SYLVESTER AUTO-THRESHER AT WORK IN FIELD

CHAMPION WALKERS

GREAT CONGRESS OF ATHLETES IN TORONTO IN SEPTEMBER.

With the world's championship walking race as its "Headliner," the program of the Canadian National Exhibition championships on September 10th, will provide a great afternoon's sport. The list of events will be short, snappy races, with international competition. Elwood Hughes has arranged with many of the best athletes in America to appear in their different events. Two or three special invitation events with the "best in the land" as entries will lend all the excitement necessary.

The big Foster International marathon will start early and the finish take place in front of the grand stand in the middle of the afternoon. All the best distance runners are now in training for this big race.

The following are the open events: 100 yards; 220 yards; 880 yards; 1 mile; 5 mile; 1 mile bicycle; 18 years and under; 1 mile bicycle; 3 mile bicycle; 3 mile walk handicap; 1 mile relay, teams of 4 men each.

The prizes will represent a championship in each class, as these games are to be a permanent affair at the Exhibition. The value of the prizes will be \$20, \$15 and \$10.

Mayor Geary, of Toronto, who is the exhibition director in charge of these games, is taking special interest in them and is leaving nothing undone in the way of making them the most interesting ever seen in Canada.

MOIR IN THE CENTRAL.

Toronto, Aug. 26.—Moir, the murderer, is in the Central Prison, Toronto, on his way to the insane ward at Kingston Penitentiary. He will probably be taken east on the Grand Trunk to-night.

WASH TUB CONTEST.

A "wash-tub" contest is the latest novelty in sporting events, a New Jersey woman having established the record of washing and hanging out 135 pieces of clothing in an hour. The idea is respectfully suggested to the managers of fall fairs, both as an added attraction and as a stimulus to practical housewifery.

HAS USED DR. FOWLER'S

EXTRACT OF WILD STRAWBERRY

For Over Seventeen Years

FOR DIARRHOEA, DYSENTERY, SUMMER COMPLAINT, ETC.

Mrs. Holliday, Box No. 86, Wrocton, Ont., writes:—"I must say that we have used Dr. Fowler's Extract of Wild Strawberry for over seventeen years, and have found nothing to equal it for all Summer Complaints, Diarrhoea, Dysentery, etc. Our house is never without a bottle of the Extract and I can recommend it to be kept in every home, especially where there are children."

You run absolutely no risk when you buy Dr. Fowler's Extract of Wild Strawberry, as it has been a standard remedy on the market for over sixty-five years.

A few doses have often cured when doctors' prescriptions and other remedies have failed. Its effects are marvellous. It acts like a charm. Relief is almost instantaneous.

We wish to warn the public against being imposed on by unscrupulous dealers who substitute the so-called Strawberry Compounds for "Dr. Fowler's."

Ask for "Dr. Fowler's" and insist on getting it, as the cheap imitations may be dangerous to life.

The original is manufactured only by The T. Milburn Co., Limited, Toronto, Ont. Price 35c.

Sylvester Auto-Thresher in Operation at Dunoon's Farm -- An A - 1 Invention

A representative of The Watchman-Warder was invited to inspect the new Sylvester auto-threshing machine while at work at Mr. D. Dunoon's. The machine was highly complimented by all witnessing its operation, among them being A. Robertson, Mayor Begg, John Carew and C. Chittick, who pronounced it the perfect.

The engine works very fine, runs quite steady, and is easily handled by the attendant, one or two half turns of the crank is all that is necessary to start the machine.

The separator is also giving good satisfaction, doing good clean work. The engine is the 4-cylinder opposed type, developing 45 break h.p. The separator is of the regular standard size machines in use.

This machine is specially constructed to meet the requirements of the farmers in the Northwest; it will travel through the fields between the rows of stooks and thresh as it goes along, leaving the straw in the windrows behind the machine. It will thresh from fifty to one hundred acres per day.

Nine men will operate it to its full capacity, doing away with from nine to ten spurs of horses. It has been well tested during the past five years, while Mr. Sylvester has been working on it, and he claims that it is in first-class working condition, and able to compete with any machines in use both for threshing and plowing. He has given special attention to the traction part adapting it well for plowing. When Mr. Sylvester first conceived the idea of making a machine to travel through the fields and thresh from the stooks he did not anticipate that plowing would be done so extensively with gasoline engines, although he had

planned for taking the separator off and using the traction for plowing by removing six bolts.

The plowing with gasoline engines has become so popular in the West that it was necessary to give attention to this part of the machine, and changes had to be made to make the traction part well adapted for plowing purposes. Mr. Sylvester is now confident that he has a first-class machine in every particular and able to go in the field beside the best of them.

Mr. Sylvester will go immediately with men from the factory to the West, where he intends to put those machines to work and thoroughly demonstrate their value. The development of this machine has been attended with many obstacles, both financial and adverse criticism, as it has been looked upon as such an innovation from the present mode of doing this work that its success was considered impossible.

No many of the so-called experts could not understand how certain difficulties could be overcome, but Mr. Sylvester can now show a perfect machine in every particular. This he deserves great credit for accomplishing, and the citizens of Lindsay should appreciate his sticking to it and making a success in the manufacture of the best implement made on the American continent.

There is a big demand in the west for a thrasher of this kind and should a sufficient number be sold the Lindsay plant will be increased and the machines manufactured in Lindsay.

The engine was shipped yesterday to Brandon, where it will be placed in a thrasher and used this fall.

Lindsay Lady Home From Trip Abroad

After being absent from town for two months Miss Wakely, of the dry goods and millinery firm of J. W. Wakely, returned on Tuesday.

The trip was a combination of business, and pleasure and when not sight-seeing Miss Wakely was visiting the big wholesalers of the old county and the continent.

A Watchman-Warder man had a pleasant chat with Miss Wakely this morning and left convinced that the only real vacation trip was to be found across the water. In England Miss Wakely visited Liverpool, London, and Manchester. Passing on to Scotland she spent a time at Edinburgh and Glasgow.

A trip to the old country would not be complete without seeing Paris, and this was the next point of travel. Germany came next and stops were made at Munich, Neuremberg, Weisbaden and Cologne.

The historic "Passion Play" of Oberammergau, Bavaria, was one of

the most interesting things seen by the Lindsay lady. The play depicts scenes in the time of Christ and is said to have first originated in the sixteenth century. It is given every ten years and requires 800 performers, beginning at 8 a.m. and finishing at 6 o'clock in the evening.

The "Passion Play" is given in fulfillment of a vow made in 1633 to express thus the gratitude of the villagers for the cessation of a plague.

A trip through the Austrian Tyrol Mountains and the Bavarian Highlands was another outstanding pleasure jaunt. In a coaching trip of ten hours the traveler was in three territories, that of Austria, Bavaria and Germany.

Miss Wakely describes the trip as easily the most satisfactory and pleasurable one she has undertaken. Patrons of the store will look forward with pleasure to the viewing of the large purchases made abroad.

LINDSAY BOY LEADS.

Rev. A. F. Barr leads—others follow. The rector of All Saints is first in the field with a motor cycle. Automobiles are becoming common—the woods are full of them. Motor cycles are in a class by themselves. They have the unique disadvantage, however, that you can't take your best girl with you for a ride.

A bicycle is an unsocial vehicle—and as Rev. Barr is a social mortal, a motor car to carry at least two would seem to be more to his taste.

Howbeit, we can't have everything perfect in this imperfect world.—Whitby Chronicle.

Rev. A. F. Barr referred to above is a son of Mr. C. D. Barr, county registrar.

HORSE DROPPED DEAD.

Bellefleur, Aug. 25.—A peculiar incident happened in this city this morning. Walter H. Reeves, a clever hockey player, died here yesterday. It seems that his father owned a horse which the dead boy used to drive. This morning a brother of the deceased hitched up the horse and drove to the front of the father's house, where the dead body of Walter Reeves was lying. The horse whinnied a few times, looked around as though he were looking for someone and dropped dead.

Children Cry FOR FLETCHER'S CASTORIA

ALTERATIONS COMMENCED

WORKMEN COMMENCED ON THE AGRICULTURAL BUILDINGS.

Secretary Keith is a busy man these days, preparing for the annual Lindsay Central Fair, and already a large number of entries have been received and properly booked.

This morning a gang of workmen commenced work on the proposed alterations to the various buildings at the fair grounds. This work will be pushed to completion as soon as possible.

SUCCESSFUL LINDSAY BOY.

Mr. Leon Koyle, formerly of Lindsay, has become a member of the real estate firm of Macdonald and Koyl at Saskatoon. Leon's many Lindsay friends will be delighted to hear of his success in the West.

TANK FELL.

Kingston, Aug. 24.—A big tank full of whey at the Moscow cheese factory crashed down through the ceiling of the make room. The stays holding up the tank gave way. Fortunately the cheese-makers were not in the room when the accident happened.

STOLE A BICYCLE

Chief Davidson, of Sunderland, was in Fenelon Falls recently where he located Colin Ensign, the fifteen year old lad wanted for purloining a bicycle which he had borrowed and subsequently sold. Ensign was conveyed back to Sunderland where he was tried before N. J. Fair, J. P., and committed to Whitby to await trial.

STILL COMING TO CANADA

Grand Trunk Pacific Train No. 1 had four extra cars out of Winnipeg August 18th, with the American farmers for different points along the line in the Prairie Provinces. These home-seekers laugh at the fake back to Uncle Sam stories. Many of them have already visited the West and have located their homesteads or bought land. They argue that a new country which has never had a total crop failure in a quarter of a century is a good gamble.

AUTO THRESHER AT WORK.

During the past day and a half throngs of citizens and many farmers have visited the home of Mr. David Dunoon, at the head of Victoria-ave., where the Sylvester Auto-Threshing Machine has been at work. The machine was recently completed and will be sent to the West in a few days.

The machine works perfect and threshes the grain as fast as three men can put it on the table. It is a powerful machine with a 44 H.P. engine.

STRONG GALE.

Sturgeon Point, Aug. 26.—Yesterday afternoon the strongest gale of the season prevailed on Sturgeon Lake. The wind was from the south and straight on shore, and the Manita was obliged to land at the lower dock, as it was too dangerous to land at the upper.

However just as it landed a storm broke so suddenly that everyone was drenched before they got to Walkey's store. The heavy rain had calmed the lake somewhat and lessened the wind, so that the Manita on her return trip called at the upper wharf. About five o'clock the wind got up again more from the west, and blew hard last night and to-day. The only small boat that ventured out on the lake was the good dinghy, "Cuspidor," with a staunch crew of four, consisting of Carleton G. Warner, A. Stewart, Eric Stewart and Leslie Warner. They sailed across to Dr. Cavin's, then across to Pleasant Point and then away along Sturgeon and finally landed the ship at the sand bar. Some excitement prevailed on the shore for a while, as some thought the boat had upset, because it disappeared so fast around the point. The boys thoroughly enjoyed the trip and were certainly travelling some.

All the Sturgeon Point cottagers who will be in Lindsay Saturday should patronize the ball game, Peterboro vs. Lindsay, which promises to be exciting.

YOUR BLOOD IS TAINTED

ULCERS, BOILS, SWOLLEN GLANDS, BLOTCHES, PIMPLES, AND ALL SKIN AND BLOOD DISEASES ARE COMPLETELY CURED BY THE NEW METHOD TREATMENT

We desire to call the attention of all those afflicted with any Blood or Skin Disease to our New Method Treatment as a guaranteed cure for these complaints. There is no excuse for any person having a disfigured face from eruptions and blotches. No matter whether hereditary or acquired, our specific remedies and treatment neutralize all poisons in the blood and expel them from the system. Our vast experience in the treatment of thousands of the most serious and complicated cases enables us to perfect a cure without experimenting. We do business on the plan—Pay Only for the Benefit You Derive. If you have any blood disease, consult us Free of Charge and let us prove to you how quickly our remedies will remove all evidences of disease. Under the influence of the New Method Treatment the skin becomes clear, ulcers, pimples and blotches heal up, enlarged glands are reduced, falling out hair grows in again, the eyes become bright, ambition and energy return, and the victim realizes a new life has opened up to him.

YOU CAN ARRANGE TO PAY AFTER YOU ARE CURED
