VALENTIA
Valentia, Oct. 21.—Our Thanksgiving service was a grand success, although the day and the roads were against us. The decorations were looked after by Mr. Jas. Casey and were a credit to him and all those who helped. On Sunday Rev. Mr. Archer, of Woodville, preached twice. On Monday night he also helped and his three addresses were among the best we ever heard here. We are also very grateful to the help of the Little Britain friends, Mr. Thompson and Miss L. Brawn, of Toronto, who assisted in the program. Mr. Thompson is always welcome here.

Last but not least, our own minister, Rev. Mr. Robins. He gave a very strong address and our choir never did better. Mr. J. M. Swain very ably filled the chair.
On Tuesday evening we finished up with a social, Mr. Jas. Casey acting as auctioneer. He keeps the ball rolling and the boys in good humor and he sold everything, even the scraps. The proceeds amounted to over \$120.
Mr. Jas. Moffatt and his sister Ettie from Toronto, Mr. Frank Adams, Mr. Will. Langdon, of Lindsay and many others were visitors at our dinner.

To Electricity Entire C. P. R. System

Milwaukee, Oct. 20.—The entire system of the Canadian Pacific Railway may be electrified.
This was the declaration to-day of Sir Thomas Shughnessy, president of the road, as he bade his family good-bye and started for Winnipeg to inspect sites there for new terminals. The work now being started in the Rocky Mountains toward the operation of electric instead of steam locomotives over several divisions is merely an experiment, he declared, preliminary to the installation of electricity throughout the system if the experiments prove successful.
The Rocky Mountains division, where experiment work is being done, presents every problem of handling traffic known to railroading, and if electricity succeeds there its universal adoption on the entire system is certain. Freight and passenger trains alike are to be handled by

electricity, and there are plenty of water-power sites available for developing the power over the entire system if the heavy grades in the mountains can be conquered by the electric locomotives.

The by-law recording his appointment, however, stated that he shall hold office until removed by the council.

FOUR STABBED BY A NEGRO

Knife-Wielder Escaped--Victims Were Bystanders

Andrew McKay, stabbed in head and face.
John Cransworth, stabbed in the neck.
William Thompson, stabbed in the shoulder.
Benjamin Dusty, stabbed in right wrist.
Toronto, Oct. 21.—Shortly before midnight the foregoing fell victims to a C.P.R. negro dining-car waiter in an altercation at Queen and Simcoe-sts. The negro, who is still at large, ran amuck with a knife, which he flourished in exciting style. Benson Cobb, a C.P.R. dining-car porter, who says his home is in Vancouver, B.C., and who admits having been with a man named Sheehan, who, he says, did the stabbing, was arrested by Policeman Parkinson and taken to the Agnes-st. police station on a charge of drunkenness.
The knife play followed a dispute over a \$5 bill in Smith's Hotel. Sheehan persisted in arguing the issue, and John Cransworth, who has been a porter in the hotel for the past fourteen years, was instructed to eject him.
At this juncture Sheehan flashed a knife and made a lunge towards Cransworth, who fell to the floor. McKay and Dusty attempted to pick him up, and while so doing the negro wounded them before they had a chance to defend themselves.
Leaving the hotel Sheehan, Cobb and the two others ran along Queen-st. towards McCaul-st., closely followed by a crowd. Thompson was among the latter and Sheehan turned on him.
Dusty and McKay were taken to Dr. Poole's surgery on Simcoe-st., where their injuries were dressed, and Thompson and Cransworth were rushed in the police ambulance to the General Hospital.

Prison Farm Hands Are Well Treated

A Lindsay drummer had occasion to transact business in the vicinity of Toronto's new prison farm in York one day last week and was surprised at the privileges allowed the prisoners. It was a bright October day and he happened to be sitting outside in front of the village hostelry when a man drove up to the blacksmith shop driving a magnificent team of greys, with well polished harness and a good wagon. The big dappled beauties pranced joyously into the shop and a few minutes later the driver, and presumably the owner, came out and crossed over to where our friend the commercial traveller sat smoking his pipe.
The Lindsay man noticed that the man's garb was not quite in keeping with the magnificent outfit which he had just landed in the blacksmith shop and also was surprised at the driver of the greys asked if he could be accommodated with a pipe of smoking. The request was complied with and a conversation sprang up in which the young fellow stated that he was a prisoner belonging to the Toronto Central Prison a few miles away, and the team he had brought to the "smithy" for shoeing belonged to the prison farm. Then it was that our Lindsay friend noticed that the garb worn by the farm hand was all blue, with a slight strip of blue braid down the trouser leg, while he wore a military style of cap.
In the course of an interesting conversation the young man informed the drummer that they were well looked after at the farm, and he had no intention of making a break for liberty, although the chances appeared to be good. However, occasionally some prisoner tried to escape but as a rule he was always caught and in time sent to Kingston penitentiary with the sentence increased. They were well treated, and had very little cause to complain, because they were not strictly guarded.

Circus Hand Once More Remanded

McPhee, the circus hand, who is now as prominent in newspaper circles as the great aggregation with which he worked, was up before P. M. Jackson this morning and was again remanded for one week. The authorities are endeavoring to deport the prisoner to the United States.
This appears impossible owing to the fact that the prisoner's mother is a resident of Nova Scotia and the man in custody drew his first breath on Canadian soil. Such being the case the power and authority vested in the deporting act is void.

WHEN LINDSAY SPREADS HERSELF

Bobcaygeon, Saturday, Oct. 18.—It is not so very often we take a trip out, but since the Lindsay streets have been paved we have been in your town long enough to notice the improvement a paved street makes over one in the old style. Lindsay as a town seems to have suddenly awakened up. Paved streets, new industries, a new system of lights, and a curling biospium—it most takes our breath, just as the visitor to Mr. Woollard's henhouse did last week, but we'll survive, and if health permits, when Lindsay spreads herself with her new lights and biospium next winter, ten to one we'll be there to watch the progress of the big event.

HURLED TO DEATH

Brantford, Oct. 21.—Caught in the belting of a gasoline engine running at a high rate of speed, Wesley Newstead, the eleven-year-old son of Mr. and Mrs. Wallace Newstead, seven miles east of the city, was hurled to death yesterday.
The boy and his father and brother were at the rear end of the farmyard, where the engine is situated for pumping water, and the boy was standing beside the belting with his hand lying on it when the brother suddenly saw Wesley being thrown over the wheel with his arm caught in the belt. The wheel is half above the floor and half below it, and the boy was pitched head-first down towards the basement. His father quickly stopped the engine, but the boy was crushed between the floor and the wheel, and was unconscious when pulled out. He lived for only about three hours.

Conserving the Waters of Scugog

A week or so ago Mr. W. H. Harris, of Port Perry, waited on the council with a view to having them pass a resolution favoring the conservation of water in Lake Scugog, the purpose being to have the Government buy the water power privileges from the Canadian Cereal Flour Mills Co., and build a dam at Lindsay to keep the water always at the proper level.
To-day it is understood that the mill race so much water that the lake is becoming shallow, boating is handicapped, and fishing limited, the result being that the Scugog Lake resorts are becoming depleted yearly instead of increasing in population.
At the meeting of the Town Council committees held Friday, Mayor Beal stated that he favored passing a resolution recommending that the Government be petitioned to see that the waters in the Scugog be kept at a certain level the year round.
Ald. Irvine—"Well, will that mean an injury to the local flour mill?"
Ald. Adams—"If it does I would be very careful in petitioning the Government."
Clerk Ray—"The Government would be asked to buy the water power from the mill company, and they would sell all right."
Reeve Kyle—"Yes, but Ald. Irvine means, would it handicap any other concern should the mill change ownership? They use a lot of water."
On motion, Mayor Beal, Reeve Kyle and Ald. Adams were appointed a committee to look into the matter and report back to council.

Government To Widen Canal at Cayceon

Bobcaygeon, Oct. 17.—Open season for partridge shooting commenced yesterday and resulted quite favorably for the hunters, a number of boys being taken after the day's sport.
Mr. Easson, engineer of the Department of Railways and Canal, was in town yesterday regarding the purchase by the Government of a strip of the south side of Canastota, between Bolton and Sherwood. So far as we understand the Government are willing to buy fifteen feet and widen the street and canal in the future. If this goes through and there is every reasonable prospect that it will, it will add very much to the attractiveness of the village. The bank are having plans prepared for an up-to-date bank and with Mr. Woollard and Mr. Bartlett rebuilding the gap made by the fire will soon be closed up and better than ever.

Bills are out announcing the annual Thanksgiving supper in the Methodist church, Thanksgiving evening, Oct. 20. Special Thanksgiving services are being held in all the churches on Sunday with special music. Rev. Mr. Grayes, of Christ church, will preach Thanksgiving services at Uxbridge on the 19th.
A merry load drove out to the fowl supper at Bethel Tuesday evening and had a pleasant time. Fowl are no object when it comes to decorating a table for a church tea. There the judge does not look so much at feathers, type and style at as at his tender years and general qualities for satisfying demands from a long abstinence to the chicken coop.
Mr. Oliver Smith, surveyor, was in town last week surveying for Mr. Clouston on Canastota.

Huerta Hold Hand

Washington, Oct. 22.—The viewpoint of the White House on the Mexican situation is worse than it is today. The Government of Great Britain is of President Huerta's thinking of anger when word came from City that Huerta had turned to the foreign diplomatic representatives at the Capitol that he to be a candidate for President in the so-called constitutional election to take place on Sunday.
Advice from Mexico that Huerta was understood to be rejected that he should be elected and Gen. Blanquet elected President in Sunday's election served to verify the worst of the Washington Government.
So serious is the Mexican situation in both its physical and international aspects that the Government declined to take it. They took their cue from White House, where there was found silence on the subject. Asked to be excused from coming in any way in regard to the situation affecting Mexico.
