Montreal Grain and Produce.

MONTREAL, Oct. 1.—Cables on Manitoba wheat came stronger at an advance of 6d, with a good demand, consequently a fair amount of business was done. A strong feeling continues to prevail in the local market for oats, but the volume of business doing is small, as buyers seem to be fairly well supplied for the present. The local demand for flour continues good and a fair amount of business was done for export. Demand for millfeed is good. Butter is fairly active with a strong undertone. Cheese is quiet with prices somewhat in buyers' favor. Eggs active.
