- 34-Navy, brown, grey and black, 58-inch Ladies Cloth 44c
- 35-2 only Feather Boas, reg. \$3.25, bargain days \$2.50
- 36-All shades of 30c and 32c Velvetene, bargain days 25c
- 37-Heavy Corduroy, reg. 60c, bargain days 48c
- 38-Men's Cardigan Jackets, reg. \$1.50, bargain days \$1.15
- 39-Men's Cardigan Jackets, double-breasted, reg. \$1.10 85c
- 40-Scotch Wool Shirts and Drawers, reg. 55c each, B.D. 40c
- 41-Men's Sanitary Fleece Shirts and Drawers, 45c, B.D. 38c
- 42-2 shades all-wool 26 in. Grey Flannel, reg. 28c, B.D. 18c
- 43-Men's heavy Kn. to Top Shirts, reg. 50c, bar. days 40c
- 44-2 shades of some of the time-fierce- ness in his men to say that when he and his lieutenant Mr. Teevins, had got the signatures for a sewer on their street, they had been promised that the work would go on this fall, and had promised signers accordingly. Nothing had been done yet. He and Mr. Teevins had seized the bull by the horns and their efforts had accomplished a complete success, but the council had made it a complete failure.
- 45-Mayor Ingle-Council is doing all it can. The job has been let, but labor is scarce.
- 46-Mayor Martin-Some of us want to pay our share as soon as the work is done, and not run it over 20 years. If all had done the same thing you would not have such a debt on the town.
- 47-Ald. Jackson-It seems to be more a matter of wages than men. If the contractor does not see fit to pay the wages he can't get the men. If necessary the contract with Mr. Pilkie should be cancelled.
- 48-Ald. Hore-He has had two or three weeks of bad weather. He should be considered.
- 49-Ald. Jackson-He was to start within three days after being notified to do so. He was notified two weeks ago. The commissioner says he has been delayed two or three days by wet.
- 50-O'Reilly-A month ago the contract was let to Pilkie; he promised to have the laterals in on Rus- sel-st this fall. He has been delayed a good deal by wet weather, for if it rains in the forenoon work can- not proceed well in the afternoon. It is nonsense to say he has been de- layed only two or three days. Bogue is now four weeks behind. Pilkie is paying as high wages as Bogue, and says the only way he could get more men would be to bring in Italians. If Pilkie is to be held to his con- tract, hold Bogue too.
- 51-Ald. Jackson-Certainly.
- 52-It is hoped that Mr. Pilkie will be able to get the sewer down this fall.
- 53-When Ald. McDiarmid had read the report of the Police and Lighting committee which said that certain ac- counts were found correct, Dr. Bur- rows said: "These reports look well but each chairman should write his own."
- 54-O'Reilly-Nobody could read Dr. Burrows' report.
- 55-Dr. Burrows-I would be able to spell it though. The reports say that accounts have been found cor- rect, when as a matter of fact we don't know anything about them. We can only say they are correctly audited but as to whether they are actually correct we don't know.
- 56-TO THE GOOD-STREETS BYLAW
- 57-The first reading of a bylaw to raise \$30,000 for making good streets was moved by Ald. O'Reilly and seconded by Ald. McDiarmid.
- 58-The clerk began to read the audi- tor's report but Ald. Hore bethought him of a piece of sidewalk that was needed in the north ward and got into an animated sotto voce con- versation with Alds. Jackson and O'Reilly about it, when Dr. Burrows became righteously indignant at the disorder thus created and insisted on the chair calling order, whereupon the trio broke away and the clerk began anew to read.
- 59-Regarding the \$30,000 bylaw Ald. O'Reilly favored calling a public meeting.
- 60-Dr. Burrows-What do you want another public meeting for after hav- ing had one already? Bring in a bylaw for enough money to buy road machinery and repair Kent-st. That

## E. W. MCGAFFEY

## AT HEADQUARTERS

It is always more satisfactory to do business at headquarters. We can justly claim to be the headquarters for Boots and Shoes in Lindsay. Our stock includes every known article of footwear for man, woman or child; while our cash and uniform one price system makes buying at this store a sure as well as a saving investment.

## HISTORIC

Established 1885 one store; steady increasing business. To-day occupying eight large stores, covering 30,000 sq. feet of floor space. The largest retailer of boots and shoes in Canada. This is a brief history of a business built up by honest trade efforts and strictly cash selling and impartial dealing to all.

## R. NEILL

THE SHOE KING

Local agent for the Slater Shoe Co. Kent-st.

WOODVILLE  
The Farmers' Institute meeting at Woodville on Novem- ber 6th at 1.30 p.m. and 7.30 p.m. The same will be delivered by D. M. Smith and J. H. Smith of "The Soil and its Cul- tivation." Let there be a good turn of farmers.  
FLEETWOOD  
An accident happened here on Sat- urday evening which might have proved serious. The son of John Shea, in some way, got his finger caught in a cutting machine bruising four of them badly.  
Mr. A. Monk has moved to the village to the house of W. Burke. Miss Hadden of Bethany was the guest of Mrs. H. Brown on Tuesday afternoon.  
The Fleetwood cheese factory has closed after a busy summer.

## ANOTHER PUBLIC MEETING TO DISCUSS STREET-MAKING

### A By-law For \$30,000 Has Had Its First Reading

### PEOPLE MEET ON THE 17th

### Russel-St People are Anxious to Have Their sewer Done This Year

The regular meeting of council was held on Monday night and after an hour and a half was adjourned till two weeks from today (Thursday) to consider the result of a public meet- ing called for the Monday evening previous to discuss again the good streets project.

### THE LETTERS

Mr. Malcolm Cole asked for a crossing on William-st., at the junction with Bond. Horn Bros., asked for the same thing. They claimed to have found bottom in the mud at three inches.

Miss Addison asked that the taxes for October, November and December on the building occupied by the Ladies' Physical Culture Association be rebated. The commissioner said that the cement walk for Queen-st south side from St. Paul-st 198 feet east might be built. It would cost \$1.68 of which the town would pay \$1.04. The market clerk got \$96.89 weighing fees and \$5.76 market tolls in October.

### THE RUSSELL-ST SEWER

Major Martin and Mr. Jas. Teevins, denizens of Russell-st waited in lonely dignity for the signal to address the council. The man of war (late of Alma, Balacalava, Inkerman, etc.) rose with some of the time-fierce- ness in his men to say that when he and his lieutenant Mr. Teevins, had got the signatures for a sewer on their street, they had been promised that the work would go on this fall, and had promised signers accordingly. Nothing had been done yet. He and Mr. Teevins had seized the bull by the horns and their efforts had accomplished a complete success, but the council had made it a complete failure.

Mayor Ingle-Council is doing all it can. The job has been let, but labor is scarce.

Major Martin-Some of us want to pay our share as soon as the work is done, and not run it over 20 years. If all had done the same thing you would not have such a debt on the town.

Ald. Jackson-It seems to be more a matter of wages than men. If the contractor does not see fit to pay the wages he can't get the men. If necessary the contract with Mr. Pilkie should be cancelled.

Ald. Hore-He has had two or three weeks of bad weather. He should be considered.

Ald. Jackson-He was to start within three days after being notified to do so. He was notified two weeks ago. The commissioner says he has been delayed two or three days by wet.

O'Reilly-A month ago the contract was let to Pilkie; he promised to have the laterals in on Rus- sel-st this fall. He has been delayed a good deal by wet weather, for if it rains in the forenoon work can- not proceed well in the afternoon. It is nonsense to say he has been de- layed only two or three days. Bogue is now four weeks behind. Pilkie is paying as high wages as Bogue, and says the only way he could get more men would be to bring in Italians. If Pilkie is to be held to his con- tract, hold Bogue too.

Ald. Jackson-Certainly.

It is hoped that Mr. Pilkie will be able to get the sewer down this fall.

When Ald. McDiarmid had read the report of the Police and Lighting committee which said that certain ac- counts were found correct, Dr. Bur- rows said: "These reports look well but each chairman should write his own."

O'Reilly-Nobody could read Dr. Burrows' report.

Dr. Burrows-I would be able to spell it though. The reports say that accounts have been found cor- rect, when as a matter of fact we don't know anything about them. We can only say they are correctly audited but as to whether they are actually correct we don't know.

### THE COLLECTOR'S BONDS

Ald. Jackson said that application had been made to one guarantee company for sureties for Collector Nicolle, but on account of his age, and owing no property, they had been refused. Application had been made to another company.

Ald. O'Reilly-What steps have been taken to get our rights from the Gas Company.

Ald. McDiarmid-I had a talk with Mr. Burgess yesterday. He said a test would be made before council and citizens this month to show that the light was what had been promised, as he believed it was. That does not refer to the big lamps. He does not know what candle power they are yet. He hopes to put mantles on all the lamps. I told him I should not favor paying the October account till a satisfactory test had been made.

Ald. Robson-How long are we to wait? Weren't we to get some 1500 candle power lamps.

Ald. McDiarmid-There are none.

Ald. Robson-We want what the contract calls for. Then I want to know if what Dr. Burrows says about not being exempt for the like im- provements after paying for cement walks, is true.

Dr. Burrows-It is.

Aids. O'Reilly and McDiarmid-It is not.

### TO THE GALLERY

Dr. Burrows-Now I'm going to talk to the gallery in earnest. I- Ald. O'Reilly-I move we adjourn.

Ald. Jackson-I second that.

Dr. Burrows-I will say what I- Ald. O'Reilly-A motion to adjourn is always in order, Mr. Mayor.

Dr. Burrows-I say I am going to speak; you can go if you want to. Those railway gongs are an infernal nuisance, and should be removed.

Ald. O'Reilly-At last Thursday night's meeting I wanted to have them removed and you would not second the motion. Let Dr. Burrows move that they be taken down; let him be a motion-maker, and not a fault-finder only.

Dr. Burrows-I have said what I wanted to; you can do as you like.

A letter from Magistrate Steers about a bylaw naming \$30 as a fine for a violation of the carter's li- cence, contained a request that the amendments to a bylaw should be put into one volume with the bylaw itself so that two or three manu- scripts with interlineations that made them worthless before the law, would not have to be handled.

Ald. Robson wanted a sidewalk built on Albert-st where it was al- leged the mud had been fathomed at 6 inches. Other aldermen wanted the matter referred to the Board of Works. Ald. Robson moved for im- mediate action. "Carried" said Dr. Burrows.

### FENELON FALLS AND VICINITY

#### Happenings of the Past Week at the Cat-Cataract Town

Mr. and Mrs. Wm. McKendry and their son Mr. A. McKendry spent Sunday with friends in Brock.

Mr. Wm. Junkin, of the Ontario Bank, Lindsay, spent Sunday at the Falls.

Mr. T. H. DeCew left last week for the West. His family will follow him in the course of the week or so. They have been good citizens, and will be much missed and we wish Mr. and Mrs. DeCew and their daughter success and happiness in their new home.

Mr. and Mrs. C. Graham, who were this summer with Mrs. Graham's parents, Mr. and Mrs. Golden, returned to their home in Toronto, on Sat- urday. They intend coming back to reside here in May, as they have pur- chased a pretty home in our pretty village.

Mr. Birchard of Cobocook spent last Saturday at the Falls.

Mr. Dyke of the Bell Telephone Co. Lindsay was at the Falls on Thurs- day and Friday of last week.

The union pre-convention services held in the Methodist church last Sunday was well attended and a most beautiful address was delivered by the Rev. John Garbutt. The service was conducted by the Rev. R. C. H. Sinclair.

Mr. Alex. McArthur of Ops, Messrs W. A. Graham and E. Mosgrove of Kirkfield and Mr. John Austin and Miss Ella Austin of Kinnmount were among the many who came to the Falls on Sunday to attend the fune- ral of the late Mr. B. H. Maybee.

Mr. J. H. Carnegie of Indian Point passed through the village on Satur- day last.

The "Greyhound" came up from Lindsay on Sunday having on board Mr. and Mrs. H. J. Lytle, Mrs. Capt Hunter, Mr. and Mrs. S. Nevison and Messrs. Moynes, Harstone Armour, R. J. McLaughlin and Geo. Lytle. The steamer remained a sufficient time to allow the party to attend the funeral and returned in the late afternoon.

In our last budget we referred to the illness of Mr. Maybee and it is with the deepest regret that we now record his death at his beautiful home on Oak-st. on Thursday evening about 8.30. Perhaps no event has stirred all hearts to such an ex- tent in years as this sad bereavement has done. The schools were closed on Friday and the hundreds of peo- ple who followed the sad procession on Sunday showed only to a small extent the sorrow and grief felt by all. Teacher, husband, father, friend, his kind and genial smile will be missed in almost every circle. The re- ception of a number of his friends was shown by the beautiful floral offerings from an anchor from Mr. Wm. McArthur, a star from his pupils and an anchor from the assistant teachers. The trustees, councillors and pupils of the schools marched at the head of the procession and as the solemn words of the beautiful burial service fell from the lips of the Rev. J. Garbutt there was many a wet eye through- out the cemetery. The deepest sym- pathy is felt for Mrs. Maybee and her three children in their terrible trial by one and all. We trust that com- fort be given her by the who alone can comfort and that she may be given strength to bear the unex- pected cross in such a truly patient way that the crown awaiting her may be the brighter for this trial.

We regret to state that a number of persons are suffering from colds owing to the uncertain weather of the last month.

### LETTERS FROM THE PEOPLE

#### A Complaint From George st

Editor Watchman-Warder:

Sir,-I have resided on that portion of George-st. from Wolfe-st. to the river, and have cheerfully paid my taxes (an ever increasing burden), without grumbling. The road is like a plowed field ready for a fall crop of wheat, and although there are three dwelling houses we are minus a foot-walk and have to go ahead plunging through mud and mire, and on a dark night it is dan- gerous to life and limb. Many a time I have been promised a walk, but aldermanic promises are like those of princes, made to be broken. What becomes of the old planks re- placed by granolithic? Are they not good enough for walks in the outlying districts, or are they used to heat the public buildings now that coal is so dear? May I ask what is done with the money I have paid into the town treasury for the last fifteen years? Certainly none of it has been spent for my benefit or that of my neighbors. At any time an accident might happen which would cost the town more than a dozen second-hand sidewalks.

We have no light, no good road, no sidewalk, yet we pay for them.

In conclusion, I may say that two men in two days with a few old planks, a few pounds of nails, would take away our grievances and make us happy and contented citizens. Yours truly,

ROBERT HUDSON.  
Lindsay, Nov. 3rd, '02.

## PUBLIC LIBRARY DOUBTFUL YET

### Tenders for the Building Accord- ing to the Plans Were From \$18,000 to \$20,000

### NEW PLANS OR NOTHING

### Carpenter Work Alone Would Cost \$7,000 and Brick-work \$4,000

The beautiful new Public Library building that on the blue print plans and mental film of its promoters, adorned some choice location in this town, and shed forth intellectual radiance has been unceremoniously put out of existence by the estimates of the tradesmen. Mr. Carnegie's \$10,000 may do for some towns and it may do for some buildings in this town, but it certainly will not pay for a Public Library such as upon the authority of the Library Board is suitable for Lindsay.

A meeting of the board was held the other evening and the tenders, called for some time ago, were open- ed. They proved of such nonplussing proportions that the members sat aghast.

"And the holdest held his breath for a time."

Then each convaled with the other to keep secret the figures contained in the tenders. No press representa- tive was present, but by a system of mind-reading known only to news- paper men it has been discovered by the Watchman-Warder that the lowest tender asked \$18,000, and the highest \$20,000.

The carpenter work would cost \$7,000, the brick work \$4,000, the painting \$1,100, and other things in proportion.

For a while an ineffectual nibble at the plans, reducing the cost by \$300 here and \$400 there was conducted, until it became evident that the night would be far spent and the plans un- recognizable by the time \$8,000 had been chopped off by that process. Then it was given up, and now the board is uncertain whether a new plan for a cheaper building, or indefi- nite occupation of the old council chamber will result.

### LITTLE BRITAIN

A Farmers' Institute meeting will be held here on Nov. 27th, when ad- dresses of great interest to the farm- ing community will be given. A number of local men will read papers. Let there be a good turnout.

### CAMERON

The sale of farm stock and imple- ments at Lakeview Farm, Fenelon, on Oct. 28th was not as largely at- tended as it should have been, and much of the stock remains unsold. The prices realized were very good however. Mr. Day intends holding another sale in the near future, the date of which will be announced later on. The stock is all well bred and will be sold without reserve.

### KINMOUNT

Mrs. Soward returned home on Fri- day last after a two weeks visit with her son in Minden.

Mr. F. Train has completed the new bridge across the Burnt River at Furnace Falls. He is now rushing the completion on the new school which will be occupied about the 15th.

The following Kinnmount boys are off for their annual deer hunt: H. S. Hopkins, Calvin Hall, W. T. Morris- son, J. C. Train, Wm. F. Craig, T. Joy, Fred Dettman, Bert Hopkins. They are hunting in the townships of Galway and Cavendish.

Mr. W. T. Craig went north on Sat- urday presumably for a deer hunt. Wonder if he will bring home any more "wolf stories."

The scholars of the village school are preparing a programme for a con- cert to be held in the new school about the 15th or 20th.

Hallow'e'en passed off quietly here, no damage being done by the small boys. We noticed a wagon or two up side down on the street.

Mr. Geo. Southern of Millbrook is hunting with the Hopkins-Dettman party in Galway. His two sons, Lionel and Earle are staying at Mr. A. Y. Hopkins'.

Mr. T. R. Fell, cook in Craig and Austin's camp, Essonville is home for a few days.

### MILLERSMITH-NORTH EMILY

The anniversary of the North Emily Methodist church was celebrated on Sunday 26th ult. Rev. Mr. Mether- all, one of our former pastors preach- ed in the morning notwithstanding the inclement weather. Mr. Mether- all had a large congregation and all were delighted with seeing his pleas- ant face and hearing his earnest re- velation of the scriptures.

A number from our vicinity attend- ed the induction of Rev. Mr. Smith at the Presbyterian church, Bobcay- geon. Many eminent clergymen were present and a very en-joyable time is reported.

A new teacher has been engaged for the ensuing year in the person of Mr. R. Webster of Glenora. Mr. Webster comes highly recommended.

Mr. P. Meehan is erecting one of the finest edifices in the province. It is estimated Mr. Meehan's house will cost over \$3500.

Mr. Thos. Bell has completed the new Orange Hall. A fowl supper is expected soon.
