

**When You Shave**

Do you have troubles? Does your razor pull? Does your soap fail to produce a satisfactory lather? Does your face smart and burn after the operation?

**SHAVING SUPPLIES**

From our splendid stock will overcome your difficulties. Much depends upon the quality of your razor, strop, soap, etc. Examine our shaving supplies and learn how little it costs to own the satisfactory kind.

**A. Higinbotham, Druggist**

Lindsay, Ont.

**PLEASANT POINT.**

Pleasant Point, Aug. 29. — Miss Ella Twamley, of Lindsay, is visiting Mrs. Reub. L. Morgan. Miss Cameron, of Toronto, is visiting Mrs. Nieghorn. Mr. Nieghorn arrived Friday evening from Toronto to accompany his family home to-day. Mr. Morris arrived Friday evening from Toronto to spend a few days on our point.

Dr. Riggs and family returned to their home in Toronto on Saturday last.

Mr. Wilson and family returned home to the city on Friday after a two month's vacation.

Mr. Calvert and his friend Mr. Underhill have vacated their cottage again for the season.

Miss Rosie Way visited her town friends to-day.

On Friday evening one of the big events of the season took place when Dr. Irvine and Reub. Morgan supplied corn and a grand corn roast took place and every person thoroughly enjoyed themselves. Dr. Irvine and Matt. Sisson attended to the wants of the ladies. The ladies supplied the butter and salt, while the children stood around ready to help in the getting rid of the goods. The excellent bonfire warmed things up and made quite a cheerful scene. During the evening apples and potatoes were roasted. A yacht-load from Sturgeon Point came over and were attracted by the fire. They were invited to stay and join with the campers, but they were somewhat shy, not being used to such frivolity on their own side and did not like to indulge too much. After all had had enough a program was given by several cottagers. First, Mr. Matt. Sisson told a very funny Scotch story which caused a great deal of applause. Dr. Irvine was then called upon for a speech and responded with a brief but well-put speech. The next thing on the program was a dance by Reub. Morgan. This was a very difficult dance and was greeted with loud applause. The next was a quartet by Dr. and Mrs. Irvine, and Mr. and Mrs. Matt. Sisson, and then a number of popular choruses were sung and the meeting was brought to a close with "God Save the King."

Mr. Wilson and family returned home to the city on Friday after a two month's vacation.

Mr. Calvert and his friend Mr. Underhill have vacated their cottage again for the season.

Miss Rosie Way visited her town friends to-day.

**A Plea For the New Teacher**

The new teacher has come. Possibly she will not be your ideal, yet, again, she may be, if you give her a chance. At all events, give her a cheerful welcome; let her feel that she has come among friends and that she is to be regarded as a partner with you in making the very best of that boy or girl of yours. The chances are that it will take the two (or three) of you, working to the very best of your resources, to accomplish that. The little lad swinging off, whistling, to school, bare-footed, book-bag on back, or the little girlie toddling along basket in hand, may look very innocent, and they are innocent, but think of the possibilities in them—above all, of the possibilities for good—for development of intellect and character under the right influences! Just think of them, and then realize the responsibility, the tremendous responsibility, to both parents and teacher.

The teacher is hired to do your child good, but you cannot throw all the responsibility on her. If you are wise, you can help her more than you think; if you are foolish, you can undo much of the good she might otherwise accomplish.

Above all do not suffer yourself to become prejudiced and indignant over the tales that may be brought home from school. Don't express your opinion before the children until you have sifted the matter to the bottom—that is, if it is important enough to sift. Go to the teacher, or better still, ask her to tea—and talk the matter over, not in a spirit of storm and criticism, but kindly, casually and quietly. There may be, you know, misunderstandings at school, as well as elsewhere, and the right kind of teacher will be pleased to straighten things out. If it should happen that there has been fault and on the part of your child, be "big" enough to accept the fact, then talk the matter over afterwards with the child. Such a course will place you on the right footing with the teacher, and will have the best possible influence over the child. He will see that you are honest and that you will not condone wrong even in him. The teacher, on the other hand, will recognize that you are her friend and you need not be surprised to find her warm hand extended to you, figuratively or otherwise, in an unspoken pledge to unite with you more firmly than ever in making the best possible man or the best possible woman of the little delinquent.

If the teacher is not following just the course that you would like, be out-and-out about it, in a frank and kindly way, and to the teacher himself. Any teacher would rather have you do this than find out some day that you have been disapproving in secret or storming to the neighbors about it. Grasp the fact, at the very beginning that the teacher must be your friend at least so far as your children are concerned, and that if she is not, it is your duty to the children to see that she becomes so.

If you think of anything that would be an improvement in the school suggest it. So long as you do this in the right way, you will not be misunderstood. There is a world of difference between meddling and suggesting.

You may feel that your age is twice that of your teacher, that you have learned much by experience,

that ideas have come to you which you cannot expect this young man to hold at this stage of her life—then, why not interest her in those things? Why not try to make her an enthusiast over them, even as you are? You can probably do this if you go about it in the right way. But you must not nag; you must not dictate; you must be ready to listen to contrary opinion, if there are any—for it may be that there are better opinions than yours; and that, possibly, even this young teacher holds them. Never forget for an instant, that the least manifestation of "business" on your part will undo much of the good you aim at. Bossiness never pays; it is too unpopular to pay, and brings only dislike, and resentment wherever it appears. You in most situations in life, as in this, must supplant it by tact, which, for may be spelled with a capital.

Again, let the children hear nothing but good of the teacher from your lips. It is most important that their confidence in her shall not be broken, and if you break it on one point, the chances are that you have broken it on all, and that henceforth you have not only lowered the prestige of the teacher, but decreased her influence throughout the school, since each child you send to it is bound to be a disseminating point of his suspicions among the other children. Children are very susceptible and to them small things loom large. You cannot tell how the careless word which you have spoken may be magnified in their little minds. Let them see that the teacher is your friend. "Father's friend" or "mother's friend" can accomplish infinitely better results than can "father's enemy" or "mother's enemy."

With such an understanding, too, the relations all round are so much more likely to be pleasant and agreeable. The school should be a home to the children, and should be referred to as such. If you say, "Never mind, the teacher will lick you for that!" or "Just wait till the teacher gets hold of you!" in what frame of mind, think you, do you send the child to school? Fear has made many a truant, but it has made very few scholars.

As a final word, if the schoolhouse lacks appliances, and you recognize that it does, do not be afraid to take steps about it. No workman can do his best work with poor tools nor can the teacher. In most places in Ontario the inspector now threatens to take away the Government grant if the necessary things are not provided; yet there are many helpful things outside of these few maps, charts, counting-boards, etc., which the necessities demand. What about a school library? What about blotting-paper, mounting-paper and cases for pressed weeds and weed seeds? What about the boxes of plasticine, and all the "busy-work" odds and ends that are so helpful to the tiny tots? Try the trustees in regard to these things, if the teacher's pleadings have been ineffectual; and if you can get them to grasp the fact that little humans are of as much value as pure-bred cattle and horses, they will listen. If this fails, join the teacher in getting up a school fair, a garden party, a concert, anything that will bring back the necessary dollars. No effort will be made in any other direction is likely to be as profitable.

at 8 p.m. Tickets are being sold at 25c., and a really good time is expected, although the moon will scarcely rise till they get home again. Still, that makes small difference.

Our summer visitors still come, but many are pulling up stakes and hiking it back to their own firesides. Among the latest arrivals are Mr. Harry Lambertson, of Pittsburg, and Mr. Shuey of Youngstown, Ohio, while all are enthusiastic over the Kawartha Lakes as an ideal pleasure resort.

We are pleased to see that Mr. John Kingsboro, of the McClary Stove Co., London, has not forgotten us. Mr. Kingsboro was for many years the manager of the A. Orr estate store now conducted by Miss M. H. Orr, leaving here some 20 years ago to go into business for himself at Kimmount, moving latterly to his present home.

The report of the agricultural societies for Ontario for 1910 is to hand. In it is some very valuable information, and the Verulam Agricultural Society may well feel proud of their showing. Not only do they stand next to the county fair in order of merit, but unique in that they are the only fair drawing a grant for a seed fair, besides drawing grants for other features. In the matter of entries, receipts and disbursements, they come next to the county fair. They show a more even distribution of prize money over horses, cattle, sheep, swine and miscellaneous products than any other fair in the county—the county fair only excepted. While their government grant has increased almost 37 per cent., a good showing. This goes to show what a good live body of directors can do, and what an energetic secretary such as the directors here have, can accomplish. The directors this year are planning to make the fair bigger and better than ever. Last year they ran into the only two wet days of the week. This year, given fair weather, they should surpass themselves. We hope they may not be disappointed.

**THE DUCK SEASON.**

The season during which wild duck and other water fowl may be shot will open on Sept. 15 this year instead of Sept. 1 as heretofore. The superintendent of game and fisheries trusts that sportsmen will remember this fact, observe the law and encourage their friends to do the same.

**TO START CAMPAIGN.**

A campaign having for its object the prevention of young children from performing in moving picture theatres, is being undertaken by Mr. J. J. Kelso, superintendent of neglected and dependent children. A pamphlet is being prepared for circulation among Children Aid Societies in all parts of Ontario and among proprietors of the five-cent theatres themselves.

**ANOTHER WOMAN CURED**

**By Lydia E. Pinkham's Vegetable Compound**

Gardiner, Maine.—"I have been a great sufferer from organic troubles and a severe female weakness. The doctor said I would have to go to the hospital for an operation, but I could not bear to think of it. I decided to try Lydia E. Pinkham's Vegetable Compound and Sanative Wash—and was entirely cured after three months' use of them."—Mrs. S. A. WILLIAMS, R. F. D. No. 14, Box 39, Gardiner, Me.

No woman should submit to a surgical operation, which may mean death, until she has given Lydia E. Pinkham's Vegetable Compound, made exclusively from roots and herbs, a fair trial.

This famous medicine for women has for thirty years proved to be the most valuable tonic and renewer of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ills, and creates radiant, buoyant female health. If you are ill, for your own sake as well as those you love, give it a trial.

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, and always helpful.

**Seven Real Coons In One Orchard**

Bethel, Rmily, Aug. 26.—The berry crop in this vicinity is over again for another year. On an average there has been a fair yield of both strawberries and raspberries.

Those in attendance at the Epworth League recently had the pleasure of listening to a very inspiring and interesting address on Deaconess Work by Miss Mabel Moore (Deaconess Work from Peterboro). Miss Moore leaves this month for her appointment in Collingwood, and the best wishes of the league for every success in her work will go with her.

We are sorry to learn of the illness of Miss Lillian McCarrell, daughter of Mr. Andrew McCarrell, and hope for a speedy recovery.

While Mr. Sayward Switzer was starting out to League last Thursday evening, he discovered in his orchard seven coons. A few were in the trees, while the others were busily engaged on the ground eating the grain. However, as the fur of coons is not very good at this season of the year, no attempts were made to molest.

Mr. and Mrs. S. Devell have purchased a farm in Smith township, near Lakefield, and have sold their property in this neighborhood to Mr. William Kerr, who with his wife and family have returned from a four months' visit to the west.

School has commenced, and is under the management of Miss M. Fee. Miss Fee has been teaching for the past ten years, and the section, we feel are to be congratulated on getting such an experienced person.

**EXODUS TO THE WEST**

The exodus to the Northwest still continues and every excursion, either via C.P.R. or G.T.R., sees large numbers starting for the great Canadian wheatbelt. A number of young men from Victoria county have already departed for the West, and others will leave on the next two excursions and will help to garner the great harvest in that part of the country.

**FISH LADDER NEEDED**

Capt. Carson, of the Government Steamer Nalad, was in Port Perry this week, and he stated that a Warder reporter, the other day that the people of that town earnestly wished that the Government would build a fish ladder at the Lindsay dam. They claim that that they would get far more beauties of the piscatorial tribe if such a ladder was installed. They also claim that some of the best feeding grounds for fish in America are to be found in Lake Scugog.

**NEW FALL DRESS STUFFS ATTRACTING ATTENTION**

Our Autumn showing of silks and dress goods is attracting the attentions of "the women who know." With more goods pouring in every day from the trains and more goods pouring out via our customers the dress goods section presents a very busy appearance.

Suits and costumes are being planned in great numbers and one with imagination can almost see the beautiful creations which are to arise from this assortment of stuffs.

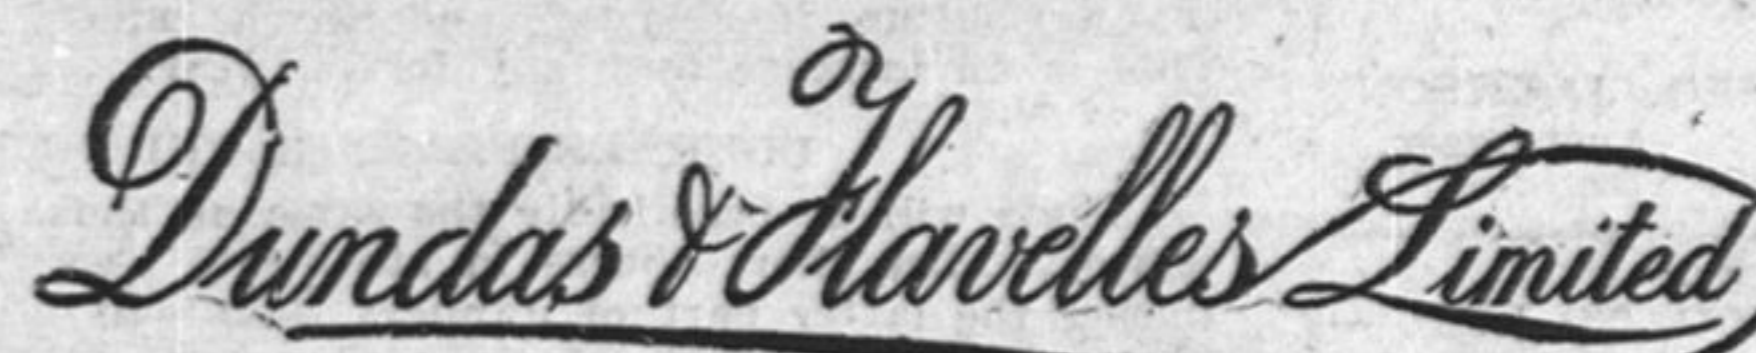

**A Great Showing of Worsteds and Fancy Suitings**

Latest Diagonal suitings, latest Worsted suitings, latest Cheviot suitings, latest Serge suitings, latest Wale suitings latest Homespun suitings, magnificent collection of broadcloth and venetians in all the leading colors for fall and winter wear.

**Handsome New Silks**

New Dresden silks, New Persian moussellin's, new Paillettes, new oriental satins, new Taffettas, new Tamolines all are here in profusion of design and color.

Surely from such good stuffs as these you will be able to select what you want for fall and winter wear.

**HECLA FURNACE**

**Is Guaranteed Gas-Tight and Smoke-Tight**

20 years use has proved the strength of this guarantee.

In the "Hecla" Furnace, the cast iron top and bottom of the radiating chamber, and the steel sides, are fused.

That is, they are heated at white heat until they become practically one piece of metal.

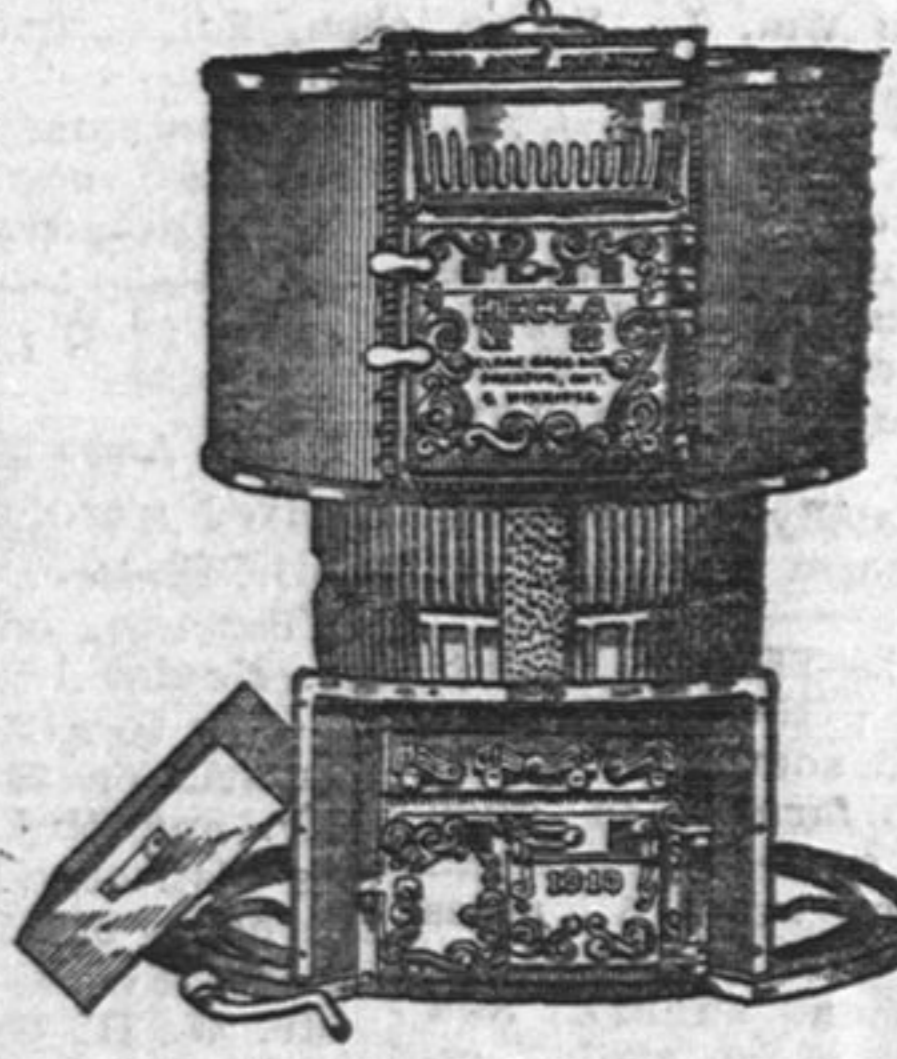

These Fused Joints are absolutely and permanently tight. There is no opening, nor any possibility of there being an opening, between the fire and the warm air chamber. 20 years use, proves this.

No other furnace has Fused Joints—they are exclusive "Hecla" patents. Insist therefore on a Hecla.

These Fused Joints are absolutely and permanently tight. There is no opening, nor any possibility of there being an opening, between the fire and the warm air chamber. 20 years use, proves this.

These Fused Joints are absolutely and permanently tight. There is no opening, nor any possibility of there being an opening, between the fire and the warm air chamber. 20 years use, proves this.

If you are going to put in a new furnace this year, let us plan the heating arrangements, and tell you just what it will cost to install the right furnace to heat right. Write for free copy of our book "Hecla Heated Homes."

CLARE BROS. & CO., LIMITED, - PRESTON, Ont. D. CINNAMON, Lindsay, Ont.—Agent.

**Verulam Show is One of the Best--News From 'Caygeon**

Bobcaygeon, August 29.—Construction work was stopped on Little Bob bridge Saturday noon, and Clerk McNeill was down and paid off the men. One car of steel is already here, the other is expected any day, together with the men to put it into place, after which the cement floor will be put down. It is expected to be ready for use in about a month or six weeks.

Mr. Fletcher Staples, B.A., junior pastor on the Bobcaygeon Methodist

circuit here, has received and accepted a call as teacher in Oriental languages at Albert College, Belleville, and will leave for his new field of labor this week. During his short stay of two months he has by his genial, pleasant ways and by his able pulpit work endeared himself to his people. We understand the whole circuit are sorry to lose so able a preacher, but are hoping that his chosen life of college work will prove beneficial both to himself and the work in which he will engage. It is not known definitely yet who will be his successor.

The Methodist congregation announce their anniversary services on Sept. 11 and 12. Rev. A. Mansel Irwin, of Newcastle, will preach harvest home services on Sunday the 11th, and a tea with addresses by Rev. A. M. Irwin and others on Monday evening.

The Union S. S. excursion to Chymong on Wednesday promises to be well patronized.

The Bobcaygeon brass band, which held a moonlight outing a few weeks ago, ran into wet weather, so they again advertise another to Fenelon Falls on the 31st inst., leaving here

**Does not Color the Hair**

**Ingredients of Ayer's Hair Vigor**

Sulphur. Destroys germs that cause dandruff and falling hair. Cures rashes and eruptions of scalp. Glycerin. Softening, healing. Food to the hair-bulbs. Quinine. A strong tonic, antiseptic, stimulant. Sodium Chlorid. Cleansing, quiets irritation of scalp. Capsicum. Increases activity of glands. Sage. Stimulant tonic. Domestic remedy of high merit. Alcohol. Stimulant, antiseptic. Water. Perfumes.

Show this formula to your doctor. Ask him if there is a single injurious ingredient. Ask him if he thinks Ayer's Hair Vigor, as made from this formula, is the best preparation you could use for falling hair, or for dandruff. Let him decide. He knows.

J. C. AYER COMPANY, Lowell, Mass.
