FARMER'S ADVOCATE

and HOME MAGAZINE

simply unequalled and indispensable. If **you** are not already a subscriber to the most helpful, best printed and beautifully illustrated farmer's paper published, we invite scrutiny of a sample copy. A post card will bring it free. Address:

THE WILLIAM WELD CO., Limited,
LONDON, CANADA.

P.S.—The subscription price, $1 per year, includes also the superb Xmas Number.

Soft Harness

You can make your harness as soft as a glove and as tough as wire by using **EUREKA Harness Oil.** You can lengthen its life—make it last twice as long as it ordinarily would.

EUREKA Harness Oil

makes a poor looking harness like new. Made of pure, heavy bodied oil, especially prepared to withstand the weather.

Sold everywhere in cans—all sizes.

Made by IMPERIAL OIL COMPANY.

LIFE

Putting off Insurance is like waiting for a rising river to run by: the longer you wait, the smaller becomes the opportunity to cross. See our Compound Investment Plans. In 10 years we loan you the remainder of the premium and carry your risk.

Call and see us; it will be a pleasure for us to give you all information.

J. W. GARVIN,
Peterboro

White Watery Pimples.

Five years ago my body broke out in white watery pimples, which grew so bad that the suffering was almost unbearable.

I took doctors' medicine and various remedies for two years but they were of little benefit, whenever I got warmed up or sweat the pimples would come out again.

A neighbor advised Burdock Blood Bitters, and I am glad I followed his advice, for four bottles completely cured me.

That was three years ago and there has never been a spot or pimple on me since.

James Lashouse,
Brechin P.O., Ont.

LIFE A BURDEN

THE CONDITION OF MR. GARDINER, SMITH'S FALLS

He Spent Miserable Days and Sleepless Nights—Hands, Feet and Limbs Stiff and Swollen

From the Record, Smith's Falls, Ont

"There is wonderful talk about Dr. Williams' Pink Pills, why don't you try them ?"

These words were addressed to Mr. Andrew Gardiner of Smith's Falls, by a friend when he was in the depths of despondency regarding his physical condition. For three years he had suffered so much that life had become a burden to him and oftentimes he says, he almost wished he might die. Then he spent miserable days and sleepless nights, now he is enjoying life. Then his feet and hands and limbs were stiff and swollen and he was tormented with a constant stinging, creeping sensation in his body which gave him no rest day or night; now he is supple as ever he was, with the stiffness, the swelling and the creeping sensation all gone. He attributes it to the use of Dr. Williams Pink Pills.

Mr. Gardiner is a man of about 65 years, an old and highly respected resident of Smith's Falls. Having heard a good deal of talk about the improvement effected in his health by Dr. Williams' Pink Pills the Record sent a reporter to ascertain the exact truth and Mr. Gardiner told him substantially what is above related. He said he tried a number of doctors—as good doctors as there were in the country—but got no relief. He was given to understand that the trouble was caused by bad circulation of the blood, but nothing did him any good. He could not wear his boots, his feet were so swollen and when he tried to walk his legs felt like sticks. Finally he was induced to give Dr. Williams' Pink Pills a trial. He took six boxes he said, but did not see that he was much better. He determined to quit taking them but was persuaded to continue taking them for a little while longer. When he had taken ten boxes he was greatly improved and when he had taken twelve boxes he was so well that he did not need any more. It is several months since he has taken them and he has had no return of the trouble. When the reporter saw him he was wearing his ordinary boots and said he could get into and out of a buggy as well as any man of his years in the country.

Dr. Williams' Pink Pills are the friend of the weak and ailing. They surpass all other medicines in their tonic, strengthening qualities, and make weak and despondent people bright, active and healthy. These pills are sold by dealers in medicine, or can be had, post paid, at 50 cents per box, or six boxes for $2.50, by addressing the Dr. Williams' Medicine Co., Brockville Ont.

SHUT UP THE CHICKENS

They Fatten Faster Than when Left Running About

The Globe : — Interesting details giving the result of chicken-fattening experiments at the Whitby Station have been received at the department of Agriculture. The experiments go to show that as a rule farmers hold their chickens too long to reap as much profit from them as they ought. Evidently they do not appear to understand that the younger a chicken can be placed on the market the more money can be made out of it. According to recent experiments, the cost of feed for one pound of gain in live weight for one chicken three months old is four and one-half cents. If the same chicken is kept until twenty weeks old the cost of feed per pound of gain in live weight is six and three-quarter cents. A saving of two and a half cents per pound can thus be made by selling a chicken when it is three months old instead of waiting until it reaches the age of five months. The experiments also show that a chicken fed in crate makes more gain than a bird that is left running around. This denotes that greater profit is made by feeding a chicken in crate when young than by allowing it to run outside.

Young Lad Killed at Peterboro

John Derocher, the young son of Mr. Israel Derocher, Peterboro, who is an employee of the Rathbun Co., was instantly killed last Monday evening about six o'clock, by being crushed beneath a heavy stick of timber near the Dickson Co.'s mill.

The boy was standing near when Mr. W. J. Cox, of North Monaghan, was unloading the heavy log, some 50 or 60 feet long, from the truck. It appears that one end of the stick has been dropped, and underneath the centre to keep it from the ground, was placed a block on which it was intended that the timber should remain. But when the front wheels of the truck were drawn from beneath the stick it rolled from the block, and before he could escape had pinioned the boy beneath its weight. When the timber had been removed it was found that the lad's body had been frightfully crushed about the shoulders and head. Death must have been instantaneous.

—The whole Ontario apple crop this year amounted to 100,000 barrels, and one firm alone often handles that much. It is said that there are only two places in the world where the crop was good, viz., Nova Scotia and California. The county of Bruce had a large percentage of of the Ontario crop. Speaking of apple shipments this fall the Lucknow Sentinel syas: "The apple dealers who bought in bulk this year heartily wish they hadn't, for they have been badly bitten. In not one orchard did the output come up to expectations; but, instead, if the full price of contract of cantract had been paid, the cost per barrel to the dealer would have run from four to ten dollars."

AMERICANS PLOT TO GET CONTROL OF THE YUKON

A Scheme to Overthrow Canadian Rule In the Gold-Fields

Canada has well-nigh had its Jameson. raid. Last week a sensational report was circulated that 5000 American miners in and near the Canadian Yukon had plotted to take up arms, overpower the Canadian forces there and govern the country. Some believed it; others laughed at it. The official report shows, however, that it was no laughing matter. That report in Friday's Globe was as follows :

There appears to be considerable basis for the report that a conspiracy was planned by adventurers to overpower the Mounted Police and seize Yukon. Owing to the viligance of the police, however, the plot was nipped in the bud, and any attempt at filibusting will find the Canadian authorities fully on the alert. Information of the conspiracy reached the government here some time ago, and reinforcements of police were quietly moved up to the Yukon and stationed at White Horse to prevent any movement of freebooters across the border. The force of mounted Police in the Yukon now amounts to 275, and it will be quite possible that their ranks will be still further strengthened, in order to guard against possible contingencies. Whether the raid was sufficiently well planned or strongly supported to have resulted in any measure of success is doubtful, but the prompt action of the police, supplemented by the precautionary measures ordered from Ottawa, will render impossible any attempt at invasion.

Official reports of the Plot

The story of the plot, based upon official reports to the Minister of Interior, is as follows :—About three weeks ago the police at Dawson, under the able direction of Superintendent Woods shadowed a man whom they deemed a suspicious character. The police got into this man's confidence and he finally disclosed a plot, which he said had been formed by people at Skaguay and Seattle. The idea was to rush the posts in the lower part of the Yukon and then take possession of the country. The conspirators reckoned upon the American citizens in the Yukon not assisting the Canadian authorities, so that the raid, in their opinion would be a comparatively easy matter.

Police Act Promptly

News of the plot was quickly sent from Dawson to White Horse, and the police there soon had under surveillance all suspicious characters. The headquarters of the conspiracy was located in Skaguay, and it was ascertained who the characters with it were, and where the papers bearing upon the plot were kept. There was nothing, however, to show any overt act of treason to the United States or Canada, consequently the authorities could not take any proceedings. Canadian officers went down to Skaguay and consulted with United States officers, and concerted action was agreed upon in case of necessity. In the meantime the parties connented with the plot are closely watched.

Disreputable Adventurers

A high official of the Government said to the Globe correspondent tonight:—"No respectable Americans were associated with the conspiracy, but, so far as we can make out, the men at the bottom of it were disreputable adventurers. We have taken every precaution that the situation demands, and we are prepared to deal steraly with these men if they cross the border. The Government has every confidence in Major Woods, who is in charge of the mounted Police, and Inspector Snider, who commands at White Horse. The police are thoroughly on the alert in case of further developement. The situation may not have been of such gravity as the reports make out but it is well, however, to be fully prepared. I fancy, however, that premature publication has spoiled the plot, and it is possible that we shall hear nothing further of it. The United States authorities are acting in harmony with us."

Order of the Midnight Sun

Seattle, Wash., Nov. 21—The Times this afternoon printed a story confirming in every detail the story of the conspiracy on the part of certain miners to attempt the overthrow of Canadian authority in the Klondike, as published in the San Francisco Call last Saturday. The Times has in its possession documents and seals of the "Order of the Midnight Sun," the secret society which was organized for the sole purpose of accomplishing the overthrow of Canadian rule in the gold fields.

TWICE TOLD TALES

News and Nonsense Gathered From Exchanges and Elsewhere

—In France the peasantry and nearly all scientists believe that hail stones can be prevented by canon firing.

—Lord Strathcona said at Liverpool on Wednesday that a fast line of steamers would be established between Canada and England in a short time.

—The Toronto News reports a correspondent as suggesting that the new hotel in that city be called, "The Tnootro' 'ETAOIN," A man would require to have an awful jag on to pronounce that name.

—A man named Allen working at Sylvester Bros.', grain elevator, Toronto, lay down on a bin of barley to rest while the slide beneath it was closed. Suddenly the slide was opened and Allen was drawn down with the grain. His body choked the chute but about four feet of barley covered him and before he could be dug out he was dead.

—At a meeting of editors and ministers in Toronto on Wednesday, Rev. R. T. Courtice of the Methodist church paper found fault with the newspapers because they gave too much space to horse racing and other sporting events. Mr. F. C. Hocken editor of the News replied that among those who telephoned the newspaper offices for the results of the Corbett-Fitzsimmons fight were several Methodist ministers.

—The Department of Agriculture at Ottawa has forwarded another lot of specially fattened chickens in cold storage to Liverpool last week. This lot was from various fattening stations, and contained 2592 chickens. Returns have just been received regarding the first shipment of fattened chickens sent by the department this season. These were fattened at the poultry fattening station at Bonville, Quebec. They were sold in Liverpool, wholesale at 14 cents per pound, and the net returns were equal to $1.31 per pair of chickens at Montreal.

—Eleven million dollars have up to the present been received by the farmers of Manitoba and the Northwest for the 20,000,000 bushels of wheat which have passed out of their hands and been marketed. Such is the estimate of the Woods Milling Co., who claim that there is still an equal amount yet to be marketed, bringing the value of this year's wheat crop alone, up to $22,000,000. Add to this the value of the oat barley and rye crops, which are also bringing high prices, and a very prosperous state of affairs is in store for the farmers of the west.

—John Redmond, the famous Irish agitator, and leader of the Irish National party, Thos. O'Donnell and Patrick McHugh, his colleagues spoke in Montreal on Wednesday night. The first was interesting because of his conduct and utterances in parliament, the second because he addressed a Montreal audience in Gaelic (he lately surprised the British parliament in the same way) and the third because he had lately been let out of jail after serving six months for denouncing jury-packing, in his paper. Mr. Redmond praised Edward Blake and said Ireland only wanted the self-government Canada enjoys, and had as much right to rebel to get it as Canada had.

—Johan Bedini, of London, England, caught on the end of an ordinary carving fork and held in his mouth, a turnip dropped from the top of the Masonic Temple, one of the highest buildings in Chicago, one day last week. The turnip came, whizzing fairly straight and going like a sledge-hammer dropped off a mountain. Bedini danced under, judged the fall to a dot, thrust out the fork, and took the terrific shock unflinchingly. His lips bled, and he went tumbling backward, but he clung to the fork with set teeth, and there on the tines of the fork was the turnip snugly nailed. Bedini avers that he has caught a turnip hurled from the top of Brighton tower in England, 580 feet high. He intends to try to catch one thrown from the top of the Eiffel Tower.

Sale Register.

Tuesday, Dec. 10—By Elias Bowes, auctioneer, credit sale of farm stock and implements, the property of Joseph Pearn, east half lot 20, con. A Mariposa. Sale at one o'clock and without reserve. The stock is good and implements mostly new.
