Mr. Alex. McEwen, D.L.S., of Haliburton, has just returned from Northern Ontario where he had charge of a government survey of the outlines of ten large townships in the northern clay belt between the Missinabie river, and the Mattagami river in the district of Algoma. He reports that nearly every acre of the territory, which consists of 1,600 square miles or over 1,000,000 acres, is agricultural land of good quality. The country generally is rolling with an occasional muskeg, and the soil a rich clay loam, with some areas of sandy loam. The timber is the largest encountered in his surveys in Northern Ontario. It is chiefly black and white spruce, the latter averaging from 16 to 30 inches in diameter, and being suitable for lumbering. The survey for the main line of the Grand Trunk Pacific passes through the new townships.

The Glengarry Alexandrian: The fakers and peddlers are doing the country. Good crops always bring them. They are selling what right taking orders for enlarging pictures, soliciting for books and maps, selling cloth for men's wear—cloth that "escaped duty at the port"—offering tinware or cutlery very cheap, selling soap and throwing in a prize, and unloading worthless stuff generally. It is used to be a peddler, a poorly clad, but nowadays the peddler is a well-dressed, prayerful smooth proposition, male or female. He or she is smart, dressed neatly, and ready to say grace at the table. lead in high five, dance the two-step, milk the cows, or make the piano sing and talk. To please while robbing them is the peddler's mission on earth.

A peculiar case was tried at Durham the other day. A man named Sproat hired a horse from one of the liveryies at Durham to drive to Cayton: he drove somewhere else, and the horse on the way broke his leg. The liveryman then sued for the sum of sixty dollars for trespass of contract. Judgment was reserved. It seems to be the law that if a man hires a horse to go to a certain place, and anything happens to it, the owner is responsible but if the party who hires the horse does not go where he agreed to go, then in case anything happens to the horse or vehicle, he is responsible.

The bills were passed with the charge for weighing deducted in each case. Some members of the board thought that in future it might be well to advertise for coal as dealers in Cobourg might supply it cheaper than the Port Hope dealers. They said that the public buildings in Port Hope obtained coal cheaper than the High School board could buy it.
