FACES THIRD TRIAL.

Ottawa, Oct. 24.-The justice partment has ordered a new trial for Stephen Kyoshk, an Indian sentence of death at Sarnia. oshk was charged with, and found guilty of, the murder of two men. On the second trial he was found not guilty.

Now, owing to the peculiar circumstances surrounding the case, the minister of justice has ordered ar other trial. The sttorney-general is

Kyoshk was accused and tried, one of the victims be ing named in the indictment. was found guilty. New evidence was then found which threw a new light on the matter. Kyoshk was again tried, the other victim being named in the indictment. This time was found innocent. As both men had been killed at the same time and under the same circumstances this created an anomalous position. The department of justice has, therefore, granted a re-trial on the first indictment on which Kyoshk wa found guilty.

He expected his father and sat down and wrote him a letter." Barrister Robinette objected to the

letter being submitted as evidence. Continuing witness said : " Ellis then guided me to where he stood when he shot Porter and he showed me where the gun was hidden nine feet away behind a stump He first told me that Mr. Porter went by. Ellis asked Porter if he noticed his cattle. Porter replied 'Is it cattle you are looking for, or is it me,' and Ellis replied, 'If was you I was looking for I could have got you long ago. All the while Counsel Robinette for the prisoner is on the que vive crossquestioning the crown witnesses. He elicited the remark from Constable Welsh, of Minden, that Ellis told him (Welsh) that he was standing to the side of a tree and not "behind ' the tree, as witness stated on previous examination. Further that the constable had found shells in the vicinity of the murder, which were from some other gun other than that carried by Porter or Ellis, and Justice Clute reprimanded the constable for not reproducing these shells in court. They are 50 miles away at Minden. The constable produced the empty shells fired from Ellis' gun, but the ones said to be fired by Porter cannot be discover-

When court opened Constable Welsh was recalled and stated that Ellis was right hand man and a good shot. "I saw him shoot a turkey's head off, which protruded out of a hole, at 200 yards."

DETECTIVE REBURN. Detective Henry Reburn, of the provincial force in part said: "I have been in police office 31 years. I was first called in on May 1 to inestigate this case and visited the house of the prisoner."

On objection being roused by Counsel Robinette the witness was cautioned not to relate any conversation which took place between the prisoner and witness.

Continuing Detective Reburn stated: "I asked him if he wanted any assistance. I was present when Constable Welsh made the arrest and heard Welsh warn Ellis Ellis then said that Porter passed his place about 7.30. Ellis said he came out and went south, came back to the ouse, got his dog and gun to look for his cattle. Down at the swamp met Porter."

At this point the witness corroborated Con, Welsh's statement in regard to the conversation which took place between Porter and Ellis and the details of the shooting.
