Few Beeble seem to realize the and luss amount of time that waste answering the telephone, and aqually regardless of the annovance they cause people in husiness by not giving a plain, direct and immediate answer. This fault, of course, due to thoughtlessness, and, there fore, is quite pardonable, but is nor the less provoking. So a few simple rules, if followed out, may prove

help, both to the caller and person called : First-Never pick up the received intil the bell stops ringing. doing the bell on your other party's wire rings and he will answer it which causes a babble of voices and

much confusion. Second-Do not place your mouth too close to the mouthpiece. This Apply 101 Kent-st. W. or Box 456 causes a vibration and thus prevents your being heard distinctly.

Third-When you get the party your question should be " Is this Soand-So ?" not, "Who is this?" which is neither a pertinent nor time-saving question.

Fourth-Speak in as moderate tone as you would if the person were right beside you. To shout also makes a vibration, which is very annoying, and even a deaf person can hear a moderate tone over the

Fifth-Don't mention names or tell "all you know" over the phone on policy, and unless you have a private brated his seventieth birthday by days, weeks, months and years those on your wire.

LETTER FROM WEST. The Warder has received the follow-Spooner, Sask., a former resident of Verulam township, which should be of special interest to his many

old reader of your valuable paper, message to my old friends and neighbors of Verulam township and surrounding country.

Dear Friends .- Most of you will redace in my old home district since then, many have died, others naved, but I lank back with sure to the happy days I spent in Verulam. I would like to go east the west is my home. I like this country very much, with its climate and good crops. Last year was very wet and our crop was damaged some, a lot of it never being out, but this year is a good harvest and I never saw the like of last year

I have worked at nearly everything since I left the east, but prefer the farm. I am at present 22 miles from a railway, but only three miles from a new survey. If any of you would care to write I will pleased to answer and send views of the country, also particulars regarding depth of soil drainage and crop

Hoping to hear from some of my old friends I remain, Yours as ever.
