### Superior Equipment and Expert Instructors make the—

### Peterboro Business College

A Most Reliable Institution to attend.

The Shorthand and Typewriting departments has no superior. Touch Typing machine used in new. We have been compelled to double our number of machines already this term. Graduates are continually placed in positions. Address for particulars: WM. PETERBORO, Principal, Business College Peterboro.

### HAPPENINGS ABOUT TOWN

The Best Leather Company is enlarging its buildings.

Adjutant and Mrs. Sims of the Salvation Army will farewell on 5th Street. All are invited to the meet-

The Esturion made its last regu- lar double trip on Tuesday. Here- after she will call at Sturgeon Point when flagged.

Abd. Robson brought some sam- ples of his exhibition pears to this city the other day. They were very good. Thanks.

Preparing opposite the Rider & Co. works has resulted in a depth of nearly 5 feet of water, and a large room for the company's stock of logs.

The Kenosha will run an excur- sion to Bobcaygeon fair on Friday. She will leave the town wharf at 4.30 and start for home at 4.30. The Sylvester band will be on board.

Attended the new Federal College for practical instruction in penman- ship, bookkeeping, arithmetic; day and evening sessions. Correspondence, shorthand, typewriting, office practice, etc.

Mr. W. Powers one of Supt. Be- ne's "faithfuls" had to disrobe in haste one day recently on account of his underclothing catching fire from a coal in his pipe, which he had put into his trousers pocket.

Mr. Andrew Robertson, who for some years has been the Sylvester Company's agent at this point, has secured his connection with Jas. H. Spiller & Son in the fancy seed grain business.

Wilson C. Jenkins, the well-known prospector of the north, was in town yesterday on his way home from the north. He had with him 10 lbs. of dynamite which he intended to use in blowing wolves to pieces and blasting for minerals.

On Tuesday morning a counter- feit Bank of Montreal \$5 bill was detected by Teller Lewis of the local branch. It was an imitation of the issue that was signed by Man- ager Paddon, but the forgery of his name was very poorly done.

The Perry, O'Leary and Dee vaue- rable show on Thursday, Friday, and Saturday nights was only fair- ly good. Tommy Hayes in his musical bones acts was very good. "Support of Hontzan" is being played before a large audience as we go to press.

The annual rifle match of the Victoria Rifle Association will be held on Thursday, Oct. 9th, at the falls. The general competition is open to the world. A special aggre- gate prize is offered to local ri- flers. It consists of a set of sil- verware and is now on exhibition in Victoria's window.

"What a Father can do for his boy" is the title of one of the most attractive articles which has ever appeared in the magazine. Prof. Henry Thurston Peck discusses this subject in the October Cosmopolitan in a way to be entertaining to fathers, mothers and sons. The essay will have a wide range of readers.

The extension of time given the Gas Company to have their system of operation expired last night. President Burgess has been in town for a few days superintending the work. On Tuesday a number of the new lamps and globes arrived and were at once put up. Council will likely decide to-night whether further extension of time will be given or the contract cancelled.

Thursday a team of horses of Kennedy's livery ran away from the Hickey elevator. They were hitched to a gladstone buggy. They came up Kent-st., turned south on Cambridge-st. and back to Lindsay-st. where they were caught. Little damage was done. At the Melbourne-st. crossing the rig tore some planks from the walk; Mr. Geo. H. Fox fell into the opening and was quite badly bruised and cut.

Early Sunday morning Driver Burgess of the second engine of a double-header going north fell from his engine near Brechin. He had gone out on the footboard that hangs along the side of the boiler, and was oiling his engine, when he stepped to one side of the board and his foot went down directly upon the driving shaft which was of course, working at high speed. As it came up it shot the engineer into the air and away from his engine. His fireman noticed his absence from the engine but supposed he had gone back into the van. Search failed to find him and it was not till the train had gone 4 or 5 miles from where he had fallen from it that his fellow trainman realized that he was over- board. They went back and found him rather badly used up but not seriously injured.

### REMOVAL.

The offices of the Bank of Montreal have been temporarily removed to the former Town Clerk's Office on William-st. north. This removal has been rendered necessary by the extensive alterations to be made in the Bank premises, during the next few weeks. Our customers are requested to make a note of this temporary change of location.

J. A. PADDON, Manager.

### Little Local Lines.

—The mixed train for Toronto, which left Lindsay at 11.50 a.m., now leaves at 12.05.

—Jacket Lost.—A lady's jacket made of black Venetian cloth was lost between Fingerboard and Zion, on Aug. 30th. Finder will please leave it at this office.

—Mr. W. Webster has the town clock in place in the firehall tower. One dial is on and by consulting it occasionally, citizens have found out that the clock keeps very good time.

—Mr. Lewis of the Oakwood cheese factory has been laid up for three weeks with blood-poisoning that resulted from scratching his hand on a nail while scooping salt out of a barrel.

—While Mr. Jas. Butler, the hotel- man, was reaching into a tub of pop bottles on Thursday, one of them exploded. The fragments flew danger- ously near his face, and one of them lacerated his finger.

—Lindsay Bros. held a sale of horses on Friday morning. Auctioneer Bowes wielded the hammer. The animals brought from \$36 to \$127 each. Another sale will be held on the 11th inst., and at frequent inter- vals afterward.

—The driving mare driven by Mr. Will Pascoe at the Oakwood fair took second prize, but she belonged to Mr. Lewis of the Oakwood cheese and butter factory, who because his hand was disabled was unable to drive her.

—Comfortable rooms and board wanted in private family by two young gentlemen. Will pay good price for suitable place. Must not be more than ten minutes walk from postoffice. Address G.H.K., care Watchman-Warder.

—Whitby Chronicle, Seagrave cor- respondence: Miss Jessie Stevenson of Lindsay is visiting with her friend, Miss Edna Town. \* \* Mr. Howard Metherell of Little Britain, visited his uncle, Rev. M. Metherell, at the parsonage last Sunday.

—Elsewhere in this issue will be found the advertisement of The Farmers' Advocate of London, Ont., one of the best farm journals published in America—practical and up-to-date. It is clubbed with The Watchman-Warder, the two for \$1.65. Send for sample copy.

—The Raven Lake Cement Com- pany has issued a very attractive prospectus. It is 30 pages, beautiful printed and copiously illustrat- ed. It sets forth by letter press and half-tone pictures the uses to which Portland cement is being put and the unusual facilities the Raven Lake Company has for producing it.

—Mrs. Thos. Thompson, Victoria- ave., town, has a fine illustrated souvenir of the Wolverhampton exhibi- tion of this year. The front piece is a full page general view of the fair grounds in colors and is a beautiful thing. The illustrations throughout show that the English publishers need not be ashamed of either their fair nor the way they reproduce them on paper.

—Mr. Hugh O'Leary, K. C., has so far regained the use of his knee that was injured last spring, that he is able to resume his law practice. This he has done in the premises just west of Gough's corner. Al- though yet far from total recovery, for he still walks little, and that with crutches, Mr. O'Leary's many friends are glad to see him back to business once more.

### Card of Thanks.

The directors of the South Victoria, Agricultural Society wish to thank the exhibitors for their kindness in patronizing our fair.

We wish especially to thank the stockmen for their splendid showing, and we are glad to know that the show has been a benefit to them as well as ourselves, as they made several very good sales at satisfactory prices. We wish also to thank Mr. Dougall Sinclair for his extensive display of carriages and are glad to know that he sold nearly all of the exhibit on the grounds. We also ten- der our sincere thanks to the many business men of our town who made such a display at our fair and also the many citizens who decorated our town on that day.

### SAID IN FEW WORDS

"The town clock is a first-class one. It is good for 100 years," said Mr. W. Webster.

"It was quite an experience," said Fireman Earhart, who jumped from the first engine in the recent wreck. "I saw the red lights and instantly jumped into the darkness. I fell on my shoulder, and went end over end three times. The last time I went against the fence. One time I fell off a wagon when the horses moved un- expectedly and broke my collar bone, but after jumping off that train going at 25 miles and hour I am not much the worse."

"There never was a better-behaved crowd of people at the fair than this year," said Mr. D. C. Trev. "Everybody was good-natured and obliging; the special con- stables had an easy task."

Peter Johnson: "I have got quite a few answers to my advertise- ment for a wife. Some of them come from girls at a distance and they want me to go and see them. I won't travel far for them. One girl in town signs herself A. B. and wants me to answer through the Watchman-Warder. She says she is 23 but has had a lot of trouble and looks 27. She is dark and has curly hair. I think she will suit me, and hope she will write again."

"I walked from my house to the of- fice in half an hour today," said Mr. H. O'Leary, K. C., on Tues- day. "A couple of weeks ago it used to take me an hour. But my knee keeps very stiff yet."

### Born.

MATTHEWS—At Peterboro, on Sat- urday to Mr. and Mrs. T. F. Mat- thews, a daughter.
