"The Liver Pills act So Naturally and Easily."

Such a statement, coming from the cashier of a bank, shows what confidence responsible people have in these pills. Mr. A. L. Wilson after trying them wrote:

"I have used Dr. Miles' Nerve and Liver Pills and also your Anti-Pain Pills, on myself, with good results. The Liver Pills act so naturally and so easily that I scarcely know that I have taken a pill. Frequently being troubled with headache I take an Anti-Pain Pill and get immediate relief in every case."

A. L. Wilson, Sparta, Ill.
 Mr. Wilson was for a number of years cashier of the First National Bank of Sparta.

Dr. Miles' Nerve and Liver Pills are different from others. Many kinds of liver pills are "impossible" after one trial on account of their harshness. Dr. Miles' Nerve and Liver Pills do not act by sheer force but in an easy, natural way, without gripping or undue irritation. They are not habit forming.

If the first bottle fails to benefit, your druggist will return the price. Ask him. **MILES MEDICAL CO., Toronto, Can.**

PRIZE WINNER.
 Mr. A. E. Webster, of Maple Hill farm, Oakwood, showed two fine colts in the draught class at Lindsay fair, a pair of one-year-olds. The filly weighed 1175 pounds and the gelding 1150 pounds. This filly has been on the show grounds eight times and has carried off eight first prizes and the getting a couple of times carrying off first and second. Without a doubt these two colts are a pair of prize winners and fine specimens of horse flesh, and a credit to the breeder.

Dr. Morse's Indian Root Pills have a remarkable record for consistently curing constipation, biliousness and indigestion, purifying the blood, banishing headaches and clearing the skin. 25c a box everywhere.

Prize Winners at Eldon Fall Fair

Below will be found the prize list of the Eldon Agricultural Society: Owing to the unfavorable weather in the forenoon the Eldon fair was not the success it was last year, although the exhibits were of an exceptional quality, especially in the horses. The judges state that there was not an unround animal in the ring, and some of the best they had ever judged.

The concert was well patronized, the hall being filled to the doors. Every one went away well pleased with the program, Miss LaDell, the star of the evening being repeatedly encored. Miss M. Davis was also well received by the audience. Mr. Piggott was in his usual funny mood and took the house by storm. The judges sent by the Government gave entire satisfaction.

IT ENDS PAIN!

Have you a sore place? Have you any skin disease, old sores or obstinate sores, that has defied all efforts at healing? If so, apply Zam-Buk and prove its merits.

A Woman's Message to Women.

Mrs. James Elsworth, 902 Salkirk Ave., Winnipeg, Man., says—"Four and a half years ago ulcers started on my left ankle, and spread until the top of my foot and limb to the knee, was well-nigh covered. I used ointments after ointments, until everything I knew of had been tried, but I received little or no benefit. I was laid up in bed for a long time, and had no rest or sleep, night after night, from the acute pain and irritation. I consulted doctors, until I had taken treatment from at least five. After using their ointments and preparations until I was positive I could get no cure, I almost gave up in despair. I was next persuaded to try a course of treatment supplied by a company operating in this city, paying as much as thirteen dollars and a half in one week for ointments, which proved of no use whatever. "One day a sample of Zam-Buk was left at the house. This seemed to soothe the pain almost instantly, and encouraged me to get a supply from the druggist and give it a fair trial. Zam-Buk had a wonderful effect in a very short time. The irritation and the pain were quickly relieved, and gradually the ulcers were cleansed of all poisonous matter. The discharging then ceased, and the ulcers began to show signs of healing. I kept on using Zam-Buk until every ulcer had been completely healed."

Monarch Peninsular

THE CASE OF THE G.H.

EVERY year brings out new ideas in range construction. Over in Preston we have expert range architects working out new conveniences, new ways to economize fuel, new methods of construction that will add strength and beauty to Peninsular ranges.

THERE was once a good housewife who used a Peninsular Range for thirty years. The family did not like it. They told her it was out of date, but the G.H. was sure that no other range could possibly have as good an oven, and she refused to part with it.

One day she broke the oven door, and although the Stove Dealer pointed out that a new Monarch Peninsular, with its many improvements, would be a good investment, the best he could do was to get an order for repairs.

Now the patterns of thirty years ago are not the easiest thing in the world to find, so there was some delay in making the new oven door. In the meantime the G.H. went on a two weeks' vacation and the family took advantage of her absence to replace the old range with a new Monarch Peninsular.

They had quite a time squaring things with the G.H. She admitted that it was a pretty range, but she was quite sure that it would not bake properly. She tried it, however, and it did bake well, and then she discovered that the oven heated quicker than the old range. She discovered something else. It didn't use half the coal the old range used. She is sorry now she didn't buy it ten years ago.

The Monarch is an all-steel range—the easy-to-clean kind. It has a quick oven with a drop door; an oven full 20 by 30 inches—large enough to bake four pies at a time. The Monarch may be had in either the square style or with a high warming closet. A reservoir may be attached to either end without the use of screws or bolts. It has a durable iron fire-box and duplex grates which may be lifted out without interfering with the fire-box linings.

"THE COST"

There is a Peninsular range to suit every purse. The booklet, "The Cost," tells all about them. Write for it.
