The Fairview Shropshires
during the present season
have had a good full mea-
sure of success. In the showings at
Ottawa a liberal share
of the prize money was
won by the first prize of
\$100.00 and a somewhat similar share
of the five prize
money. The four went to our
exhibit.
The following week at Ottawa,
the flock in all competing
classes, with the exception of two
prizes, for which they had no
chance.

The sales have been good and
continue throughout the season. They
are wide. To far-off islands
Pacific ocean, beyond Van-
couver, B.C., two lots were sent. In
New York, Pennsylvania,
Ohio, Iowa,
Michigan States they have
had new homes, with several sales
at different points in Ontario,
many appear singular that
no means
readiest section to American
find their way to so many
points. Were the many ap-
pealed letters sent by his custo-
mer to John Campbell seen and
read, probably the reason would be
found, for it is a fact that for
years a single customer has
not known the existence of any
other flock. Where
misunderstanding has happened
the seller has always been ready to
settle the matter, and in some
cases has assumed the whole loss.
It is likely enough a reason
for the Fairview flock has so wide-
spread a reputation, and another is,
the high-classed stock is produced
and has proved to be the kind
of stock, and it in turn produces
winners and ready sellers for
those who purchase Fairview Shrop-
shires.

bute to it.

The Talk of The Dominion
The decision of the Alaskan bound-
ary commissioners has stirred up an
intense interest all over Canada. In
one point, however, Canada has out-
stripped the Yankees. By clever out-
sight a Canadian firm is the first in
America to produce new maps show-
ing the disputed territory and the
commissioners' award. The Family
Herald and Weekly Star of Montreal
have been waiting for the decision
to go ahead with their new map of
the Dominion, which shows the ter-
ritory in dispute; also the new
Grand Trunk Pacific line. New Ont-
ario and in fact everything up-to-
date. The publishers' price we be-
lieve is \$2.50 per copy, but they
have decided to send a copy abso-
lutely free to all subscribers to that
great family weekly for 1904. As
each subscriber will also receive two
beautiful colored pictures, each 22 x
28 inches, along with the Family
Herald for a whole year, for one dol-
lar, it will be a surprise if they can
handle the business that is sure to
come their way. The publishers
adopt the rule of sending premiums
in the order in which subscriptions
reach them so that it will pay to get
of their lists without delay.

Twice Told Tales
On Sunday morning Bishop Ridley
College, St. Catharines, had a \$40-
000 fire. Many of the resident pu-
pils escaped in their night clothes.
Burglars caught trying to enter a
house in Hamilton on Monday morn-
ing fired on Constable Barron and
wounded him very dangerously. They
escaped.
By reason of their horse running
away, Mr. F. Guimond and his son
got in front of an express train near
L'Islet Que., on Thursday. The
father was killed and the son had
right leg cut off.

John Sinsowski, a Guelph brake-
man on the G. T. R., met with a
serious accident while coupling cars
at Georgetown. His right foot was
so badly injured that it will have to
be amputated. The left foot is less
seriously hurt, and will be saved.
—Bessie Brooks, aged ten years,
the daughter of Mr. and Mrs. George
Brooks of Falls View, was burned to
death on Friday night. Her cloth-
ing caught fire from a stove and be-
fore it was extinguished she was so
badly burned that she died, after 16
hours of terrible agony. The fam-
ily came last week from Wilson, N.
Y.

A hurricane completely wrecked
the new annex to the General Hospi-
tal at Brandon, now in course of
erection. A catastrophe was avert-
ed only by the fact that it occurred
during the hour when the numerous
workmen engaged upon it were at
dinner, otherwise considerable loss
of life could not have been averted.
The new building was 60 by 100
feet in dimensions, two stories and a
basement. It was already to roof in
when the accident occurred, and the
loss will be very heavy, as much of
the material was destroyed, and the
building was expected to cost \$30-
000.

Of the apple crop of Nova Scotia,
which will this season give 500,000
barrels for export to England, 155-
000 barrels have already been ship-
ped, the Steamer St. John City,
which sailed Saturday taking 18-
000 barrels. The remaining 350-
000 barrels will be shipped between
now and the middle of March, when
the Australian apples begin to ar-
rive. The average price netted by
the Nova Scotia orchardists this
year is \$3 per barrel, which will
make one and a half million dollars

Toronto, Oct. 26.—According to the
decision of Judge Hodgins in the Ad-
miralty Court on Saturday morn-
ing, the Dominion cruiser Petrol, of
ing, the fisheries protective service, had
no right to seize the American fish-

held that the Kittie D. was not in
our waters, and the boat is to be
restored to its owners at Dunkirk,
N.Y. A suit for damages may fol-
low. There was a difference of four
miles in the calculations of the Petrol

ing that the boat was two miles
south and north respectively of the
boundary line.

Against Irish Immigration
London, Oct. 26.—Speaking at Kil-
larny yesterday, John Redmond,
the Irish leader, declared the time
had arrived to start a campaign
against emigration. The cause of
emigration that ought to be removed,
he said, was the exaggerated
prospect held out to Irish boys and
girls if they went to America. He
criticized Andrew Carnegie's recent
speech at Waterford and said the
poor laborer in Kerry was happier
than the majority of Irish workmen
in the United States.

The Safe Satisfactory Store
Strictly Cash Dealers LINDSAY One of the Big Syndicate

AN IMPORTANT FUR SALE

STARTS FRIDAY OCTOBER 30th

Here are nine good reasons why it is much to your interest and great advantage to buy Furs from us at this sale.

- 1st—Because cold weather is coming; sure as sunlight.
- 2nd—Because prices are from ten to twenty five per cent. lower than present market values.
- 3rd—Because our Syndicate of stores bought over ten thousand dollars worth of Furs last April to get the prices down. Do you wonder why prices are so low?
- 4th—Because the first shipment of furs are made with skill and care from the season's choicest selected skins; and it is impossible for us of any other good fur house to guarantee equal quality after the first lot has been sold out.
- 5th—Because the broad variety makes satisfactory choosing an easy matter for any one.
- 6th—Because its more profitable to one who spends the family money to save from ten to twenty-five per cent. by buying at this important advance sale than it is to wait till the end of the season.
- 7th—Because by buying now you get the full benefit and comfort of your Furs from now till spring.
- 8th—Because one must buy furs largely on faith. A safe store will save money as well as annoyance, for even though a store may not intentionally deceive, what's the difference to you if you did not get satisfac-
- 9th—Because every good horse is not a two-third trotter; not every good fur need be extremely costly. We tell you exactly what you're buying and guarantee that it is the best for the last for the money standard. Your money back within reasonable time if dissatisfied.

We Offer \$1,000

For a Disease Germ that Ligozone Can't Kill.

Every bottle of Ligozone we pub-
lish offers of \$1,000 for a germ that it
cannot kill. We do that to convince you
that Ligozone kills germs.
Any drug that kills germs is a poison
and it cannot be taken internally.
Ligozone alone can kill germs, and
without killing the tissues, too. It
is the only way known—the only way
conceive of—to destroy the cause
of every germ disease.

Kills With Oxygen.
Ligozone is simply liquid oxygen—no
alcohol in it. It is the discovery
of the great German chemist, who
lived 20 years on it. His object was
to get such an excess of oxygen in staple
foods as to kill no germ could live
on any membrane or tissue.
Oxygen is life to an animal—the very
essence of vitality. It is the essential part
of life. Its effects are exhilarating, puri-
fying and invigorating. Ligozone
is Nature's greatest tonic. But
it is not a vegetable, and this excess of
oxygen—the very life of an animal—is
not a vegetable matter. Ligozone
changes the blood with such an excess of
oxygen that no germ can live where that
oxygen goes. We spend 14 days in mak-
ing each bottle.

Germ Diseases.
These are the known germ diseases.
All that medicine can do for these troubles
is to help Nature overcome the germs,
and such results are indirect, and un-
certain. Ligozone kills the germs,
wherever they are, and the results are
inevitable. By destroying the cause of
the trouble, it invariably ends the disease,
and forever.
