lbs. fat; but, where the lowest yield is only about 3,700 lbs. milk and 150 lbs. fat. Such comparisons are only made possible by noting the actual performance of each individual cow for her full milking

period. Weigh and sample regularly and make sure that each cow brings in good profit."

THE GREAT FAIR.

The special attractions and other features of the Lindsay Central Fair vary; the Fair is always a success, is always growing. The basis of this enduring and growing prosperity is the idea of a permanent exhibition held in a fixed place, and with a certain continuity of policy and management. From this idea naturally flows the idea of spacious grounds and permanent, substantial, and beautiful buildings.

In these respects the Lindsay Central is happily situated. Among the important events of the present year are the re-moving of the poultry building to another part of the grounds, thus showing of the large dining hall to advantage. The illuminating of the grounds by electricity and especially the exterior of the main hall, which has been well arranged.

Another permanent asset of the Fair is the crowd. A crowd is sometimes a source of annoyance to nervous and retiring persons. This is not due to any morbid dislike of their fellow humans, but to the fact that some people when in a crowd are apt to misbehave, or that crowds are mal-treated or mismanaged—packed together in a barbarous and inhuman manner. On the grounds of the Lindsay Central Fair these unpleasant conditions are minimized; you can watch you fellow creatures by the thousands enjoying themselves, without being jostled or annoyed. Neither the people nor the arrangements are perfect; yet the visitor who is reasonable and good-tempered will usually come away from the Fair with a good impression of his fellow creatures. The behavior of this multitude of people is a striking fact, perhaps on the whole it is the most wonderful exhibit of all.

CASE WAS DISMISSED.

Few cases in this district aroused such litigation or such general interest as the case of Gatchell v. Kennedy & Davis Milling Co. This case was settled Monday by Mr. Justice Britton dismissing it.

Gatchell is a young man who suffered the loss of his arm while working in the mills of the Kennedy & Davis Co. This occurred a couple of years ago. Gatchell sued the company for unstated damages, presumably \$1500. The case first came up at the fall assizes a year ago. It was then adjourned until the spring assizes, and then, because the plaintiffs were not ready to proceed, until the immediately past fall assizes. Here again the plaintiffs were not ready to proceed with the case and it was dismissed by His Lordship, Stewart & O'Connor for the defendants, McDiarmid & Weeks for plaintiff.

ANOTHER MAN MISSING.

Allen Hodge, a well-known farmer from Dunsford has been missing since Saturday last, and his family are at a loss to know where he is.

Mr. Hodge is an elderly man about 70 years of age, and when he left home on Friday was dressed in a black suit. He is a tall slim man with gray beard. He was attending the Lindsay fair, and intended remaining in town until Monday, and was to stay with his sister, Mrs. L. Dovey, Queen-st., on Friday night, and with Mr. Geo. Shouldice, Elgin-st., on Saturday night.

He did not go to either of the places and the both parties became uneasy as to his whereabouts. Word was at once sent to his home, but up to last evening he had not arrived home.

His friends searched the town for him yesterday, but as yet he has not been located. He was last seen on Saturday afternoon at the fair grounds.

W. D. Russell, of Gravenhurst committed suicide by shooting himself with a rifle.

OWES HER LIFE TO

Lydia E. Pinkham's Vegetable Compound

Vienna, W. Va.—"I feel that I owe my life to Lydia E. Pinkham's Vegetable Compound. Eleven years ago I was a walking shadow. I had been under the doctor's care but got no relief. My husband persuaded me to try Lydia E. Pinkham's Vegetable Compound and it worked like a charm. It relieved all my pains and misery. I advise all suffering women to take Lydia E. Pinkham's Vegetable Compound."—MRS. EMMA WHEATON, Vienna, W. Va.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham Laboratory at Lynn, Mass., from women who have been cured, from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

MARIPOSA GALA FAIR

Continued from page 9.

VALENTIA' V. LITTLE BRITAIN.

The second contest between these two teams was the best and closest of the day, and the winner was not decided until the last ball was pitched. Valentia won the contest by good clean hitting, the final score being 3-1. The Little Britain boys presented a good team, but could not hit the ball when hits meant runs. They had men on bases several times, but could not score after the initial innings. Their young pitcher, O. Heatlie, was in excellent form, and Perrin, Stacey and Suggitt were the only Valentia men to connect with his delivery. They won the game in the first innings by good hitting with men on bases. The Britain boys fielded their positions well but could not hit Southpaw Lott, who pitched gilt-edged ball. The game was a five innings contest. The line-up:

VALENTIA—N. Hicks, B. Lott, V. Suggitt, F. Perrin, B. Stacey, J. Found, W. Thompson, H. Thompson, T. Tompkins.

LITTLE BRITAIN—J. Ferguson, M. Heatlie, J. Prouse, F. Stacey, McConnell, Jones, R. McLeod, McFadden, O. Heatlie.

Score by innings:

Valentia— 2 0 1 0 x-3.
Little Britain—1 0 0 0 0-1.

FINAL CONTEST.

The last game was played between the two star teams who have met many times upon former occasions, Valentia and Hartley. The game was called in the fifth innings on account of darkness, the score being 6-0 in Valentia's favor. Bert Lott stepped right on the rubber and pitched another fine game, having the heavy Hartley sluggers at his mercy at all times. They simply could do nothing with him, and only got a few scattered hits. McFadyen pitched for Hartley, but was not as effective as in the first game, the Valentia boys hitting him hard. The trouble started in the third innings, when Perrin, Stacey and Suggitt cracked out corking singles and two-baggers scoring three runs. They scored one run in the fourth and two in the fifth. The Hartley boys never gave up hope. They tried hard to win and took their defeat like good sports. They fielded their positions well, but could not hit. The absence of kicking throughout the entire contest was a noticeable feature, and was appreciated by the large crowd. Score by innings:

Valentia— 0 3 1 0 2-6.
Hartley— 0 0 0 0 0-0.

Umpire—R. Butler, Lindsay.
FINE DISPLAY OF HORSES.

The display of horses in all classes

far excelled that of any previous year. It was as fine a display as was ever shown at any fair and delighted the hearts of the many horsemen present. In all classes a large number of entries were received and the judges had some difficulty in deciding the winners. A number of fine carriage horses were displayed, and all of them were good steppers. Heavy draught, coach, agricultural, and foals were much in evidence and in the opinion of the many horsemen present they were the best display of horses they had seen in some time. Some of the chief prize-winners were: Geo. Curtis, single driver 15 1/2 hands and under, Jas. Bushnell, Omomee, carriage team; M. Coughlin, Ops, agricultural team; M. Leddy, Ops, heavy draught team, and W. Channon, Mariposa, heavy draught team.

The display of cattle, hogs, swine, and poultry was small, but the quality was good.

GOOD HOTEL.

Too much praise cannot be given Mr. and Mrs. Taite for the manner in which they conduct their hotel in the village. They are very courteous and obliging to all guests, and the meals served yesterday were of the finest quality. It is one of the best country hotels in the Province.

THE OFFICERS.

The president, Mr. G. H. Mark, vice-presidents, Wm. Thorndike and John Cullis, and Mr. J. B. Weldon, secretary, along with the directors are highly pleased with the success of the fair, and they deserve a great deal of credit for the able manner in which they looked after the many visitors and exhibitors. Nothing was too good for the visitors present and all had a delightful time and a pleasant day.

GOOD CONCERT.

In the evening a grand concert was given in the hall, and was largely attended. The program consisted of home and foreign talent and a most pleasant evening was spent, which brought to a close the Mariposa fair for 1909.

STABLE BURNED.

"I honestly believe that my stables were set on fire and I think I know who did it; it was, I think, the same person who has been persecuting me all along, the same person who only recently poisoned my horses."—Mr. Harry Applebaum.

Mr. Applebaum is the man who during the past few years has been conducting a junk-dealing business. He lives on Queen-st., near St. Paul, and apparently is being unmercifully persecuted by some spiteful person or persons.

Early Tuesday morning about 3.45 o'clock fire broke out in the stable at the rear of his house and inside of a very short time the wooden structure was a mass of flames, and was soon totally destroyed. Only the charred embers remain. Mr. Applebaum believes that the stable was set on fire and others are inclined to believe the same thing and considerable sympathy has been aroused for the unfortunate man.

Two alarms were rung in to the fire hall at about the same time, 2.45 a.m., from box No. 7 on the corner of St. Paul and Queen-sts., and from box No. 21 at the corner of Queen and Caroline-st. Night Constable Short rang the alarm and then hurried back to the scene of the fire.

The stable burned like match wood and made a large blaze. Residents in the other parts of the town could not imagine what was burning, many thinking that it was Kennedy & Davis' mill. The sparks were carried far and wide and in all directions by the breeze, and for a time other houses were in danger of catching fire. Citizens living in the neighborhood kept a watch for such outbreaks, however, and guarded their property.

The firemen arrived in good time and soon had a strong stream of water playing on the fire. The fire started in the east end of the stable, but quickly spread to the other end owing to the fact that the stable was filled with a good supply of hay and oats, along with a bit of junk.

Mr. Geo. Kent and others who were on hand early, along with Mr. Applebaum, succeeded in getting a rig out of the stable, but the harness and other valuable articles were destroyed by the flames.

The fire attracted a large crowd of
