### TIPS ON THE LATEST MODES

The neck bow may be of anything from net to velvet. Rust red is a hue which Paquin is forcing to the fore. The milliners say in the autumn flowers will flourish. Some exquisite shell cameos are being imported this year. The lace on hat pad will probably hold on through the winter. A self-squeezing straining bag for jellies is a new household device. A fairy-like figure is needed to be able to wear the new flower girdles. White plushes, velours, beavers will all be good, velvet will be the fabric par excellence. Chartreuse, with its mingled shades of yellow and pink, is a rival to blue for Paris evening frocks. Venise edgings of the more spirited sort are to be employed in various ways in the fall toilettes. Blouses of crepe tulle with collars and cuffs of black tulle are considered one of the leading modes. There has never been a time when a woman's wardrobe, to be complete, required so many accessories. Emerald green is the rage in Paris and it is particularly magnificent when embroidered with silver.

### Regularity

of the bowels is an absolute necessity for good health. Unless the waste matter from the food which collects there is got rid of at least once a day, it decays and poisons the whole body, causing biliousness, indigestion and sick headaches. Salts and other harsh mineral purgatives irritate the delicate lining of the bowels. Dr. Morse's Indian Root Pills—entirely vegetable—regulate the bowels effectively without weakening, sickening or griping. Use **Dr. Morse's Indian Root Pills**

The sleeves of afternoon and evening dresses are extremely short, and naturally the very long glove very wrinkled over the arm is worn. Many girls in the employ of a firm in New Britain, Conn., have quit work because they were notified not to wear slit skirts and shadow waists. The coming fall promises better for the veiling industry than any season during the past five years, and the beauty spot kind are being featured. Favorite Paris shades are putty, absinthe green, eggplant purple, Sevres green, Florentine red, scarab green, mandarin yellow and oakleaf brown. Touches of crimson satin are introduced by French modistes on costumes of black satin or moire, which promise to enjoy an unprecedented popularity this fall. Though the vogue for Japanese prints is not on the wane dealers declare that the greatest demand now is for good reproductions of the masters, old and modern. Mrs. Harriott Stanton Blatch wants pockets in women's skirts and a place at every fair where women can check their babies so they may ramble around and enjoy themselves. The all black hat, while exceedingly coquettish on a young face, is apt to be very trying to those who have reached the stage of forgetting their birthdays at least every other year. A revival of the present is the long scarf shawl, which is wrapped around the figure like a mantle, often made with crepe de chine outlined with an ostrich feather band or are of charmose of chiffon, plain or flowered. One of Newport's most famous well-dressed matrons appeared this week in one of the latest creations, a gown of the peg-top order, made of white lingerie, with a hoop running through the material just below

the hips, and the gown was covered with heavy white lace.

### SNAP SHOTS.

Hot-headed—a volcano. First Telephone Girl—"Do you know Mr. Ringer?" Second Telephone Girl—"Not by sight, only to speak to." The church organist doesn't work on Sunday; he only plays. When you eat a cruller, do you swallow the hole of it? POINT OF VIEW. Bachelor Friend—"I understand you have traced your wife's lineage back to William the Conqueror!" Mr. Henpeck—"Yes! An' he must 'a' been some fighter, believe me."

### ON THE WRONG LINE.

Lovers were they, engaged withal. She was a telephone girl; he, a telegraph clerk. They were sitting round the fire-side discussing happy days to come, when they should have their own sweet home. From one little detail and another, the conversation finally drifted to the homely subject of lighting fires. As a matter of opinion, he ventured the idea that the man should lie in bed and rest in the morning, to fit himself for the day's work. For a few moments there was complete silence. Only Amelia's deep-drawn breathing was audible. "Joshua," she said sweetly, but firmly, at last: "Ring off, please! You're on the wrong number!" Few men are strong enough to keep their faces closed. Many a courtship has been converted into a battleship. It's easy for the man with a canning did opinion to eliminate friends.

## A MESSAGE FROM A WOMAN TO WOMEN

"Every Woman Should Take 'Fruit-a-tives'"

LAKELT, ONT., MAY 12th, 1911 "Kindly publish this letter of mine if you think it will benefit other women who might be afflicted with the diseases I have had in the past, but am now, thanks to 'Fruit-a-tives', completely cured of. It is my firm belief that every woman should take 'Fruit-a-tives' if she wants to keep herself in good health. Before taking 'Fruit-a-tives', I was constantly troubled with what is commonly known as 'Nerves' or severe Nervousness. This Nervousness brought on the most violent attacks of Sick Headache, for which I was constantly taking doctors' medicine without any permanent relief. Constipation was also a source of great trouble to me and for which the Doctors said 'I would have to take medicine all my life', but 'Fruit-a-tives' banished all these troubles and now I am a well woman." Mrs. FRED. GADEK. 50c a box, 6 for \$2.50—trial size, 25c. At dealers or sent prepaid on receipt of price by Fruit-a-tives Limited, Ottawa.

## How Swindler Pulled the Strings

The modus operandi of one James Ray, who swindled the Standard Bank, was so genuinely good that there is not a manager on the map but would have fallen for it. Three or four days ago Mr. Alcorn, the manager of the Standard Bank, in this town received a letter from the bank at Kindersley, Sask.

A GOOD CUSTOMER. The letter stated that Mr. Ray, a particularly good customer of the bank at Kindersley was going to take a trip east on business, and that Lindsay would be included in his itinerary. Mr. Ray, the letter stated, might find it necessary to draw on his account while on the trip, and the amount required at Lindsay would be in the neighborhood of \$2,500. The letter was shown to The Warder early this morning by Mr. Alcorn. It was signed by the manager and accountant of the branch, and contained also a specimen signature of the high financier, Mr. Ray.

Mr. Ray appeared and entering the bank he dipped the pen in the ink and calmly dashed off a check for no less than \$2,500, appending exactly the same signature that the bank had received a few days ago. There was no flaw in the whole procedure, every item in the regular proceedings being lived up to in fullest detail.

DID NOT SUSPECT. Mr. Alcorn stated to a Warder man this morning that there was nothing at all unusual about the proceedings. "We get hundreds of such letters from our branches in all parts of the country. It is our way of extending credit to our customers while on the road."

## DETECTIVES SENT TO JAIL

Haileybury, Ont., Sept. 5.—Frank Miller and Frank Rouleau, the two liquor detectives in the employ of the Provincial License Department at South Porcupine, were sentenced to six months each at hard labor in the Central Prison, Toronto, after having been found guilty of having accepted \$25 bribe from Mrs. Margaret Brennan, a South Porcupine saloon-keeper, in order to stave off prosecution against her house.

The payment of the money took place in South Porcupine on July 29, and the men were given a preliminary hearing before the Magistrate on August 4th, and remanded for trial to North Bay jail, where they have remained until the speedy trial they elected to have held before Judge Harman.

A. G. Stagt, counsel for the prisoners, asked Judge Harman for a lenient sentence for Rouleau, who is a seventeen-year-old youth, but his Honor could see no reason why one sentence should be lighter than the other.

## BROKE HIS NECK.

Toronto, Sept. 6.—While teaching a class of boys a new trick in gymnastics, George A. Barnes, aged 24, slipped from the parallel bars, at the Central Y.M.C.A. last night and broke his neck. He died a short time later, while being carried up the steps of Grace Hospital. Barnes was assistant physical director of the institution, and came from Sherbrooke, Que. a weev ago.

Some girls who are anxious to get married are not so anxious to stay married. If the late fads had kept up every woman would need two heads to pile her hair on.

## ARE THE FARMERS OF CANADA HANDICAPPED FOR CREDIT

(From an Article in The Farmer's Advocate.)

"The Canadian farmer suffers the greatest handicap in the world in the matter of facilities for borrowing money." To this effect J. H. Haslam, of Regina, Sask., is quoted in an interview upon his return from Europe, as chairman of a commission to investigate agricultural credits. While the Canadian farmer (meaning, presumably, the Western farmer), pays anywhere from eight per cent. up to 50 per cent. for advances, the European farmer, with less land and a smaller investment, can secure almost any amount he may ask for at from two to six per cent.

The report of the commission will suggest action to secure a credit organization. In France money is at the ready disposal of the farmer at a rate of interest ranging from two and a half to three per cent. In Germany he pays from three and a half to five per cent.; in Italy from four to six per cent.; in Belgium and Holland from three to four per cent.; in Austria-Hungary four and a half per cent., and in Russia from four and a half to six per cent. In nearly every country the farmer obtains money as cheaply as or more cheaply than the banks. The Government of Austria-Hungary recently paid six and a half per cent. on a

loan of \$50,000 from the United States, and yet farmers in that country can obtain money without difficulty, at two per cent. less. In the interview, Mr. Haslam is represented as drawing a significant distinction between banking in Europe and in Canada. In the older continent, he says, the man who owns the land and produces something the country must have is held in the highest respect. The banker acts merely as an agency to provide the farmer with whatever capital is required for him to carry on his operations. The Government has such control of the banks that they are to every purpose Government utilities. In the old countries bank managers never receive such handsome salaries as they do in Canada or the United States. The Bank of France is the greatest financial institution in the world, yet the head of it receives only \$15,000 per year. Whether the remarks about the European banks and their service to the agricultural community are intended to apply to the whole banking system is not made clear, but certain it is that the European farmer has the advantage of a system of agricultural credit unknown in Canada outside the recently organized co-operative credit societies in Quebec.

## Object Lesson In Good Roads

Missouri had a "good road day" recently and another yesterday, and it is estimated that a quarter of a million of the residents of the State turned out and voluntarily assisted in the improvement of the highways of the Commonwealth. In order to set an example to the people, Governor Major, of that State, and Governor Hodges, of Kansas, worked on the dirt roads with the heat at 100 degrees in the sun. It is believed that the results accomplished will be worth at least a million dollars to the State of Missouri. It will be worth a great deal more than that to the people of the United States merely as an object lesson in the importance of the good roads movement. If the people can be fully awakened to the significance of this business it will not be many years before the highways of America will be a source of pride instead of objects of apology, and the method might well be followed in Canada. The Governor of this State and all who are interested in the good roads movement are moving along intelligent and sane lines, and there is every reason to expect that their efforts will be crowned with success.

## The "Safety First" Movement

As stated in The Warder, the G. T. R. has announced the inauguration of a "Safety First" movement in connection with its system. The name explains the real object of the movement, which is to prevent, as far as possible, all damage to life and property, and which is already accomplishing a great deal on certain trunk lines. It is the purpose to hold "safety meetings" at every important centre on the system, when practical instruction will be given to all the employees concerned. The stereopticon will be used to show the difference between safe and unsafe conditions, and committees will be organized on all divisions to discover and correct unsafe conditions and practices. There can be no doubt that the public will cordially welcome the movement, says the Christian Guardian, and will gladly welcome the movement, says the Christian Guardian, and will gladly committed itself to this policy.

### ONE OR THE OTHER.

Dick—"When I was in the city last week there was one thing struck me very forcibly. Cap—"What was it; motor-cycle or automobile?" COMING THIS WAY.

Collingwood is encouraged to believe that the Grand Trunk people will shortly begin the erection there of an elevator, with a capacity of a million and a half of bushels. Now that the Meaford elevator is out of existence, the G.T.R. has practically no grain trade to speak of on the Northern Division, the grain from Midland and Tiffin all going by Orillia and Lindsay.

The chap who insists on getting what is coming to him never stops at that.

When a woman rattles the dishes more than usual while preparing supper it's a sure sign that her husband will hear something drop when he comes home. Some spinsters advance step by step until they become stepmothers. A woman is unpopular with her neighbors if she never does anything that they can gossip about.

### MARRIAGES

ELLSWORTH—WATSON. In Lindsay, on Sept. 4th, 1913, the marriage took place of Mr. T. H. Ellsworth to Miss Alzina Maud Watson, eldest daughter of Mr. and Mrs. D. Watson, of London, Ontario, at the home of Mrs. J. Moore, 38 St. Patrick-st., the Rev. J. S. McMullen officiating.

Calgary Collegiate Cadets won the King's Cup.

## PILES CURED AT HOME

by New Absorption Method. If you suffer from bleeding, itching, blind or protruding Piles, send me your address, and I will tell you how to cure yourself at home by the absorption treatment; and will also send some of this home treatment free for trial, with references from your own locality if requested. We feel sorry for the poor whose suffragette wife would take him to see a baseball game in a while. Shortly after marriage the knot on the back of a husband's may develop into a thing called a doorknob.

**HOW THIS WOMAN FOUND HEADACHE**  
Would not give Lydia E. Ham's Vegetable Compound for All Rest of Medicines in the World.

Utica, Ohio.—"I suffered ever from a female weakness after came. I had spells and had black spots before my eyes. My back ached and was so weak hardly stand. My face was even my fingernails were colored. I had displaced my bowels. I took Lydia E. Ham's Vegetable Compound and now I am stout, healthy. I can do all my own work and can walk to town and back and tired. I would not give you a Vegetable Compound for all the rest of the things in the world. I tried doctor's and they did me no good." **MARY EARLEWINE, R. F. D. No. 3, Ohio.**

**Another Case.** Nebo, Ill.—"I was bothered years with female troubles and they did not help me. I was so nervous that I could not do my work and every month I had to spend days in bed. I read so many letters Lydia E. Pinkham's Vegetable Compound curing female troubles the bottle of it. It did me more good than anything else I ever took and not cured me. I feel better and not for years and tell everybody you Compound has done for me. I would not be living to-day if it had not been for Lydia E. Pinkham's Compound." **Mrs. HESTER GREENE, Nebo, Illinois.**
