**The Hay Box or Cook Stove**

Continued from page one.  
 ery may become moist and moldy. A home-made hay box will usually be found cheaper and more practical. Almost any box will do which has a tightly-fitting cover. The wood of which it is made should not be too thin, and of course there should be no knot holes or cracks. Old trunks and valises may sometimes be successfully utilized in this way.  
 The box should be loosely filled with shavings, paper, or hay—the last mentioned being probably the most satisfactory. The hay should be renewed every two or three weeks. Before the pots are ready the requisite number of nests in the hay should be prepared, and when the pots are placed in these holes the hay should be packed under and around them tightly. Any kind of pots can be used, although of course earthen ones hold the heat best. The tighter the top fits the better, but if the food is to be used within six or eight hours, it is

**CAUGHT COLD ON THE C.P.R.**

**A. E. Mumford tells how Psychine cured him after the Doctors gave him up**

"It is twelve years since Psychine cured me of galloping consumption." The speaker was Mr. A. E. Mumford, six feet tall, and looking just what he is a healthy farmer. He works his own farm near Magnetawan, Ont.  
 "I caught my cold working as a fireman on the C.P.R.," he continued. "I had night sweats, chills and fever and frequently coughed up pieces of my lungs. I was sinking fast and the doctors said there was no hope for me. Two months treatment of Psychine put me right on my feet and I have had no return of lung trouble since."  
 If Mr. Mumford had started to take Psychine when he first caught cold he would have saved himself a lot of anxiety and suffering. Psychine cures all lung troubles by killing the germs—the roots of the disease.

**WILSON-BABCOCK.**  
 A pretty September wedding was solemnized on Wednesday, 19th inst. at the home of the bride's parents, Mr. and Mrs. A. C. Babcock, 18 William-st., south, when their only daughter, Effie, was joined in holy wedlock to Mr. W. E. Wilson, of this town, Rev. H. L. Phelps, officiating.  
 At 3 p. m. to the strains of Mendelssohn's wedding march, played by Mrs. (Rev.) Phelps, the bride, daintily attired in white taffeta silk entered the drawing room on the arm of her father. She was attended by the groom's sister, Miss Martha Wilson, who looked charming in a dress of white organdie.  
 The groom was ably assisted by Mr. Charlie Babcock, brother of the bride. After the ceremony all repaired to the dining room, where a sumptuous wedding breakfast was served. The house was prettily decorated with cut flowers and green sprays, the bridal party wearing white and pink carnations, with white ribbons.  
 The high work in which the bride was held, was shown by the numerous costly presents she received, among which was the groom's gift, a handsome silver sugar bowl and spoonholder combined. The bridesmaid receiving from him a beautiful pearl brooch.  
 Mrs. Wilson's travelling suit was navy blue with hat to match. The happy couple left on the 6.20 train for Midland, amid showers of rice and confetti.

**Important Amendment to School Regulations**

An important announcement was made last week at the Education Department in regard to senior teachers' examinations. At present these are divided into two parts, with a total of twelve subjects. Public school teachers with second-class certificates cannot pass them now while they are teaching, because they would need to go to a high school to prepare. In order to remove this difficulty as far as possible, and to encourage such teachers to prepare for a higher grade certificate, and in justice to those who want to make public school teaching their life work, it has been decided to divide the work into four parts, and to arrange that candidates who obtained junior leaving standing not later than 1900 may substitute a course of English literature for Latin. This is done because some teachers did not take Latin when qualifying, it not being obligatory, and others who did and have been teaching for the last five years will have forgotten most of their Latin.  
 The change has been decided upon in accordance with the request of a representative deputation from the public school section of the Ontario Educational Association.

**Saved Baby's Life**

There are thousands of mothers throughout Canada who have no hesitation in saying that the good health enjoyed by their little ones is entirely due to the judicious use of Baby's Own Tablets. And there are many mothers who do not hesitate to say that at critical periods the Tablets have saved a baby's life. Mrs. Wm. Fortin, St. Genevieve, Que., says: "I feel sure that Baby's Own Tablets saved my baby's life. When I first began giving them to him he was so badly constipated that the bowels could only be moved by injection, and he was suffering terribly. After the first day I saw a marked change, and in less than a week the trouble was entirely removed, and he has since enjoyed the best of health." You can get Baby's Own Tablets from your druggist or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**A 'lunge' that Milked Cows**

Mr. Barney Devlin, one of the keenest sportsmen in Peterborough, and one who can tell a really good story, says the Review, has now a yarn which puts Mr. Apple Laidlaw's partridge story in the shade. Barney says he was down the Ottonabee Saturday afternoon fishing. He trawled up and down for hours without a bite. He was just on the verge of returning home when a terrific pull on his line told him something was doing. He caught his line more firmly and braced his feet for a lively time. Something was on the hook all right, because the line slackened, and with a mad rush the big fish started down stream once more, and when he got to the end of the tether Barney was raised fully six inches off his seat and nearly dumped into the river.  
 For a few minutes the fisherman and the fish engaged in a battle royal, but Barney won out and the
