THE CORRECT AWARDS.

A mistake occurred in the Lindsay fair prize list in regard to the awards for sheep. Mr. John R. Kelsey, of Woodville, was awarded first prize on fat wether, short woolled, with Mr. Campbell getting second and third. The mistake occurred when a Mr. A. Ayres was credited with the first prize.

A COSTLY MISTAKE.

Thinking she was taking a boat for San Francisco, Miss Nellie Stone, of Oakland, Calif., walked on board the Steamer Marana just as it was on the point of sailing from Victoria, B.C., for Australia, and her friends only discovered her mistake when a wireless from the captain of the Marana told her presence on board. She will probably continue the voyage to the Antipodes.

WHITE FOR MOURNING.

For mourning wear quite a number of the young English women have refused to wear black, which is always so heavy and depressing. In its place they have substituted any lusterless fabric in dead white, such as voile or net, broderie anglaise, crepe de chine or Ottoman silk, white linen or white serge. White mourning must be all white, for if a touch of black be added it becomes at once half mourning. White crepe is rather distinguished looking and gives the necessary note of mourning better than any other of the popular white fabrics.

HAMILTON'S 100,000 FOLKS.

Hamilton can now be numbered among the cities of more than 100,000 population. Assessment Commissioner J. P. McLeod has announced that the population for the year was 100,808, which, as compared with 88,918 for 1912, is very gratifying. It was Hamilton's dream to reach the one hundred thousand mark in its centennial year.

EVENING.

From upland slopes I see the cows lie by, Lying, great-chested, down the homeward trail, By dusking fields and meadows shining pale With moon-tipped dandelions; flickering high, A peevish night-hawk in the western sky Beats up into the lucent solitudes, Or drops with girding wing; the stilly woods Grow dark and deep, and gloom mysteriously, Cool night winds creep and whisper in mine ear; The homely cricket gossips at my feet; From far-off pools and wastes of reed I hear With ebb and change the chanting frogs break sweet In full Pandean chorus; one by one Shine out the stars, and the great night comes on.

A Wonderful Discovery

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such injury is insured against blood poison! Not one species of microbe has been found that Zam-Buk does not kill!

Then again. As soon as Zam-Buk is applied to a wound or a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from this is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue above it. This is why Zam-Buk cures any permanent.

Only the other day Mr. Marsh, of 101 Delorimier-ave., Montreal, called upon the Zam-Buk Company and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. To-day—over three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema!

All druggists sell Zam-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 1c. stamp to pay return postage). Address Zam-Buk Co., Toronto.

Farmers Complain of Water Famine

"Water! Water!" This is the cry throughout the country, many wells having gone dry and stock men are compelled to drive cattle several miles to appease the animal's thirst.

A farmer told a Watchman scribe that it was almost impossible to combat against the drought which invariably permeates the country at this season of the year.

With the destruction of forests and clearing up of the land it appears loss of moisture is retained by the earth and the springs are not supplied to as great an extent as formerly. The base of such supply is cut off and is only restored to normal by the heavy fall rains.

Much well-drilling is indulged in through the rural districts to overcome the want where streams are many miles distant. Deeper wells is the only solution, for it would appear that the old 20 and 25 foot excavations that sufficed to satisfy the herd on the farm in years gone by is now useless, and wells 50 and 100 feet are becoming requisite.

The new oil pipe line between the Imperial Oil Works in Sarnia and the Lima, Ohio, oil fields has been completed.

TURNED FAIR DOWN. (To the Editor of the Watchman.) Dear Sir,—The Council of the Township of Eldon acted rather shabby in refusing to give the small grant of \$25 to North Victoria Fair. There was good exhibits in all classes, but the gate receipts were reduced by the society getting a wet day. They were asked for that small grant by two delegates of the fair attending their council meeting at Lorneville. It was explained to them that the finances was a little short to pay the prisoners in full, that \$125 would be paid to Eldon ratepayers who won prizes, and that the small grant of \$25 would enable the Treasurer to pay every one in full, that Besley had given \$25, and the fair ground was situated in the Township of Eldon, North-

standing the smallness of heart and miserly disposition, they refused to give the grant. By some donation since every one is paid in full. See prize list in Watchman-Warder.
