—Last week was a great record-breaker at Graham's great leaving sale. Hundreds thronged the store and were sent away happy with overcoats, suits or furnishings, bought at prices never before heard of in this section. The sale will continue for but a short while longer and everyone in need of clothing should secure some of the bargains while the stock is fresh.
—The Crandella is on the ways up near Burke's mills. Its proprietors, Messrs. Lennon, Elliott and Begbie have vigorously taken hold of her reconstruction. Mr. M. R. Davis, Dominion Inspector of Mills was brought up last week and made a thorough examination of her plank-ways and ribs. He told her proprietors minutely what was required to bring it to first-class. They are doing it. By the time the flowers bloom again The City of Lindsay (?) will be one of the finest crafts on the Trent waters.

Battery with the second contingent to Africa and at the relief of Mafeking, was presented with his medal when the duke was in Toronto. Since then Mr. Moffatt received the bars and ribbon for it. The complete medal is handsome. It is in silver and about the size of a half-dollar. On one side is a striking representation of the Africa hill country adjacent to the sea where ironclads are seen. Overlooking a company of armed men is a female figure which holds in one hand a flag and with the other extends to them the laurel crown. Behind the figure are shield and trident. On the other side a fine raised picture of Queen Victoria is encircled by the words, "Victoria Regina et Imperatrix, Victoria Queen and Empress. The medal proper is suspended from three bars of 1 1/2 inches in length. They bear the words Transvaal, Orange Free State, Relief of Mafeking, reading from the upper one down. A heavy silk ribbon is doubled, laced into these bars and extends a couple of inches above them. It has an orange strip in the centre, flanked by narrow strips of navy blue lying next to the dark red borders.

—On Tuesday evening the Seven-Up Club with headquarters at the firehall presented Driver O'Neil with an otter cap. Mr. Jas. Lennon was placed on the fire wagon to call the speakers. Mr. Herb. Middleton elucidated the purport of the gathering and besought the guest of the evening to accept the gift. Mr. Arthur Devine Mallow of His Majesty's letter box service, delivered the goods together with an eponymous harangue. Of this latter discourse only those can judge who have heard the speaker address the town council in days of yore. Its fine turns of expression, sonorous periods and commas, and its rich Hibernian, can be imitated by few. It is not likely the old hall now nearing oblivion will ever hear the like again. Taken by surprise, much affected and so forth, but not too full for utterance, Tommy returned thanks praying that the fire bell would ring meanwhile.

County Council

The Victoria Legislators are in Session
County council met on Tuesday afternoon. Dr. Wood was in his place after an absence of six months in New Ontario.
The warden's address referred to a few matters of routine. At the afternoon session Councillor Staback presented requests from Carden and Eldon for grants toward paying the expense incurred by the smallpox outbreak there last spring. It was shown that Eldon had paid nearly \$1300 and Carden nearly \$1000 on that account. A grant of \$300 was made to each.
In response to the county council's request for their opinion of the road scheme and for a designation of the roads each would like assumed in case the scheme was adopted the townships made varying replies. But only Verulam and Somerville townships named the roads. The rest that replied at all not only declared against the scheme but refused to name roads. They were Eldon, Laxton and Emily. Council will be in session till Saturday.
Fatal Gun Accident
Recently Malcolm Arthurs of Sebright, near Orillia, started off to return a neighbors gun, which he had borrowed, but as he did not return when expected a party went out to look for him, but it was not until the following afternoon that the search was successful. When found the unfortunate man was found lying dead upon a rock, his gun beside him and his body covered with blood. Upon examination it was found that the gun had by some means or other had been accidentally discharged, and that the contents had entered the left breast just below the heart. The charge consisted of fine shot, and it was fired so close to the body that the wadding of the gun and parts of clothing were blown deeply into the wound. It is thought that the hammer of the gun struck a ledge of the rock, thus discharging the weapon.

Fancy Seed Peas
NOTICE TO FARMERS
The firm of J. M. Squier & Son is booking large orders for fancy seed peas. It is desired that farmers of this locality shall have the preference but orders are coming in from outside points and local farmers who do not order before Christmas will stand a poor chance of getting seed at all.
Squier and Flavelle have large quantities of Blue Imperial, Scotch Greens and other boiling peas. Orders for these must also be received early to insure being able to get them, for the demand from outside points is strong.

Pres. Derbyshire Concur
About our editorial last week on the Cheese Board, Mr. D. Derbyshire of Brockville, president of the Eastern Dairymen's Association, writes: "I am very much delighted to see the manly way you stand up for the interests of this great national industry—the manufacture of cheese. I agree with everything you said with regard to having the word "Excelsior" as our motto for the whole dominion, but more especially for this live up-to-date section, Eastern Ontario. I do wish we had more papers like yours in every town throughout Eastern Ontario, that would keep pushing right to the front and letting everybody know what ought to be done."
